Government Post-Office Savings Bank of Canada
300 POST OFFICE SAVINGS BANKS
IN ONTARIO AND QUEBEC

are open daily for the receipt and repayment of deposits, during the ordinary hours of Post Office business.

The direct security of the Dominion is given by the Statute for all deposits made.

A depositor in any of the Savings Bank Post Offices may continue his deposits at any other of such offices, without notice or change of Pass Book, and can withdraw money at that Savings Bank Office which is most convenient to him.

Interest at the rate of 4 per cent. per annum is allowed on deposits, and the interest is added to the principal on the 30th June in each year.

Postmasters are forbidden by law to disclose the names of any depositor, or the amount of any sum deposited or withdrawn.

A full statement of the Regulations is published in the "Postal Guide," and may be seen at any Post Office in Canada.

COUNTY OF HASTINGS.

ITS SITUATION.

A Directory of the County of Hastings would not be complete without a description of the location of the County, its manufacturing resources, its mineral wealth, character of its soil, its convenience to the markets of the world, and other matters of interest, in addition to the mere alphabetical list of residents. The County of Hastings, which for population and wealth stands amongst the foremost in the Province of Ontario, is situated on the north shore of the Bay of Quinte, commanding a frontage on the Bay of about thirty miles, and extending to within five miles of the head of said waters. It comprises within its limits several townships, a city, and many growing and prosperous villages. The incorporated villages of Trenton and Mill Point, the townships of Sidney, Thurlow and Tyendinaga, and the City of Belleville, lie immediately adjacent to, and fronting the Bay of Quinte; Rawdon, Huntingdon and Hungerford are immediately in their rear; Marmora, Madoc and Elzevir to the north, and Lake, Tudor and Grimsthorpe are to the north of these. During the last few years a number of new townships have been laid out, which will be observed by reference to the map accompanying this work. Through the latter, a public road known as "The Hastings Road," has been opened by the Provincial Government, and free grants of land are made to those who desire to go in and settle the country. By the British North America Act, the County was divided into three Ridings for electoral purposes. The East Riding consists of the village of Mill Point, the townships of Thurlow, Tyendinaga and Hungerford; the West Riding comprises the township of Sidney, village of Trenton and City of Belleville; the North Riding takes in all the townships and municipalities north belonging to the County. The County has access by railway and water to the Eastern and Western markets, both of the United States and the Dominion. The navigation of the Bay is convenient and secure and free from those dangers to which vessels on the lakes are

liable. All kinds of steamers and vessels ply regularly between Trenton, Belleville and Montreal, Belleville and Kingston, Belleville and Picton, Belleville and Napanee, and Belleville and Oswego, thereby affording a frequent, cheap and comfortable means of conveyance for the purposes of travelling and commerce. The emigrant who wishes to settle in or visit the County of Hastings, can proceed from Quebec, either by railway or steamer to Belleville.

ITS RAILWAYS.

Belleville is now connected with the Northern and North-Western part of the County by two Railways, viz :—The Grand Junction Railway, which on the first of August, 1879, was completed as far as the village of Hastings, in the County of Northumberland, and the Western terminus of which is the Georgian Bay; and the Belleville and North Hastings Railway, now completed as far as the Iron Mines, some six miles North of the village of Madoc. The route of these railways can be traced by reference to the Map accompanying this Directory, and the reader will there see how well adapted these roads will be to the development of the mineral and agricultural wealth of the County. Stages also run daily, connecting with all the principal villages in the northern part of the County, and to Picton during the season when navigation is closed. From Belleville to Trenton, the western boundary of the County, it is twelve miles by water. A short distance westward is the head of the Bay, which is separated from Lake Ontario by a narrow strip of land. Some years ago it was contemplated to cut a canal connecting Lake Ontario and the Bay of Quinte, preliminary steps to secure which were taken. Should this canal be constructed the dangerous navigation along the Prince Edward shore would be avoided, and the route from the far west to Montreal shortened some fifty miles.

ITS MANUFACTURING RESOURCES.

Few counties in Canada possess such splendid water-power privileges as those of Hastings. Three large and rapid streams pursue their winding course throughout the County, fed by numerous tributaries, furnishing at a thousand different points splendid mill sites, and an ample supply of water to drive any description

of machinery. These streams take their rise from 75 to 100 miles to the north. The largest stream is the *Trent*, situated in the western section of the County, and possesses by far the best privileges for driving machinery, though up to the present, these privileges are comparatively unoccupied. The *Trent* is a rapid stream, and in many places broad and deep. The *Salmon*, running through the eastern section of the County, empties into the Bay at Shannonville. It is a fine stream, and furnishes a large number of flourishing saw and flouring mills with motive power. The River *Moir*a empties into the Bay at Belleville, and for sites for mills and factories, and machinery of every description, presents unrivalled advantages. For twenty and thirty miles back flouring and saw mills are erected at different points on the river; and at Belleville we have very extensive mills and factories of various kinds, supplied with water power from this river. These factories might be increased manyfold without affecting the supply of water, excepting for a short period during the summer, but this inconvenience, which is now common to many streams in Canada, might be obviated by erecting storage dams at convenient points up stream. Large quantities of square timber and scores of thousands of logs are every Spring brought down these rivers from the extensive lumbering districts, 50 to 100 miles back, and made up into rafts to go down the Bay and the St. Lawrence to Quebec, or manufactured into lumber at the extensive mills at Belleville, Trenton, Mill Island, Mill Point, Ameliasburg and Shannonville.

ITS MINERAL WEALTH.

The mineral products of North Hastings are varied and extensive enough to entitle it to the name of a mining district, and to justify the belief that it will in time contribute largely to the resources and wealth of this country. Copper, lithographic stone, lead and bismuth, are known to exist in considerable quantities at various points, but whether they will ever be worked to advantage can only be determined, as in all mining enterprises, by an expenditure of capital in actual working; this is certain however, that the same indications in a country where people were accustomed to mining adventures would be eagerly followed up, and there can be no doubt that as the attention of miners is

turned to this region they will before long be developed. Antimony, zinc and nickle have also been found, but whether in appreciable quantities is yet to be determined.

IRON ORES.

Iron is well known to exist in limitless quantities at various points; the beds upon Crow Lake, formerly worked by the Marmora Company, have gone into the hands of an American Company, who have exported the ore by way of Rice Lake and the Cobourg and Peterborough Railway to the States; they built a Railway from the ore beds to the navigable waters of the Trent, and bought out and revived the old Cobourg Railway for the purpose of this traffic alone. They spent a very large sum of money in this enterprise, and the results fully justified the outlay, and for some years large quantities of ores have been exported to the United States, but on account of almost the complete collapse of the iron trade there during the last two or three years, work at the mines has to a great extent been suspended. With a revival of the iron industry, however, it is expected the works will be resumed with even more vigor than has hitherto characterized their operations.

But within the last four or five years, the attention of capitalists has been directed to the existence of valuable Iron Ore beds in various sections of our own County; large discoveries have been made of this precious metal in Madoc, in addition to those previously known to exist there, as well as in Marmora, Lake, Elzevir, Tudor, and Townships north, and these discoveries led to the construction of the Belleville and North Hastings Railway, which utilizes the Grand Junction Railway as far as what is known as the Junction, upwards of thirteen miles from Belleville, near Luke's in Huntingdon, thence running north through the Township of Huntingdon, across Moira Lake in Madoc to the mines now opened up. The charter for this road gives it power to extend as far north as York River, and as valuable iron ores have been discovered in some of the remote northern Townships, there can be no doubt that the Belleville and North Hastings Railway will in a few years be completed and running as far north as the Madawaska, and quite possibly further extended to tap the Canada Pacific Railway. During the winter of 1878-9, several of the

iron mines in Madoc, the work in which will be found spoken of more in detail in the description of the Township of Madoc, have been operated and large quantities of ore have been sent to Belleville harbor, via the Belleville and North Hastings Railway, thence shipped by vessel to ports in New York State, and sent to the iron smelting furnaces in Pennsylvania. The ore thus far taken out has been found to be exceedingly rich, and it is to be hoped, the efforts made to establish Smelting Works in Belleville will prove successful, as no other place in Ontario possesses equal natural advantages, so that this ore may be worked up in our own country. The establishment of Smelting Works would as a natural result be succeeded by the location in Belleville of Iron Industries of various kinds on a mammoth scale, and would prove of immense advantage not only to the city but to the whole country.

GOLD.

The Gold bearing Quartz Veins, now known to exist in our County, and their richness, known by development and test of their ores, demand at our hands a fuller history of the first find of Gold, the excitement and failures resulting therefrom, and the present demonstrated great Gold Deposits in our County, than we have time and space for.

The first discovery of gold, in quartz, may be said to have been made in the Township of Belmont, sometime during the summer of 1863.

In the autumn of 1866, marvellous deposits of GOLD were found in the now historical RICHARDSON MINE in the Township of Madoc. The fame of this discovery spread over Canada and the neighbouring States, and the country was filled with gold-seekers. Belleville which was, and should be, the "*Golden Gate*" to the Gold Mines, had its hotels crowded with strangers, and six or eight four-horse coaches were required to convey the adventurers after fortune to the land of promise. But this discovery, unfortunately, proved most detrimental to the mining interests of our County, as the gold was found chiefly in pockets containing a decomposed ore material of surpassing richness, but outside of these pockets the rocks were composed of almost every kind of rocks metamorphosed together, containing no gold except when in contact with

these rich pockets, and whether there is a regular "Vein" of Gold-bearing material is a question ever since mooted, but the mine became entangled in Chancery suits, and waiving the nature of the deposit and the facts connected with these rich pockets, the mine became a failure, managed as it was, without experience or proper capital. The mine having become closed soon after the first discovery, by Chancery proceedings, there followed a great rush of adventurers, who made little or no prospecting during the following winter, and who were ultimately doomed to go away disappointed and soured with the country, when they should justly have blamed only their ill-advised enthusiasm and want of judgment.

However, great numbers of these adventurers remained during the summer of 1867, and inaugurated all kinds of mining company frauds, by which, and "Saltings" of shafts and ore with gold where no gold existed, hundreds of honest men were induced to invest, to their loss of course, and thus the "District" was blamed for those losses. During this wild-cat period, mines were salted with gold, sundry itinerant self-styled assayers made false and deceptive assays; money was invested in the erection of some eight quartz mills, some one was placed in management of each of these mines and mills who was interested in their stocks, and who claimed to know everything about mining and milling, but who in fact knew nothing. Their dupes and co-stock holders were farming or attending their stores at home, these parties had a few tons of rock treated at the mills, and good returns, derived from gold put in were shown, thus sustaining false assays and enabling these adventurers and pretended "experts" to sell shares and interests here and there all over the country.

Meanwhile the Richardson Mine, after various delays, got to work in 1868, with returns of about \$15 per ton, a very handsome thing it is true in other gold countries, but this small yield was utterly unsatisfactory to those who had believed the Mine contained enough Gold to pay the "National debt" of the United States, so managers shut down and made a complete change in their amalgamating machinery, the cry everywhere being raised "we have not machinery to take the gold out,"—the new machinery would not increase the yield; in the meantime the Directors

had advanced all their available cash means in erection of a mill and alterations of machinery, and the Company was largely in debt; the Directors could advance no more; other stockholders would do nothing; so the mill and mine were closed.

