Interviews ; November , 1977 Approx.

Mrs Ormond had lived in house for over 50 years. It has been in the family for three generations, but she is unable to give any dates. Grandfather Ormond was with the Grand Trunk Railway, father and husband worked for the C. N. There is a carriage house in the back yard that she believes is original. The architecture is much the same. A large tree, which still stands, was planted by the first Mr. Ormond.