Men who had put their money into swindles, into Gold Mines having *no* gold in them, began clearly to see utter ruin, the flock of cormorants and adventurers began to fly from the country, and all the blame fell upon the unfortunate District. If a man trusted to a knavish and rascally adventurer and placed in him an absurd confidence and put money through his influence into "a Gold Mine" having no Vein or Gold, it was the District's fault, and this poor and district outraged man has never yet stopped crying out "fraud!" "no Gold in the District!" &c., and has not to this day learned that he played the fool and lost his money chiefly through his own folly and ignorance.

During this period of excitement gold was found in the Township of Elzevir, near Bridgewater, at a mine called "Barry Mine." "Difficulty with the amalgamating process" was alleged, but it is now generally known there was not sufficient quantity of ore, and what there existed was too poor to pay.

In Hungerford Gold was also said to be found, and some mill or reduction works were erected and failing to give satisfactory results, the blame was charged to "defective machinery," instead of non-existence of gold-bearing quartz veins and of ore in quantity, and of proper richness.

Near Bannockburn, in the Township of Madoc, Gold was also found, and a quartz mill erected near or at the Village. The same experience followed—insufficiency of ore and leanness of the small quantity of quartz found, being evidently the cause of failure.

Recently a very promising discovery of Gold, it may be here remarked, has been made near Bannockburn, on the property of James Brown, M. P., which will likely, judging from the richness of the quartz and the evidence of large quantities of ore existing in the quartz veins found, bring into paying use the mill then erected and now standing at Bannockburn.

In the fall of 1868, however, many old miners clung to the district, believing that sooner or later gold would be found in well-defined quartz veins, as in other gold-bearing districts of the world—the hopes of these men have been most completely realized, and to-day there are known to exist in Marmora, the Township west of Madoc, veins of quartz, wide, traceable on the surface, by frequent outcrops for several miles, and of great richness. In the autumn of 1868, Michael Gillen, a highly respectable farmer of Marmora, while hunting some cows he supposed had strayed over upon the long range of syenitic rocks east of the Moira River, and locally known as the Huckleberry Rocks, from the large quantities of that berry found on the same, discovered on the surface, on lot 6, in the 8th concession, pieces of quartz containing nuggets of gold. Marking the place carefully so as to find it again, he communicated the fact to his brothers and to Capt. John O'Neill; this latter gentleman having had much mining experience, with his pick and miner's pan visited the locality with Mr. Gillen, and by digging down some 12 to 18 inches found a well defined quartz vein of over 6 feet in width, and by panning some of the partly decomposed vein material he got numerous shows of gold; he and Mr. Gillen found numerous shows of visible gold in the quartz of the vein. Capt. O'Neill getting the direction or course of the vein followed along its course for a long distance, uncovering the vein here and there and at every place finding visible gold; he traced the vein across lots 6, 7 and 8, of the 8th concession of Marmora; here the River Moira crosses the Belt, and the direction of the vein pointed to their probable outcrop on lots 9 and 10 in the same concession, on the west side of the river. As expected, the prospecting for the same was highly successful, and openings upon the veins were made in said lots, with rich results in gold panned and found visible in the ore of these veins. With these genuine discoveries came the question with Mr. Gillen and friends how to get the title to these lots? he and his friends were poor in ready cash; they looked all around for aid, keeping their discoveries, in mean time, strictly to themselves, finally through the aid and assistance of two well-known gentlemen, to wit; William Gilbert, now Landlord of the Gilbert House at Trenton, and Mr. Patrick Turley, of Frankford, in the County of Hastings, they raised or borrowed the

necessary cash granting to these two gentlemen the right to purchase a $\frac{1}{8}$ interest in lands. Mr. Gillen and parties (8 in all) bought the E. $\frac{1}{2}$ Lot 6 and parts of E. $\frac{1}{4}$ of Lots 9 and 10 in the 8th concession, and thereafter they bargained for the "Gilbert Test Mill," erected during excitement of first discovery at Eldorado, in Madoc, and moved and set the same up on lot 6, to be worked by water power of the River Moira. The dam on the river however was soon washed away, leaving these parties with their properties and mill unpaid for, except by borrowed money, the repayment of which was coming due.

Then there came upon the field W. J. Gatling, Esq., well known now as having given his name to the justly famous "Gatling Mine," located on the N. E. corner of lot 9, in the 8th concession of Marmora; of this mine little need be said, as it is known almost all the world over. At the Centennial Exhibition of the United States, held at Philadelphia in 1876, it received the highest award for its ores, &c., exhibited, to wit; Medal and Diploma. Numerous assays and tests of its ore have been made by eminent assayers in the United States, in England and Canada. Mr. Selwyn, Director of the Geological Survey of Canada, in the "Descriptive Catalogue" of economic Minerals of Canada, exhibited at Philadelphia, says of assays made of Marmora ores. "Twenty assays made in the Geological laboratory of samples from the Marmora mines have given an average of 1,6367 oz. of gold, equal to \$33,81 to the ton of 2,000 lbs. Twelve of the samples were from the Gatling Mines, and gave an average of 1,9107 oz. of gold, equal to \$39.47 to the ton."

The East $\frac{1}{2}$ of lot 6, in the 8th concession, also East $\frac{1}{4}$ of lot 10, and remainder of East $\frac{1}{4}$ of lot 9, in said concession, have been purchased by General Tuttle, of Iowa, A. H. Campbell, Esq., and C. J. Blomfield, Esq., of Toronto, and others, and all that is now needed to make these long, wide and rich veins largely productive is the introduction of requisite capital. The Gatling company and others, we are informed, are now offering great inducements to parties to aid them with the capital needed. The late financial depression forcing suspension of work of development, but allowing requisite time for parties interested in these veins to ascertain, *by actual test workings*, the *best, cheapest*,

and *most effective* process for saving the gold existing in ore, the richness of which sometime may be seen by reference to the following assays of the ore found associated with the quartz and called "Mispickel" made in Swansea, Wales:—

"ANALYSIS OF MISPICKEL."

The Gatling Mines have been examined and reported upon by the eminent experts, Profs. Chapman, of Toronto, Richard, of London, and James Douglas, jr., late of Quebec, but now of Phoenixville, Penn., and many others.

We should remark that soon after the discovery of gold on E. ½ lot 6, gold in quartz was found in the S. W. corner of lot 7, in the 9th concession, now known as the *Williams or Cook Mine*. This mine has been developed by Dr. Williams, and more recently by miners left at the mine to support themselves or leave the country. The history of this mine is a study, and proves the mine to be on a rich and inexhaustible Quartz Vein. It has been worked without capital and by most imperfect and crude means; while Williams worked it some \$30,000 is said to have been saved, while over twice that amount is now known to have been lost and run into the River. Late treatment of its ores give far better returns, but the mine is idle for want of capital, while workings show that by use of a right amount of capital the mine could be made to yield an immense amount of gold. We learn that the mine has been bonded to Mr. Thomas Macfarlane, Superintendent of the Silver Smelting Works at Wyandotte, Michi-

gan, and we hope Mr. Macfarlane will perfect his purchase and realize an immense fortune from the same.

We must not omit to mention the "Feigel Mine," located on lot 17 in the 11th concession of Marmora; the history of this mine is an interesting one. The first discovery was of what seemed a pocket or bunch of rich quartz, which treated at the time at mill known as the "Caldwell Mill," yielded some \$6,000, but this bunch being exhausted and the owners of the mine poor the mine became leased to sundry parties; first to Messrs. Wheeler and McRay, afterwards to Mr. John McFee, and since by him sublet to Messrs. Stewart and Gray. The first lessee cut across hill a little North of first opening, and within a few feet of the rock surface struck the Vein, but lessees getting into some dispute with each other and the owners, the Mine after the extraction of a few thousand dollars of gold, returned to the hands of the owners, who thereupon leased the same to Mr. McFee, who worked it the same for some time, taking out considerable gold; he in turn subletting to Messrs. David Stewart and Mr. Gray, who have been working the Mine for several months, and bringing down their weekly Brick of Gold to one of our banks. There has been much secrecy in the management of this mine, and we cannot give exact yields per ton and details of facts desired.

The Dale Mine, worked by Mr. Dale, and lying immediately to the North of the Feigel is also a very promising property; the amount of gold yielded by this mine we cannot exactly estimate, but it has been worked by the proprietors, on a small scale according to their means, with satisfactory results.

In the Geological Survey of Canada for 1873, the gold-bearing belt of Marmora, in which are found the "Williams Mine," the "Gillen Mine," (on E. $\frac{3}{8}$ of 6, VIII. con.,) the Toronto Co's Mine, (on W. $\frac{1}{2}$ of 6, in 9th con.,) the "Gatling Mines." The "Feigel Mine" and numerous intervening properties, is marked on a map accompanying Mr. Vennor's Report by a Belt or dark strip called the "gold horizon," and lying between, or at junction of the reddish syenites on the East, and the "Silurian Formation" lying westerly. This line of junction is as long as any known rich Gold District. It is well defined, and the traced and

developed quartz veins show by outcrops and depth of shafts, sunk at various places, a richness equal to the most productive quartz veins in California, or in any part of the world. But the putting money into "holes in the ground" falsely and delusively called "Gold Mines," during 1867 and 1868, have paralyzed, it seems, the courage and energy of our people, and developments of rich Veins, drag their slow lengths along—unaided.

Rumors of numerous rich finds have been circulated as made recently. The completion of our "Grand Junction" and "Belleville and North Hastings" Railways, we hope will give needed encouragement to the rapid development of our gold deposits, as well as to that of Iron and other minerals in the North end of our County.

We said of Belleville, in the beginning of this article, that it was and should be "The Golden Gate to the Gold Mines" of our County, but apathy, distrust of well proven facts, and the existence among our people, both of city and country, of an utter do nothing spirit, will or may fail to maintain that position for Belleville. It is not wise, truthful or just to sit down at home, never visit mines and say in one's own mind "Prof. Chapman is a man who will talk or write nonsense," that "the Geological Survey of Canada will publish to the world falsehoods of our County," that "we don't know Prof. Richard or James Douglas, jr.," and therefore "we believe in nothing said by them, or any "facts" proven by our best and most reliable citizens. The man who listens to nothing, sits at home and thinks he knows all that can be known, may be a very wise man, and we have no doubt he is—"in his own conceit." But we hope for our County, that at an early day a full development of gold deposits will be made, and a united and courageous effort alone can effect this result.

FLORA OF HASTINGS.

Prof. Macoun, of Albert College, Belleville, on account of his thorough knowledge of botany, was selected to make two tours through the great North-West, the last of which was made during the summer of 1879. The stock of information which he has

supplied to the Government will be of immense value to the country. He has furnished our readers at various times with interesting papers on the "Flora of Hastings," from which we make the following extracts :

That it is our soil which is the cause of our success in grain growing and fruit raising must be evident to every unprejudiced person who has thought ever so little on the subject. The New England States have a climate much like our own, but their products are nothing compared with ours. Now all persons that know anything of botany are well aware that a soil which produces but few species of trees or herbaceous plants in a state of nature is not a soil fitted to give large returns to the husbandman ; whereas a soil that is prolific in species and genera always produces abundant crops of all kinds. That our country is well adapted to Grape Culture, will very soon be apparent to all who take an interest in the advancement of the county. At a recent meeting of the Vine Growers' Association of Ohio, it was stated that wherever a species of grass, known to botanists by the name of *Poa compressa*, abounded, there Grape Culture would be successful. Now, I have observed this grass in many parts of the county, but particularly in the vicinity of Belleville, and hence I infer that the day is not far distant when the Bay of Quinte will be as famous for its apples, pears and wine, as it is at present for its wheat, barley and cheese.

Another production of our county, which deserves particular attention at this time is our immense stores of peat, a production which from present appearances will very soon rival both wood and coal as an article of fuel.

There is not a township in the County which has not its peat beds, though it is in North Hastings where they have their greatest development.

Almost every Tamarack swamp is a peat bog ; all our beaver meadows are more or less composed of peat, every cranberry marsh is a real peat bog, while almost every lakelet or pond in the whole County, is surrounded by marsh or bog from two to thirty feet deep ; even the marsh below Belleville, on the opposite side of the bay, is an immense peat bed.

The "open tamarack swamps" and cranberry marshes of our County, have the same vegetation, and general aspect of peat bogs throughout North America, and any farmer who has one on his farm, can tell by actual examination how much peat he possesses without going to the expense of sinking a *shaft*.

The productions of our forests, at present, are the most valuable of our natural products. At the head of these stands the white pine (*Pinus Strobus*), a tree which stands unequalled in North America, for many uses. It has been and will be for many years, a source of great wealth to the County. Next in value is the sugar maple (*Acer-Saccharinum*) whether we prize it as an article of fuel, for its sugar, or for its use in the arts. Were the wood of this tree properly brought before the manufacturers of Europe, it would be largely exported for veneering purposes.

The red pine (*Pinus resinosa*), white spruce (*Abies alba*) and tamarack (*Larix Americana*), are abundant in many parts of the County. The former, however, being confined almost exclusively to the rear townships of the North Riding. All three are of great value to shipbuilders for various purposes.

Another of our forest monarchs—the hemlock (*Abies Canadensis*) is of great value in the arts, on account of its tanning properties. By a new process its tannin, it is said, can be concentrated and exported in small bulk. If this should be so, it will be a greater source of wealth to our back townships than the manufacture of potash. The extraction of this tannin would be a surer road to fortune than a large investment in our best gold mine.

The white cedar (*Thuja Occidentalis*) is rapidly assuming an important place amongst our articles of export; for over two years the Moira has been filled at certain seasons with immense quantities which are exported to the neighbouring States.

My limits will not allow of a more extended notice of our remaining forest trees than merely a passing glance at the most prominent. There is not one, however, that is not of use in the arts for some purpose or other.

The balsam and black spruce are abundant at the north, and

in some instances, attain a large size. "They are much used when young, as rafters for barns and houses. Both species are highly ornamental, delighting the eye of the most careless, and giving a charm to the most uninviting prospect." The "gum" of the former is much used by lumbermen, both as an outward application and internal remedy. In fact, it is the "medicine chest" of the back-woodsman.

Red cedar is found in a few localities along the Moira and Bay of Quinte. Its wood is manufactured into bedsteads, which are said to be a terror to bed-bugs. Its wood seems to be indestructible, as whether buried in the ground or exposed to the atmosphere it shows scarcely any symptoms of decay.

We have, at least, six species of oak, all of which are useful, especially the white and blue, which are cut by the lumbermen for export as squared timber; while the others cut into lengths and manufactured into staves, are a source of income to those who are unable, through want of means, to engage in the manufacture of squared timber.

Of elms we have three species, and perhaps one or two varieties. Two of these, the rock and swamp or white elm, are exported in large quantities, while the ashes of all three are counted the best for making potash. The bark of the slippery elm is much used by medical men, as it contains a mucilage, which seems to act beneficially in many complaints.

Three species of ash are scattered over the County; the white ash on our uplands, the red or rim ash along our rivers and streams, while the black ash forms extensive swamps in many localities. All three are of great use in the manufacture of carriages, sleighs and almost all of our agricultural implements.

We have three birches—the yellow, the black and the white or canoe birch. The two former are much used in cabinet work, while the latter is almost invaluable to the Indian on account of its bark, of which he makes his canoe.

Of our remaining trees, the principal are the beech, the basswood, the hickory, the bitter-nut, the butter-nut, the balm of Gilead, the black cherry and the red or soft maple, all of which are

used more or less for useful or ornamental purposes. In all we have forty species of forest trees, nearly all of which are used by our own mechanical for the manufacture of every article used by the farmer—for all our conveyances—for nearly all our household furniture—in the building of our steamboats and sailing vessels, and in the erection of our houses.

FREE GRANT TOWNSHIPS OF NORTH HASTINGS.

We are indebted to Mr. J. R. Tait, the Crown Land Agent at L'Amable, for the following interesting information respecting the Hastings Road and developments in that section of the country :

The following named Townships have been placed under the operations of the Free Grants Act of 1868-9, namely :—

FARADAY,	DUNGANNON,	MAYO,
HERSCHEL,	MONTEAGLE,	CARLOW,
MACLURE,	WICKLOW,	BANGOR.

The average proportion of good Agricultural land in each of these Townships, is about 50 per cent. The principal timber on the cultivable lands are Maple, Basswood, Beech, Birch, &c., with an odd Pine, and in places a clump of pine trees scattered through it. The remainder of the land consists of rocky portions, swamps, and meadows, lakes, and pine land, a large proportion of which may be used for pastures and meadows.

The soil is a sandy loam, principally formed from the decomposing Laurentian Rocks, and contains very little Quartz or Felspar, in fact, the greater portion is plant food, and is fertile beyond expectation, and this fertility is not confined to the valleys, but may be said to be equally so on the high lands. Fall grains, spring wheat, oats, peas, barley, beans, corn, are grown successfully, and it is also well adapted for all kinds of vegetables ; fruit trees are being tried and with hopeful success.

The general appearance of this part of the country is rough and uninviting, which to strangers looking for farms, at first, has

a very depressing effect, but which impression, on a further acquaintance wears off and gives place to an attachment and liking for the place. Indeed, in very few instances—if any—has any of the large number of families who have made their homes in these Townships, left, because of dislike to the country, or because of the non-productiveness of the soil.

There has been quite an influx of settlers into these Townships within the past year or two; they contain now about 800 families, all of whom appear to be progressing and well satisfied with their locations; and there is room for quite a number more as not over a fifth part of the settlement lands in them are yet occupied. They are well supplied with excellent water, almost every lot having a small brook running through it, and every township a number of Lakes of more or less beauty, which adds materially to the picturesque appearance of the country. Almost all of the lakes abound with trout.

The Hastings Road from Madoc North is the principal thoroughfare into the Free Grant Townships, a large portion of which road is very bad, but which is receiving annual grants from the Government, and it is to be hoped will shortly be placed in a tolerable state of repair. But it is to be hoped also that the Belleville and North Hastings R. R. will soon be pushed back into these parts. In this age a railway back there has become an actual necessity in the progress and development of that part of the County.

Mission stations have been established through the district by the Presbyterians and W. Methodists, also occasional visits by the clergy of the Church of England and the Church of Rome.

A deep interest is being taken by the settlers in school matters, and a number of public schools have been established in the several municipalities.

The Post Offices in the several Townships are Umfraville, L'Amable, and Bronson in the Township of Dungannon, York River, in Faraday, Monteagle Valley. Greenview, Maynooth, Hubla, in the Township of Monteagle, Purdy in the Township of Bangor, Boulter in Carlow, and Herman in Mayo. Grist and Saw Mills are in operation at L'Amable, York River and

Maynooth, with one saw mill in Monteagle, one in the North part of Carlow, and two in the course of erection in Mayo.

Considerable lumbering is being carried on in these parts, but it is receding to the North, North East, and North West from L'Amable.

This whole section is admirably adapted for stock raising, Dairying purposes and Cheese Making, and in view of this there is evidently an increased interest being taken in the improvement of Live Stock.

Iron Ore Mines have been found in one or two places ; there is no doubt about there being large quantities of Iron and probably other metals, but the country has not yet been prospected, nor has any interest hitherto been taken in their development.

THE FUTURE.

With this brief glance at the capabilities, resources and prosperity of the County of Hastings, we naturally look to the future, and ask ourselves what may we expect when the rich and inexhaustible resources of this County are developed ? The present prosperity of the County is exceedingly gratifying to the early settlers who hewed out for themselves a home and fortune in the backwoods ; it is gratifying to the men of energy and enterprise, who have contributed to make it what it is, but after all it has only commenced its career of greatness. In the front and middle Townships there are as rich farming lands as can be found in Canada. The Northern part of the County has been proved to be rich in minerals, which will abundantly repay the expenditure of a large amount of capital, skill and enterprise ; and for manufacturing purposes, we have facilities in the three great streams which traverse the County, unsurpassed in this country. With these natural advantages, and with Railways running into the mineral regions of the North, and connecting us with the great West, we may expect to become one of the most important manufacturing centres in the Dominion.

LOYAL ORANGE INSTITUTION.

The County of Hastings is divided into two Counties for Orange purposes.

South Hastings comprises Belleville, Sidney, Trenton, Frankford, Thurlow, Tyendinaga and Hungerford. The following are the Officers for 1879:—Robert Gordon, W. C. M.; James Richards, D. C. M.; Wm. McCreary, C. C.; Jason H. Post, C. S.; James Macoun, C. T.; Matthew Hill, C. L.; William Wray, C. P.; Thomas Gray, C. D. of C.

North Hastings comprises all the other Townships and Villages within the County not embraced within South Hastings. The following are the Officers for 1879;—Malcolm Bristol, County Master; R. J. Craige, County Deputy Master; J. B. Cleak, County Chaplain; Jas. A. Orr, Secretary; Jas. Cook, Treasurer; John McCaw, County D. of C.; Wm. Gay, and Thos. Armstrong, County Lecturers.

There are four District Lodges in South Hastings and five in North Hastings.

SOUTH HASTINGS, No. 1.—Jas. Richards, Master, Belleville; D. Serviss, Secretary.

SOUTH HASTINGS, No. 2.—Richard Porter, Master, Thomasburg; Richard Morton, Secretary, Thomasburg.

SOUTH HASTINGS, No. 3.—Robert Duffin, Master, Myre Hall; John Latchford, Secretary, Myre Hall.

SOUTH HASTINGS, No. 4.—R. F. Pegan, jr., Master, Milltown; J. G. McKinney, Secretary, Lonsdale.

NORTH HASTINGS, No. 1.—D. McQuigge, Master, Harrold; John Bateman, Secretary, Harrold.

NORTH HASTINGS, No. 2.—A. Thompson, Master, Queensboro; L. S. Guffin, Secretary, Madoc.

NORTH HASTINGS, No. 3.—Samuel Tummon, Master, Ivanhoe; J. Craige, Secretary, Stirling.

NORTH HASTINGS, No. 4.—John F. Morrill, Master, Millbridge; Chas. Donaldson, Secretary, St. Oia.

NORTH HASTINGS, No. 5.—J. B. Cleak, Master, York River; T. Armstrong, Secretary, York River.

COUNTY GRAND BLACK CHAPTER.—F. M. Clarke, Master, Belleville; Wm. Wray, Registrar, Tweed.

A SYNOPSIS
OF THE MOST IMPORTANT OF THE
COUNTY OF HASTINGS BY-LAWS.

PAYMENT OF JURORS.

BY-LAWS NOS. 51 AND 180.

Enact that there shall be annually raised over and above all other Taxes, a certain sum, which shall be paid out together with the other portions of the Jury Fund, to the Petit Jurors according to the provisions of Chapter 14, and 15 Victoria, and to the Grand Jurors, as follows: for every day in attendance in discharging the duties of Grand Jurors, one dollar and ten cents per mile for every mile he shall necessarily travel from his residence to said court.

The Sheriff to receive for each pay-list made out, two dollars; for checking the names of Jurors when called, per diem, fifty cents.

Any excess required for payment of Grand Jurors, over and above the amount levied, shall be paid by the Treasurer out of any funds in his hands, which shall be met by assessment at the first ensuing assessment.

HAWKERS AND PETTY CHAPMEN.

BY-LAW NO. 249.

Enacts that Hawkers and Petty Chapmen must take out a license.

Hawkers and Chapmen must enter into a bond with sureties—security given to be to the satisfaction of the Warden, and to be entered into before the Clerk of the Council, who shall grant a Certificate of the same, for which he shall receive \$1.00.

Upon production of certificates, Treasurer to issue license, for which he shall receive \$20, for persons travelling on foot; by horse, \$75; by two horses, \$100.

Licenses terminate on the 31st December, of each year.

Bonds renewable yearly.

Upon demand of any Township Councillor, or any Constable, peddlars must show their license, otherwise their goods may be seized, and recusant examined before the nearest magistrate.

If a peddler produce his certificate, but has not taken out a license, magistrate may inflict a fine of not less than one dollar, nor more than twenty dollars if no certificate is produced; or if it appears that he never had one, the maximum fine shall be inflicted.

A Tin Plate to be fastened on vehicles in a conspicuous place, "Licensed Hawker, Peddler or Chapman," the County and year, under a penalty of \$40.

Names of all licensed persons to be published. One half the fine to go to informer, the other half to the Municipality where the offence was committed.

PAYMENT OF COUNCILLORS.

BY-LAW NO. 320.

This By-law is superseded by Resolution, which provides that each Councillor shall receive \$3.00 per day for attendance at Council meetings, and 10 cents per mile from his home.

SALARIES OF OFFICERS.

BY-LAW NO. 92.

Enacts that the salary of the County Treasurer be \$800 a year; County Clerk, \$400. The County Surveyor receives \$700 per annum by Resolution. Superintendent of Roads \$700 per year.

PURCHASING ROADS AND MAKING THEM FREE.

BY-LAW NO. 123.

Enacts that the Roads built by the Corporation of the County of Hastings, under the provisions of By-law No. 71, be Free Roads.

DUTIES OF COUNTY SURVEYOR.

BY-LAW NO. 215.

Passed February 21st, 1867, repeals other By-laws relating to this subject and defines the duties of County Surveyor as follows :

County Surveyor at the first meeting of the Council in every January, to furnish detailed statement with plans, specifications and estimates, of the cost of all work in progress, and also of all work he considers necessary to be done during the year, with like plans, &c.

To report at each subsequent meeting in writing, the condition of work done, and whether, when completed, the original estimate will be exceeded.

No contract to be entered into until estimate and plans of the work to be done have been approved of by the Council or Warden, except when the sum to be expended shall be less than one hundred dollars.

No contract to be entered into until tenders have been advertised for in two public newspapers, and by posting handbills in the most public places in the vicinity where said work may have to be done. Tenders to be opened by the Council in session who shall decide which shall be accepted.

The Surveyor to report to the Council at every regular meeting the true condition of all the County Roads, repairs necessary, and also to report the condition of all the County property.

COUNTY ROADS AND BRIDGES.

BY-LAW NO. 156.

Establishes the following roads and bridges as County roads and bridges :—

1st. The road leading from Madoc village, between the fifth and sixth concessions of Madoc, to the Hastings Road in Tudor.

2nd. The road leading from the village of Stirling to the side line between lots Nos. 18 and 19, in the third concession of the township of Rawdon, thence north to the eighth concession of said township, thence west along the eighth concession road to the town line of Seymour.

3rd. The road leading from Caton's school-house in the township of Hungerford, to Stoco village, and from thence to Bogart's mills in the said township, which may be better known as the road now travelled.

4th. The road between lots Nos. 5 and 6 in the township of Tyendinaga, assumed in lieu of the town line road between Thurlow and Tyendinaga.

5th. The road from the village of Roslin to Shipman's mills.

6th. The road leading from the village of Tweed to the village of Bridgewater, and thence on the road known as the Flinton road to the town line between Elzevir and Kaladar.

7th. The road leading from Shipman's Mills, by the way of Waterhouse's Corner, along the second concession of the township of Hungerford to the town line between Camden and Hungerford, and to be assumed instead of the town line between Tyendinaga and Hungerford.

8th. The road leading from Marmora village to the Belmont line, and known as the Norwood road.

9th. The road leading from the village of Lonsdale to the Tyendinaga station of the Grand Trunk Railway, commencing at the said village, and running thence between lots Nos. 30 and 31 to the said Railway station, on the track now travelled, or as may be decided by the County Surveyor.

10. The road leading from the village of Bridgewater to the village of Queensboro', in the township of Elzevir.

11th. The road now travelled leading from the village of Hastings in the township of Madoc, to the south west corner of lot No. 7, in the 8th concession of said township; thence northerly to the school house on lot No. 11, in said concession, thence to the north east corner of said lot; thence northerly to the side line between lots Nos. 13 and 14; thence easterly along said side line to Queensboro'.

12th. The road leading from the front of the third concession of the township of Rawdon, commencing between lots Nos. 6 and 7 in the said concession; thence northerly to the thirteenth concession on the road now travelled, and known as the Peterson

road, to be assumed in lieu of the town line road between Rawdon and Huntingdon.

13th. The road now travelled from Marmora village to Beaver Creek Bridge, and thence to the township of Lake.

BY-LAW NO. 170.

Repeals the 13th section of By-Law No. 156, and substitutes the following in lieu thereof.

"That the road now travelled from Marmora village to Beaver Creek Bridge, known as Derry's Bridge, between the third and fourth concessions of the township of Marmora, and from thence to the township of Lake.

BY-LAW NO. 175.

Establishes the following as a county road, in lieu of a part of the town line, viz :

"Commencing at the west side of lot No. 12, in the centre of the first concession in the township of Huntingdon ; thence east across lots Nos. 12, 13, 14 and the west half of 15 ; thence south 57 rods ; thence in a southerly direction 94 rods. The allowance between the townships of Thurlow and Huntingdon being 19 rods from the line between lots 15 and 16, in the said township of Huntingdon."

BY-LAW NO. 183.

Assumes the bridge crossing the river Trent, in the village of Trenton, as a County bridge.

BY-LAW NO. 213.

Defines the County road through the village of Madoc as follows :

Commencing at the present gravelled road on Durham street and running west on Cooper street until it intersects John street ; thence northerly on John street until it intersects the gravelled road leading to the township of Tudor.

BY-LAW NO. 207.

Passed Feb. 10th, 1856, divides the County gravel roads into two sections. The first or southern section comprised of the following roads :

- The road from Trenton to Richmond.

THE CITY OF BELLEVILLE.

HISTORICAL.

Less than one hundred years ago the site of the City of Belleville was in a state of nature. It was not until 1787 that what was then designated the "Ninth Town"—now known as the Township of Thurlow—was surveyed by Louis Kotte, a Surveyor in the employment of the Crown Lands Department, who had been engaged in the survey of several of the other townships bordering upon the Bay. It appears by the original map that lot No. 4, 1st concession of Thurlow, was reserved for an Indian burying ground, and it was upon this lot that the site of the village was subsequently laid out by Surveyor Wilmot in 1816. Settlement was for some years very slow, the Townships of Sidney and Thurlow forming the western limit of settlement. Capt. John Singleton and Lieutenant Ferguson were the first settlers in the new Township, they settling soon after the survey was made on lot No. 6, afterwards owned by John Canniff, sen., and subsequently by Shubael Foster, father of W. A. Foster, Esq., ex-Mayor, which is now included within the limits of the city. Neither of these gallant pioneers survived long, however, as it is recorded that Singleton died in 1789, and that Ferguson followed him to the grave three months afterwards. In the spring of the same year a party of fifty refugee loyalists settled in Sidney and Thurlow, and the following year John Taylor, one of the party, who had settled up the river in the 5th concession, came to live near the mouth of the river, on lot No. 5, now the most important part of the city. Capt. John W. Meyers, having purchased from Mr. Taylor the north half (more or less) of his lot for \$100, in 1790, erected a dam on the site of what is now known as Bleecker's or Meyers' dam, where he built a mill, the only one between Port Hope and Napanee, and in 1794 constructed the famous old brick house which—til 1876, stood—

the northern brow of the hill, and was the oldest brick house in Upper Canada. Up to the commencement of the present century but little progress was made by the embryo village, and this is not to be wondered at, as near the mouth of the river was a barren plain, with a heavy cedar swamp extending on each side of it. What is now Front Street—one of the finest streets in Canada—was a thick cedar swamp, with the rock within a few inches of the surface. Soon afterwards a few houses were erected south of Dundas Street, and for many years settlement did not extend north of that street. Probably the first person to build a house in Belleville was Asa Wallbridge, and in 1798 John Simpson built the first tavern in Thurlow, which stood until a short time ago, on the south-east corner of Dundas and Front streets, opposite where is now situated the residence of Hon. Lewis Wallbridge. At this place was the ferry, and subsequently the first bridge. About six years later the site of the bridge was transferred to the spot now occupied by the lower bridge. Although this was off the line of the then principal road, yet it was deemed advisable to place the bridge where the river was narrowest, in order that it might be constructed at less expense—a determination which many at the present day question the wisdom of.

At the time last spoken of, and until 1816, Belleville was known as "Meyers' Creek," so called in honor of Capt. Meyers, the mill-owner. The Indian name of the river was Sagon-aska, and it had also borne the name of Singleton's River. In the year mentioned, Governor Gore named the village Bellville, in honor of his wife, Lady Bella, which name has subsequently been transmogrified, by the addition of a single letter, into that which it now bears.

This year Mr. Wilmot, acting under instructions from the Government, laid out the Indian reserve on lot No. 4 into town lots of half an acre each. In this year, also, a post office was established in Belleville, and Mr. S. McNab was the first Postmaster.

The growth of the place is shown in the gradual increase of population, which was, according to Talbot, about 150 in 1818; " 1824 about 500; in 1829 about 700; and in 1836 about

1,700. Mr. Miller states the population at 150 in 1824. Which of these conflicting authorities is right we have no means of determining, though such information as we have gleaned leads to the belief that the truth lies between these statements. and that 350 would probably be nearly correct.

In 1836 Belleville set up as an independent municipality, when the first Board of Police was organized, the members composing which were: For the first ward, William McCarty and Asa Yeomans; for the second ward, Zenas Dafoe and Wm. Connor. Billa Flint, jr., (now Hon. Billa Flint,) was by the people at large elected the fifth member, and the Board also chose him President by a vote of 3 to 2, Zenas Dafoe being the opposing candidate. The late George Benjamin was chosen Clerk to the Board. A considerable increase in the population of the town took place at this time, and in 1838 the Court House and Gaol were completed, the contractors for which were Robert Matthews and David Duff, of Kingston, the contract price for the building being \$23,640.

The first quarter sessions were held at the Court House in 1839, when Benjamin Dougall presided; Edmund Murney, Clerk of the Peace; J. W. D. Moodie, Sheriff. In 1836 Belleville was said by a writer in the INTELLIGENCER to contain 1,800 inhabitants.

After several years of slow but substantial progress, Belleville was incorporated as a Town in 1850, the members elected to serve in the Council for that year being: Samson Ward, C. O. Benson, F. McAnnany and Jacob Bonter; Ketcheson Ward—B. F. Davy, Dr. R. Holden and Samuel Stevens; Baldwin Ward—Jonathan McCurdy, John Coulter and Edward P. Bosely; Coleman Ward—R. F. Coleman, Burleigh Hunt and John Donoghue. M. Sawyer was Town Clerk. At this time the Council elected the Mayor, and Benjamin F. Davy was chosen the first Mayor of the Town of Belleville, by 8 votes to 3, cast for Francis McAnnany. This was a great step in advance, and Belleville was at this time no doubt considered a thriving and prosperous place. Still, judging by the unerring financial standard, it could not have been much compared to the Belleville of to-day, as the

amount of the Collector's roll for collection in 1849 was only £749, 17s 6d, or in round numbers \$3,000, just one-twentieth of the amount of taxes at present collected in the municipality. To illustrate the progress of the town we may state that in 1860 the assessed value of the town was \$1,584,320; in 1870, \$2,669,776, and in 1879, \$3,731,674, as revised by the Court of Revision.

From 1850 onwards Belleville made more rapid progress, one incentive to which was the improvement in the means of transit afforded by the construction of gravel roads throughout the county, the credit for the establishment of which was largely due to the late George Benjamin, and in 1859 another beneficial idea of the same gentleman was carried into effect, namely, the removal of tolls from the roads, which has proved of great advantage to the people of both Town and County.

In 1860 occurred another important event in the history of the Town, namely the separation from the County, which has also had a beneficial effect. In 1861 the population of Belleville was shown by the census to be 6,277. Progress was still the watchword, and by 1871 the census showed 7,305 residents of the Town. Since that time, a special census taken in 1876 gave the population as 11,120, at about which figure it now stands, the hard times and other circumstances, notably the great decline in the lumber trade, having a depressing effect upon our prosperity as a community. It may here be said that the limits of the Corporation have been extended several times, the 200 acres on which the village was founded in 1816 having gradually expanded to 1,360 acres, embraced within the City limits in 1879.

THE CHURCHES.

The first church erected in Belleville was built by the Methodists in 1817. It was a rough frame structure 50 by 30, and before it was enclosed service was held within the frame. It was never finished, the pulpit being of rough boards and the seats of a similar character placed upon blocks. It was replaced in 1831 by a better building. The first English Church west of Adolphustown was built in Belleville in 1819-20, being begun in the former and completed in the latter year. Rev. Thos. Campbell

was the first minister, and continued in his charge until his death in 1835, when he was succeeded by Rev. Mr. Cochrane, who remained but three years, when the late Rev. John Grier was appointed and continued pastor until his death in 1870. Rev. Mr. Ketchan was the first Presbyterian clergyman here, and under his ministry the first church of that denomination was built. At the present time Belleville has within her limits 16 churches, some of them amongst the largest and most elegant in the country. These are: Church of England 5; Canada Methodist 3, (besides one near the city on the Kingston road); Presbyterian 2; Methodist Episcopal 2; Roman Catholic 1; Baptist 1; Bible Christian 1; Congregational 1. Thus it will be seen that the City is supplied with every facility for religious instruction, and, besides, there is a Sunday School connected with each of the Protestant Churches, the oldest of which is probably connected with the Bridge Street Canada Methodist Church, which was established in 1822.

EDUCATIONAL.

Unfortunately but little can be learned regarding the earliest Schools established in Belleville. During the embryo years of this, as of other communities in Canada, educational advantages were few. There was no Government-aided system, as now; settlers were very poor as a rule, and men of education who were willing to half-starve themselves in endeavoring to train the young idea were not numerous. During the earlier history of the country, any man who could read, write, and cypher as far as the rule-of-three, was considered sufficiently advanced in educational acquirements to warrant him in offering himself as a school teacher. A large number of these were men who had failed in every other vocation in life, and upon the assumption that any one was fit for a teacher, they would sally forth and teach for a few pounds a month and "board round." On the establishment of the Common School system all was changed, and now Belleville can point with pride to her High and Public Schools, which are equal to any in the Province, and at which the attendance is about 1,800 daily. A Roman Catholic Separate School, efficiently conducted, has also a place amongst the educational institutions of Belleville,

which comprise, besides, a High School and 5 Public Schools, to which a sixth will probably be added ere long.

In addition, there is situated here Albert University, which was established as the Belleville Seminary in 1857, under the auspices of the Methodist Episcopal body. After a hard struggle, this institution has won a place of prominence amongst the various institutions in the Dominion established for the purpose of imparting instruction in the higher branches. The staff of instructors is a large one, and is composed of gentlemen of eminent ability, at whose head is the Rev. Dr. J. R. Jaques, D. D., Ph. D. Alexandra College, for females, was established at the same time as Albert University, and is a model institution. Both colleges are highly successful, as they deserve to be, and as we trust they will continue to be in the future.

The Ontario Institution for the Deaf and Dumb, which the Government of Ontario established here in 1870, has proved most successful under the able and judicious management of Dr. W. J. Palmer, who has held the position of Principal since its opening. The institution now stands fourth in point of importance on the continent, the attendance averaging about 225.

Another highly important educational institution in Belleville is the Ontario Business College. From very small beginnings this Institution has grown until it has attained the proud distinction of being the most largely attended of the numerous Business Schools in Canada.

Still another prominent educational institution here is the school for the education of female pupils, established by the Sisters of Loretto. There is a large attendance of pupils, and an excellent education is given in the establishment.

Several private schools also find a good deal of patronage in our city.

THE PRESS.

It is to the credit of the people of Belleville and the country surrounding it, that a fair measure of patronage has generally

been accorded to such local journals as really deserved to be supported. The first newspaper published in Belleville was the *Anglo-Canadian*, which was established in February, 1831. The life of this paper was short, and the *Phoenix* succeeded it in candidacy for public favor. After one year's experience, the last number of the *Phoenix* was issued on July 3, 1832, the name of the paper being then changed to the *Hastings Times*, but its existence was not of long duration. The INTELLIGENCER was founded in 1834 by the late George Benjamin, who continued to publish it with success until 1847, when Mr. Bowell became a partner in the establishment, and in 1848, Messrs. Bowell and Moore became proprietors. This partnership, after three years and three months existence, was dissolved, and Mr. Bowell remained sole proprietor until January 1st, 1875, at which date it became the property of The Intelligencer Printing and Publishing Company. The INTELLIGENCER is the oldest journal in Belleville. The Daily edition of the INTELLIGENCER was first published on May 1st, 1867, during the gold excitement, and proved a success from the commencement.

The *Sun* was established in 1835 or '6, but like its predecessors, soon died for want of support.

The *Plain Speaker* was a journal established in 1836, by a Mr. Hart, and was the exponent of those who took part in the rebellion of 1836 and '7. The editor and proprietor was subsequently arrested among others, when on an expedition to relieve one of the Banks in Cobourg of its funds, in order to replenish the exchequer of the "Patriot army," and served an apprenticeship at Her Majesty's expense in a large stone building near Kingston.

The *Victoria Chronicle* was established in 1841, by Washburn & Sutton. In 1849, Mr. E. Miles became the proprietor, and continued to publish the paper successfully until its amalgamation with the *Ontario* in 1873. The *Independent* was founded in 1858, by J. W. Carman, and was discontinued in 1865, being then the property of J. T. Bell, now County Clerk. The *Daily Ontario* was established in 1870, by Carman & Yeomans, and is now published by Mr. T. S. Carman. The *Free Press*, a small advertising sheet, circulated gratuitously, was established in

1876, by McCulloch & Hynes. The last named journals, together with the INTELLIGENCER, are all that survive of the numerous experiments in newspaper publishing in Belleville, five journals thus composing the newspaper press of the city, which fairly represents the two great parties into which the body politic is divided.

TRADE.

The trade of Belleville early began to assume considerable proportions, as situated in the rear townships were vast groves of pine, and forests of oak, for the transport of which to market the river Moira afforded excellent facilities, and as settlers began to pour into the rear concessions of the front townships, and into the second and third ranges of townships, where excellent land was to be found, the place became the natural centre of trade, whither came the farmer to dispose of his produce, and to purchase his stores, and whence the supplies for the timber makers and saw log cutters were drawn. Much square timber was made up the river, and floated to Belleville and rafted here, a favorite spot for rafting operations being at the foot of Dundas Street, where was then six feet or more of water, but where now one third of that depth is not to be found, the annual deposit of gravel from the upper parts of the river having filled the channel at that point. Saw mills were established, and a great amount of lumber was manufactured here, the Hon. Billa Flint being one of the pioneers in that business, and for a long term of years the principal export of Belleville was sawn lumber. Within a few years this trade has experienced a severe check, and as the pine limits are somewhat exhausted it is not at all likely that it will ever again attain to the proportions which it formerly assumed. With the decay of the lumber trade, other branches of industry have sprung up to replace it. Belleville has become a great centre for the export of barley, which is grown in immense quantities on the favoring soil of the adjoining townships, and now it stands amongst the foremost of the depots for the shipment of this article of produce, of which upwards of 600,000 bushels were exported from the port during the past season. The dairying business has also grown from modest beginnings to

mammoth proportions, the amount now realized by the farmers of the County of Hastings annually for their butter and cheese being about \$600,000. As all this produce is shipped here for the English market, it may readily be imagined that it contributes in no small degree to our prosperity. As the best means at our command of showing the fluctuations in and gradual growth of the trade of Belleville, we present herewith a tabular statement of the Customs returns from the year 1855, upwards.

MANUFACTURES.

Like those of every other place in the Dominion, the manufacturing interests of Belleville have suffered from the unprecedented depression of the past five years. Within that period the number of manufactories has decreased, and business in most of them has fallen off, though there are at present good prospects for a revival. There are now in Belleville three foundries, which do an extensive trade; 1 axe factory, the best in Canada, and one of

the most extensive; 5 sash factories; 3 grist mills; 2 furniture manufactories; 4 saw mills; 2 cigar factories; 4 carriage manufactories; 8 blacksmiths; 3 woollen mills; 2 breweries; 4 marble factories; 1 broom factory; 1 pottery; 1 manufactory of carriage bodies and bent stuff for carriages; 1 sewing machine factory, whilst just without the borders of the city are two large brick manufactories, and also six saw mills.

NATURAL ADVANTAGES.

Our account of the history and trade of Belleville being now completed, it is appropriate that a little space should be given to details which are of importance to those, especially who reside at a distance. Belleville has, in the first place, a beautiful situation, in the valley through which the river Moira flows, and on the hills which rise abruptly on either side of the stream. Front Street, the principal business street, Pinnacle and Mill Streets lie in the valley on the east side of the River, whilst on the flat on the west side are Coleman, Water, and a number of other less important streets. On the eastern hill are the residences of the great majority of the business and professional men of the town. The streets are all bordered with shade trees, which in summer give to them a cool and pleasant appearance, whilst the many handsome buildings and the well kept lawns show to great advantage. In no place in Canada is there a district to surpass in beauty of appearance what was formerly known as "Taylor's Hill." On the western hill, also, great improvements have been made, especially within five or six years past, and within the next decade this section may possibly rival in beauty the hill opposite.

In addition to its beauty of situation, Belleville has other advantages which make it attractive as a place of residence. The lovely Bay of Quinte, whose waters extend along its southern front, is thickly peopled with many varieties of excellent fish, from the noble sturgeon and the powerful maskalonge to the delicious whitefish and game black bass. Hence angling is a favorite sport, and can be enjoyed at all lawful times, the fisherman usually being fairly rewarded for his labor. Yachting and rowing can also be enjoyed to perfection on the bay, the surface of which

during the summer months is usually thickly dotted with the white sails of the pleasure boats and the light and graceful hulls of pleasure skiffs.

Belleville, besides being the most favorable site in Ontario for the location of Iron Smelting Works, is also the centre of as rich an agricultural district as is to be found in the Province, the greater portion of the produce of which finds its way to market here, being shipped either on the Grand Trunk Railway or on the numerous steamers and sailing vessels which ply hence to other ports. The vast deposits of iron ore which exist in the northern townships, to utilize which the Belleville and North Hastings Railway was projected, and the working of the gold mines in the northern district are also features of importance which will be of great advantage in the future, whilst the completion of the Grand Junction Railway, which will render the fertile country extending to Peterboro tributary to our trade, and of the North Hastings Railway, connecting Belleville with the mineral region, and securing more firmly to us the trade of the northern townships, cannot fail to largely increase the prosperity of the city. When these great avenues of trade are fully opened up, but one great desideratum in connection with the commerce of Belleville will remain, namely the construction of the Murray Canal, to connect Lake Ontario with the Bay of Quinte. This work would be of immense advantage to the shipping interests of Ontario, and at the same time largely beneficial to Belleville. We believe that ere many years it will be completed, and that in the meantime Belleville will progress in the future as she has done in the past, in which event our young city will soon become one of the most important places in the Dominion.

LOCAL INFORMATION.

Belleville was incorporated as a City by Act of the Legislature of Ontario in 1877, which came into effect on the 1st of January, 1878. Under this Act the number of Wards has been increased to seven, as follows :

BREAD, ITS WEIGHT, &c.**BY-LAW NO. 134.**

Loaf of Bread shall weigh 4 lbs., and a half-loaf 2 lbs. avoirdupois weight.

Any Bread offered or exposed for sale, which shall be found deficient in weight, is subject to seizure, and forfeiture to the Corporation, to be disposed of as that body thinks fit.

All Bread seized to be immediately taken to the Police Office, and publicly weighed, and if the deficiency be found to be trifling or less in proportion of one ounce to 4 lbs., on each loaf or half-loaf, and the Magistrate is satisfied that such trifling deficiency is the result of accident and not of design, he may remit such forfeiture; and provided further, that if the owner or vendor of the said Bread shall prove that it had been baked or drawn from the oven twenty-four hours previous to the time of its being seized, or shall satisfy the said Magistrate that such Bread is of the description known as Cottage, French or other Bread, which by reason of its being baked separately and more thoroughly than the ordinary loaf of bread, and from no other cause is deficient in weight, such forfeiture shall not be enforced.

No Bread that has been forfeited owing to light weight to be offered for sale, subject to penalty.

Chief of Police, or Chief Constable to make seizures, at any time when they may discover light Bread.

The Inspector of Weights and Measures, when required by the sitting Magistrate, shall attend at the Police office, with the stamped weights and scales, to weigh any seized Bread, without fee or charge for the same.

Any person obstructing any officer in the performance of his duty, subjects himself to a fine not exceeding \$8; in default imprisonment not exceeding twenty days.

MARKET.**BY-LAW NO. 247.**

A By-law for the Management, Regulation and Good Government of the Market in the City of Belleville, and for farming and leasing the Tolls thereof.—Passed September 14th, 1871.

Whereas, it is deemed expedient to consolidate and amend

the several By-laws now in force, for the Market in the City of Belleville for farming and leasing the tolls thereof,

Be it therefore enacted by the Council of the Corporation of the City of Belleville, and it is hereby enacted,

That all By-laws and parts of By-laws now in force in relation to the management and good government of the Market, and inconsistent with this By-law be and the same are hereby repealed.

Be it further enacted that Lot No. 21, on the West side of Front Street, in the City of Belleville, or such lands as has heretofore been purchased for Market purposes, and such other adjacent land as may be procured for that purpose, be the public Market Place of the said City for all purposes, except as Wood Market, and the building now thereon shall be the Market House and Butcher's Market for the said City, under the following rules and regulations and penalties :—

And be it further enacted, that there shall be established outside of the Market of the City of Belleville, four Butcher Stalls for the sale of fresh meat, two in Coleman Ward, one in Ketcheson Ward, and one in Baldwin Ward respectively, and that the same be numbered and located by the Market Committee at such points in said Wards, respectively, as the Committee may deem most convenient for the inhabitants of the respective Wards.

And be it further enacted, that each butcher in each of said Wards shall have his name painted in full on a board of uniform breadth, and placed over his Stall.

And be it further enacted, that the said Butcher's Stalls or Shops to be established in the said several Wards, shall, in so far as sections twenty-three and twenty-four of this By-law are applicable, be regulated and governed by said sections, and subject thereto, and in so far as the same are applicable, to the said Stalls or Shops, and not inconsistent therewith by reason of their location away from the Butcher's Market.

And be it further enacted, that until the corporation shall establish and locate Stalls in the several Wards named for the sale of Butcher's Meat, the Shops that may be authorized in the said several Wards, under the direction of the Market Committee, shall be governed by the rules and regulations hereinbefore in the last section referred to, in so far as the same are applicable, and that each Butcher selling fresh meat from each of the said Stalls in said Wards respectively, shall pay a fee of One Dollar to the Clerk of the Municipality for a certificate of compliance with the regulations of such trade.

Every day in the year shall be a Market Day, except Sunday,

Christmas, and Good Friday, or any day set apart as a holiday by proclamation.

That the Market shall be opened at sunrise and close at sunset, except the Butcher's Market, which shall be opened at sunrise and closed at noon on all market days, except Saturdays, on which days the Butcher's Market remains open until 9 p. m.

That the Tolls of the Market, other than rents arising from Butcher's Stalls, shall be farmed, leased or rented to the highest and best bidder, subject to the approval of the Market Committee, on the third Monday in May in each year, and at least one weeks' notice shall be given in one or more of the City newspapers, and at least twenty-five large sized printed bills shall be posted up in conspicuous places throughout the City, intimating the time and place at which such sale shall take place, and the said highest bidder, if approved of, shall then and there furnish the names of two good and sufficient persons to be approved of, who, by their actual signatures, will bind themselves jointly and severally for the due fulfilment of the contract, and the faithful payment of such amount as may be offered and accepted for such contract, whether such contract prove profitable or not, and should such names not be approved of, then the next highest bid may be accepted, upon the party furnishing sureties to be approved of as aforesaid, and that said Council of said Corporation shall not be compelled to accept of any bid where the sureties offered are not satisfactory and sufficient, and that the said Tolls be put up at an upset price of thirteen hundred dollars.

That the lessee or purchaser of said Tolls, from time to time shall and may demand, take, collect and recover the same in as full, ample and efficient a manner as the Council might cause to be done in case said Tolls had not been let or sold, and no lessee of the said Tolls shall let or set apart, or assign to any person or persons, any part of the area of any of the public market, to be occupied other than for market purposes, contrary to the true intent and meaning of this By-Law.

That the Collector of the Market Tolls, or his authorized assistant, or assistants, shall not exceed the authority invested in him or them by this By-Law relating to the government of the Public Market of the said City of Belleville, and that he shall not exact, extort, or receive any higher or other fee or charge than is authorized to be paid by this By-Law, and that he shall furnish tickets for the weighing of hay, straw or other commodities or things to be signed by him specifying the weight, quantity, etc., and further the said Lessee shall before entering on the said office, be sworn as Weight Master.

That the said Lessee or purchaser of the Market Tolls shall pay the Treasurer of the City of Belleville, the amount stipulated to be paid by him in equal monthly instalments, commencing at the expiration of one month, from the beginning of his term, and in default of the regular payment thereof, the Council of the said Corporation may proceed for the immediate collection thereof, and it shall be the duty of the said Lessee to attend to the regular opening and closing of the Market Buildings, and that he shall see that the By-Law or By-Laws relating to the Market shall be properly observed.

That it shall be the duty of the Lessee, under the control and superintendence of the Market Committee appointed by the Council, to have the care and superintendence of the Market and Market Place, and enforce all regulations, orders and By-Laws for the government of the same, respectively, and all orders of the said Committee not inconsistent with or repugnant to the said regulations, orders or By-Laws, in so far as the same relate to that portion of the Market under his supervision or control as lessee thereof.

That should the said Lessee egregiously misconduct himself, or decline to act, that the Market Committee shall have the right, if they deem fit, to appoint some person to fill and occupy his place, whose duty it will be to collect the fees to which said Lessee would be entitled, and account to the said Council for the same and the balance thereof, after payment of the wages or salary of the party so employed as aforesaid would be applied in liquidation of the amount receivable from the said Lessee.

That it shall not be lawful for the said lessee to trade, directly or indirectly, or have any direct or indirect interests in the sales or profits of any articles or animals which shall be brought to or exposed for sale in said Market, or to purchase any such on behalf of others.

That no person shall buy or sell or offer for sale any game, fish, poultry, eggs, butter, lard, cheese, grain, vegetables or fruits exposed for sale or Marketed within the City of Belleville, until the seller has paid the Market fees thereon, as required by this By-Law, or has obtained a ticket from the Collector of Tolls of the Market of the City of Belleville, as hereinafter provided.

That before the hour of nine o'clock in the forenoon during the months of June, July and August, and ten o'clock in the forenoon during the rest of the year, no person shall forestall, regrade or monopolize any Market grains, meats, fish, fruits, roots, vegetables, poultry, dairy products, eggs or any articles required for family use and such as are lawfully sold in the Market, within the City of Belleville—provided that nothing herein con-

tained shall be construed to prohibit the sale of salt or smoked pork, hams or bacon, or any meat or fish other than that known as fresh meat or fish.

That before the hour of twelve o'clock noon, no Butcher's meat, Fish, Hay, Straw or Fodder, shall be bought or sold by any person or persons in any part of the City, except at the public market place, or in such Stalls or Shops in Coleman, Baldwin or Ketcheson Wards, as may be duly authorized for that purpose, nor after that hour, until the market fees thereon, or on the vehicle containing the same, to be first paid, and a ticket obtained thereof as hereinafter provided.

That before the hour of nine o'clock in the forenoon, in the months of June, July and August, and ten o'clock in the forenoon during the rest of the year, no Huckster, Butcher or Runner, living within the Municipality, or one mile from the outer limits thereof, shall purchase any meats, fish or fruits, roots, vegetables, poultry, dairy produce, eggs or any article required for family use, and such as are usually sold, brought to the public market; provided nothing herein contained shall prevent or exclude such persons from buying such articles for their own use, or for the use of their families, or when the same is not to be re-sold.

That no person or persons, other than Butchers occupying Shops or Stalls in the public market, or in such Shops or Stalls in Coleman, Baldwin or Ketcheson Wards as may be duly authorized as aforesaid for the sale of fresh meats, shall sell or expose for sale any fresh meat in any less quantity than by the quarter, and such Butchers occupying such Shops or Stalls as aforesaid may sell fresh meat in any less quantity than by the quarter in said Shops or Stalls only.

That all Stalls in the Market shall be numbered in the manner determined by the Market Committee.

That each Butcher shall have his name painted in full on a board of uniform breadth, and placed over his Stall.

That the Butchers' Stalls shall be let annually, on the third Monday of December, by public Auction, to the highest responsible bidder, above any upset price to be affixed by the Market Committee, previous to such sale, possession to be given on the first day of January, and the person or persons leasing the said Stalls shall pay the rent thereof in weekly payments, which shall be payable to the Treasurer of the City of Belleville weekly in advance, and immediately after the Stalls have been awarded, each of the parties to whom they have been awarded shall, before entering into possession, enter into bonds to the Corporation, themselves in one hundred dollars each, and each with two

sufficient sureties of fifty dollars each, which bonds shall be conditioned for the due payment of rent and compliance on the part of the lessee with all By-Laws, Rules and Regulations established, or that may be established, for the government of the Market, and that the Stalls shall not be subject to, nor occupied by any other person without the written consent of the Chairman of the Market Committee ; provided always, that the Market Committee shall have the power of letting the Stalls privately, if by so doing, justice be done, and the interests of the City subserved.

That no Butcher shall sell, or expose for sale in his Stall, or allow to be sold or exposed in the same, any other article than meat or poultry ; that it shall be the duty of each Butcher to keep his Stall in a clean and sweet state, that no Butcher or other person shall allow hides, skins, or any offal to remain about the Market after Market hours, and no Butcher or other person shall bleed any animal in or about the Market, or on any street adjacent thereto ; and no Butcher or other person shall harbor or keep any dog in or about the Market.

That all Butcher's meat that shall or may be disposed of in the Market by any other than a lessee or occupant of a Butcher's Stall in the Market, shall be subject to the following charges in addition to the charge on each waggon, sleigh or other vehicle in which the same may be bought, namely :—

For every quarter of Beef,	6d or 10cts.
For every quarter of Veal, Mutton or Lamb,	1½d or 3cts.
For every carcass or part of a carcass, not less than a quarter of pork, nor exceeding 100 pounds weight,	3d or 5cts.
Exceeding 100 pounds weight,	6d or 10cts.

Provided always, that such additional charges shall not be required to be paid by any farmer or other person offering for sale the above enumerated articles, when the same shall be actually raised or produced by such person, or his on her farm or place, or shall have been the property and in the actual possession of such person not less than six months.

That any person bringing any of the aforesaid articles, or any living animals, to Market for sale, shall pay the lessee of the Market, before offering the same for sale, the following fees :—

If in a waggon, cart, sleigh or other vehicle, drawn by one or more draught animals,	3d or 5cts.
If in a hand cart,	1d or 2cts.
If on a horse, or a wheel-barrow, or by hand,	½d or 1ct.
For every horse, mare, or gelding, brought for sale, ..	3d or 5cts.
For every head of cattle brought for sale,	1d or 2cts.
For every sheep, calf, or pig, if not in a waggon or other vehicle,	½d or 1ct.

Parties bringing provisions for sale, or otherwise, must take as many feet frontage as may be required for the sale of such provisions, and pay for the same one penny per foot frontage per day. For permission to occupy a permanent stand, in addition to other charges per quarter, one dollar and a half; and that all parties getting articles weighed or measured by the party in charge of said market, shall pay for such weighing or measuring the following charges:—

- For weighing every draught on hay scales..... 1s or 2cts.
- For weighing every draught on Market Scales, under one hundred pounds..... ½d or 1ct.
- For weighing every draught on Market Scales, from 100 to 200 pounds,..... 1d or 2cts.
- For every additional one hundred pounds..... ½d or 1ct.

Provided that no charge shall be made for weighing the vehicle in which hay, straw, or any other article has been weighed on the Hay Scales, and the one shilling to include all Market Fees.

Any person neglecting or refusing to pay the aforesaid Market Fees, shall be subject to the penalties hereinafter mentioned.

That no person shall bring to Market or expose or offer for sale in any part of the City, any tainted or unwholesome meat, poultry, fish or other article of food.

That no person shall sell hay within the town weighed at any other place than at the City Hay Scales, nor shall offer with such hay any weight ticket or certificate, signed, or purporting to be signed by any other person than the Market Lessee or Collector of Tolls.

That the said Lessee or Collector of Tolls shall deliver to every person having a load of hay or other articles weighed by him on the Hay Scales, a certificate of the weight specified by him in the following manner:

WEIGH BILL.

Belleville,..... 18

- Lbs. Gross Weight.....
- Lbs. Weight of Vehicle,.....
- Lbs. Net Weight.....
- Bought from.....
- Sold to.....

Collector's Name.

That it shall be the duty of the Market Lessee to keep open the Weigh House on every market day during market hours, and the scales, weights and measures, and everything connected with the said Weigh House, shall be maintained in a clean and orderly

manner, and said Lessee or his assistant shall weigh or measure the different articles that are sold or disposed of in the Market whenever he shall be thereunto required by parties interested therein, or either of them.

That all waggons and other vehicles shall be placed in such place and order on the market grounds as the said Lessee of the said Market Tolls shall direct, and he shall have power to enforce the removal of every waggon or vehicle from the Market grounds as soon as the produce contained therein shall have been sold.

That said Lessee shall attend to the scales for weighing hay, on every market day during market hours.

That he shall keep a book containing duplicates of the weights of the several loads of Hay or other articles weighed on the Hay Scales by him, which book shall at all times be open for inspection by all parties interested in the weight of any such load or draught, and before any certificate is granted the fees must be paid thereon.

That the Lessee shall give every person getting a draught weight on the Hay Scales, or bringing grain or other articles or animals to the Market, upon the fee being paid thereof, a ticket marked with the day of the month, the article or articles weighed or to be sold, and the name of the Lessee or Collector of Tolls, which the seller shall show to every person purchasing from him when required so to do.

That no person shall have or use on the public Market place any fraudulent or unstamped scale, beam, balance, weight or measure, nor shall any person sell or offer for sale any article or thing as of a greater weight or measure than the same may actually be, and any purchasers who shall suspect any fraudulent dealing or deem themselves wronged in the weight or measurement of any articles bought by them in the Market, may demand to have such articles measured or weighed by the Market Lessee or his assistant, and in case the articles so measured or weighed be found correct, the purchaser shall pay the charge of re-measuring, or re-weighing ; but if otherwise the charges shall be paid by the seller, besides the penalty hereinafter imposed.

That no person having scales or weights for their own use in the Market, shall weigh or suffer to be weighed with such scales and weights any articles whatever for other individuals.

That the Tolls shall be farmed or leased by the Market Committee, who may employ an Auctioneer and complete the security for letting the same, and who shall report to this Council.

That every person selling meat or articles of provision by retail, whether by weight, count or measure, in the City of Belle-

ville, shall provide himself with scales, weights and measures for the said City, but no spring balance, spring scales, spring steelyards or spring weighing machine, shall be used or allowed to be used for any Market purposes.

That every person duly authorized by the proper authority to open a shop or stall in Coleman Ward, Baldwin Ward or Ketcheson Ward, shall keep his or her stall, in which fresh meat shall be exposed for sale, in a clean and proper state, and shall not suffer any offals, hides or rough tallows to remain on the premises after eight o'clock in the morning from the first of May to the first of September in each year, or after nine o'clock in the morning during the rest of the year, and shall not harbor or keep any dog in or about said shops or stalls, and shall open said shops or stalls at sunrise, and close not earlier than four o'clock in the afternoon on all market days, except Saturdays, on which days said shops and stalls shall remain open until nine o'clock p. m., and shall not expose or offer for sale in said shops or stalls the flesh of any unslaughtered animal, or the flesh of any animal which shall not have been in a sound state when killed, or any measley pork or blow, nor fraudulently dressed meat, any tainted or unwholesome meat, any veal or lamb under three weeks old, or any other articles than meat, which shall include poultry.

Be it further enacted, that the regulations for the government of Market Stalls and Meat Stalls of the City of Belleville, and appended to By-Law No. 217, be and the same are hereby repealed.

That any person offending against this By-Law or any of its provisions, shall, upon conviction thereof before any magistrate of this City of Belleville, be fined in a sum not less than one dollar nor more than twenty dollars, to be levied of his, her or their goods and chattels, and in default of such goods and chattels, to be sent to the Common Gaol of the County of Hastings for any period not less than two days nor more than twenty days, which fines and penalties shall be applied as follows; One moiety thereof to be paid to the informer in pursuance of the Statute, and the other moiety thereof shall be applied to the Municipality of the City of Belleville.

WEIGHING OF COAL.

BY-LAW NO. 332.

Enacts that all coal must be weighed upon the Public Market Scales, and a certificate of the weight thereof, to be signed by the Market Lessee for the time being, shall be produced to the said purchaser by said vendor or his servants at the time of such delivery.

That every cart, waggon, sleigh or other vehicle used for the conveyance of coal shall be provided with a suitable prop on which the shafts thereof shall be rested during the weighing of any load of coal.

That the owner or owners of every vehicle used for the conveyance of coal shall cause a number to be painted on every such vehicle, and shall also procure such vehicle to be weighed at the said Public Market Scales at least once in each week, and the true weight of every such vehicle shall be entered by the Lessee of the said Market in a book to be kept by him opposite the number under which the said vehicle is entered, together with the owner's name.

That a certificate of the true weight of every such vehicle shall be given by the Lessee of the said Market to the person who procures the same to be weighed, which certificate shall be produced to said Market Lessee at the time of the weighing of every such load of coal afterwards conveyed by such vehicle, and the said Market Lessee shall enter in the certificate so to be given by him under the first section of this By-Law, the number of such vehicle.

That for weighing every such load of coal the said Market Lessee for the time being shall be entitled to demand and receive the sum of ten cents, and the expense of such weighing shall in all cases be borne by the vendor of such coal.

WOOD.

BY-LAW NO. 415.

That all Cord Wood or Fire Wood brought into the City of Belleville for exposure for sale in waggons, sleighs or vehicles of any sort shall be brought to the public Market in said City for such purpose, and the person or persons so bringing the same shall be subject to the rules and regulations of said market.

That all such Cord Wood shall be sold by the cord, and such cord shall contain One Hundred and Twenty-Eight feet of wood, Cubic Measure, consisting of sticks or pieces of wood not less than four feet in length, to be measured from point to scarp and piled together as solidly as practicable, and all other fire wood shall be sold by the cord, and such cord shall contain One Hundred and Twenty-Eight feet of wood, Cubic Measure.

That all Cordwood or Firewood brought into the City for sale shall be divided or classified into three qualities or brands, namely—First, Second and Third.

That every person so bringing the Cordwood or Firewood for sale on said public Market shall before offering the same for sale pay the sum of Five Cents per load to the Lessee of said Market, or to the Collector of Tolls thereof, who shall upon the payment of said Fee measure the Cubic contents of said load of wood, and deliver to every person drawing such load of wood a Certificate, showing the quantity together with the quality of the Cordwood, and classified as First, Second and Third class wood as the case may be, with the name of the Vendor and the date on which such wood was offered for sale, and which certificate shall be given by the Vendor to the purchaser at the time of sale. The fees for measurement at any other place than on said Market when required by either party, shall be for any quantity less than two cords Ten cents, from two cords and under five cords, Fifteen cents, from five cords and under ten cords, Twenty-Five cents, from ten cords and under twenty cords, Forty cents, and for any number of cords over twenty cords, Two cents per cord.

That no cordwood shall be deceitfully or unfairly piled so as to appear of greater measurement than it fairly, closely and compactly piled, and that no crooked wood shall be packed or piled with cordwood, but in cases where it does occur, the said Lessee or Collector of Tolls shall make proper and proportionate reduction for such unfair piling crooked or short sticks in his measurement and classification.

That either the seller or buyer shall be entitled to appeal against the decision of the Lessee of said Market or the Collector of Tolls thereof, as to the quality or quantity of the wood so classified or measured, to the Mayor, Police Magistrate of the City, or to any Alderman, whose decision in the matter of the appeal shall be final, and the loser shall pay the costs if any of such appeal.

Be it further enacted that no person or persons shall alter the numbers of Cubic feet mentioned in his or her certificate as aforesaid, or change the classification thereof, nor shall he, she or they knowingly suffer or permit the same to be done.

That neither the said Lessee of the said Market for the time being, nor the Collector of Tolls thereof, shall purchase any cordwood that shall be brought into the City for sale except for their own use, nor shall they or either of them deal in cordwood as a business.

Any such sign or obstruction must be removed within twenty-four hours after notice has been given.

POLICE FORCE.

The following Rules and Regulations for the government and guidance of the Belleville Police are hereby adopted by the Police Commissioners of Belleville :

The Police Force shall consist of not less than 1 Chief Constable, 2 Sergeants and 5 Constables.

No person shall be appointed to the Police Force, unless upon the following conditions :

He must pass a satisfactory examination in reading and writing ; possessed of a knowledge of the general outlines of Police Duties ; found otherwise sufficiently intelligent ; able in body and of good character ; 21 years of age, and not more than 40, nor not less than 5 feet 10 inches in height.

Every Policeman shall devote his whole time and attention to the business of his department.

He must, although on actual duty for certain allotted hours on ordinary occasions, be prepared to turn out on duty at all times when his services are required.

He must, although specially appointed for a particular locality, be ready to act wherever else he may be required.

He shall on the occurrence of any serious disturbance, consider it his first duty to restore peace, if possible, by moderate means or persuasion, and to disperse the crowd ; if these fail, the offenders must be dispersed by force, and the principals therein arrested.

He must not speak of the business affairs or secrets of the office to any person not a member of the Police Force.

He must not make complaints, nor interview members of the Council upon any matter pertaining to the Police Force.

He must always, when on duty, whether in the Station or Police Office, in the Court or in the Public Streets, appear in proper uniform, unless in consideration of the public interest the Chief shall otherwise order.

None of the Force shall leave the City without the permission of one of the Commissioners or Chief of Police in writing.

No Member shall communicate to any person, unless required so to do by the Chief of Police, or by the Commissioners, any information respecting orders he may have received, or any regulations that may be made for the government of the Department.

Nor accept from any person in custody, or after his discharge, nor from any of his friends, gratuity, reward or gift, directly or indirectly, nor any description of strong drink, nor from any person, without the written permission of the Commissioners, compensation for damages.

Nor, while on duty outside the Police Station, smoke, or drink any kind of liquor, nor, except in the immediate performance of his duty, enter any place in which any kind of intoxicating drinks is sold or furnished.

Nor introduce, nor allow to be introduced into the Station House, or any Cell, any liquor or intoxicating drink, upon any pretext, unless on the advice of the Physician of the Board.

Nor maltreat or use unnecessary violence to any person or prisoner on the pain of dismissal.

Nor compromise any offence committed against his person or his property.

Nor withhold any information that may lead to the detection

and punishment of any person who may assault or hinder him in the discharge of his duty.

Nor allow any person lawfully in his custody to escape therefrom, nor discharge, or permit to be discharged any person lawfully in custody unless by order of the Police Magistrate or by other lawful authority.

Nor use any profane or indecent language at any time.

Nor leave his post until regularly relieved, unless otherwise directed by the rules and regulations.

Nor use any baton or other offensive weapons, except in cases of self-defence or to prevent the escape of a felon, and then with caution.

Nor be connected with, nor attend any illegal Secret Society, whilst he is in the force.

Nor improperly interfere at elections, or make use of his position or influence thereat.

The Chief Constable shall be chief executive officer of the Department, subject to the rules prescribed by the Board of Commissioners of Police.

He shall repair promptly to all serious or extensive fires, and to all riots and tumultuous assemblages, and shall take command of the Police present to save and protect property, to arrest disturbers of the peace, or others inciting them thereto.

He may direct, temporarily, any or all of the Force to any place within the Corporation, where their services are necessary.

He shall see that the Laws of the Province, and the By-laws of the City are duly enforced, and shall prosecute for infractions of the same; and it shall be his duty to prepare a memorandum of the evidence in important cases for the Police Magistrate.

He shall keep a record in his office of the name of every officer, sergeant and man in his department, of the dates of their respective appointments, of their places of residence, of their absence from duty, and whether caused by sickness or otherwise, and of all vacancies, whether from resignation or otherwise.

He shall make half-yearly reports in writing to the Board of Police Commissioners on the state of the Force, with statistics and suggestions as he may deem advisable for the enforcement of the Police government and discipline.

He shall upon any charge made against a member of the Force, reduce it to writing, with the names of the witnesses required, and transmit the same to the Board of Police Commissioners for investigation.

He may for adequate cause, suspend from duty any member of the Force, but he must report such suspension forthwith to the Board of Police Commissioners, with the cause thereof.

His duty will be to submit for the disposal of the Board of Commissioners all charges he may have occasion to prefer against members of the Police Force for serious dereliction of duty, such as drunkenness, when on or off duty, insubordination, incivility, disobedience of orders and the like.

He shall aid in the inspection of each applicant for appointment on the Police Force, and he shall submit to the Board of Commissioners full particulars relative to each applicant, so far as he can discover the same.

He shall have charge of all arms, maces, rattles, whistles, badges, clothing and other property pertaining to the Police, and he shall distribute the same as may be needed, taking receipts therefor, if necessary, from those to whom they are entrusted.

He shall be subordinate to the Board of Police Commissioners, and he shall obey and enforce a strict observance of all their rules and regulations both as respects the Force and as respects the public, so far as they are respectively applicable.

He shall enter or cause to be entered in a book, 1st, a full account of all goods, money, or other property taken from the person of a prisoner, 2nd, stating from whom they were taken, 3rd, and the goods returned to the owner or party, and the cause and time of their return.

And all warrants and other process in the nature of execution, when received, what was done, whether party paid his fine or was committed, and any other particulars concerning the same.

The undermentioned books are to be kept at the Police Station or the Chief's Office :

1st. The Duty book, showing the patrols and other duties required from time to time of the individual members of the Force.

2nd. The Occurrence Book, containing a record of the important or extraordinary events that take place in the City.

3rd. The Prisoners' Receipt Book, containing the receipts of all goods, moneys, &c., that are restored to prisoners, and which will at the same time show the articles taken from the prisoners at the time of their arrest.

4th. Execution Book, showing the date of reception of executions and warrants, &c.

5th. The Order Book, containing the orders of the Police Board and the Chief Constable, which the men are required to obey.

6th. Register of prisoners arrested, the cause of arrest, and how disposed of, giving their ages, religion, occupation and nationality.

He shall keep a record of all suspicious persons and places in the City, and the incidental expenses of his office.

He shall regulate the beats for patrol in the City, the hours when the men shall go on and be relieved from duty.

He shall not arm the Force with fire arms for the purpose of suppressing a riot or disturbance, unless upon the express orders of the Mayor, Police Magistrate or the County Court Judge.

He shall have power to issue such orders as he may think are for the better conduct of the Police Force from time to time, subject to the approval of the Board.

He shall maintain a constant supervision of the general conduct, efficiency and discipline of the Police Force, and report from time to time such suggestions as he may deem advisable, for promoting the health, comfort and efficiency of the men.

He shall submit to the Board an Annual Statement of the whole year's proceedings of every matter and thing of importance connected with his office and with the Force.

In the absence of the Chief Constable from the City, or in case of his being disabled by sickness or other cause, the Sergeant on duty for the time being, shall have control of the Force, the Senior Sergeant having precedence over the Junior whenever both happen to be on duty, at the same time.

They shall be responsible for the preservation of the Peace of the City; they shall superintend all carts, omnibuses and all other public vehicles therein.

They shall keep a record of all disorderly places, unlicensed shops and stores, gaming or gambling houses, &c., and report thereon to the Chief Constable.

They shall keep a record (and report to the Chief of Police) all houses of ill-fame, the names of parties keeping the same and of all parties frequenting the same, and also of all receivers of stolen goods, and of all suspicious characters and all information regarding their proceedings and movements.

They shall report in writing all and every breach of the Law and By-laws of the City to the Chief, who shall if he think proper cause information to be laid for infraction of the same.

The constables shall be under the immediate command of the Sergeants.

They shall maintain order and the public peace, and prevent crime as far as in their power.

They must therefore examine and make themselves perfectly acquainted with every street, alley, court, lane and building, and every other place within their beat, and closely watch every person passing along their beat, at unseasonable hours.

They shall carefully examine, in the night time, all doors and low windows of dwelling houses and stores within their beat, to see that they are properly secured, and if not, they must secure the same and give warning thereof.

They shall give their names to any person properly demanding the same; they shall respectively have with them, at all times, a memorandum book, in which they shall keep a record of all important events, such as violation of By-laws, suspicious persons whom they may meet, &c., &c.; this book they will deliver to the Chief every morning, or when required.

They shall cause all obstructions in the streets, highways, and on the side walks, to be removed, and prevent the same from being encumbered so far as the By-laws of the City in that behalf require.

They shall notify the owners or occupiers of stores, to keep their sidewalks free, and if such notices are not complied with, they shall report the same to the Chief.

They must not allow the assemblage of *idle* and disorderly persons at the corners of the streets, at the doors of public houses, halls, saloons, hotels, stores or other place along the highways, or on the side walks, to the annoyance or disturbance of passers by, or the neighborhood; all such persons making such disturbance or annoyance, shall be at first civilly requested to disperse and "*move on*," and if they refuse to leave, or if they continue the same, they shall be arrested.

The sidewalks must at all times be kept free and clear for pedestrians, and the Constable shall impress this fact civilly but firmly upon the minds of *all* who by standing upon the highways, streets, or sidewalks, impede such pedestrians.

They must strictly watch the conduct of all persons of known bad character, and in such manner that these persons may know they are watched.

They shall, when there is reason to apprehend a riot or serious disturbance of the peace, give information at once at the Police Office and to the Chief of Police and Mayor.

They shall upon an unusual noise or disturbance occurring at night, instantly repair to the spot and quiet the same if possible; and in any case, if any breach of the peace has taken place in their presence, they shall arrest the offenders, and if they need assistance and are opposed in the discharge of their duty, they shall sound the alarm, and the Policeman who hears it shall answer the same, and forthwith proceed to render assistance.

They shall if convicted of any neglect of duty such as being found asleep on duty, or holding an unnecessary conversation with any one except on special call, or in any manner not complying with the instructions given them by their officers, or neglecting the rules of the service, be liable to be suspended or discharged.

They shall when any person charges another with a felony, and requires that the person so charged shall be taken into custody, take the accuser if unknown, along with the accused to the Police Office.

They shall take all property which comes into their possession, whether stolen, found, or taken from prisoners arrested, to the Police Station, unless otherwise ordered, and all articles thus delivered shall be recorded and marked for identification; valuable articles must be placed in a secure place.

They shall report to the Chief all suspicious persons and places, all bawdy houses, gambling houses, and gaming houses, and all houses where idlers, tipplers, gamblers, and other disorderly and suspicious persons congregate.

The Police are to salute the Commissioners and Chief Constable at all times.

They shall treat their superior officers with becoming respect, and at all times avoid profane and licentious conversation, and noisy and disorderly conduct.

They shall direct strangers and others who may need such direction, the nearest and safest way to their destination.

They must not while on duty in the Police Station, or on the street, engage in whistling or singing; such conduct is not becoming a Police Officer or Constable.

They shall report all public street lamps not lighted, and all defects in any of them, and arrest all parties breaking said lamps or turning said light out improperly.

They shall on discovering any *pickpockets* in any crowded place call out in a loud voice and give notice of such characters being present.

They shall examine all persons of a suspicious appearance, carrying parcels or loads, but particularly at night, and they shall, unless such persons can properly account for the manner they came by the same, commit them for examination.

In all cases of violent or sudden death or of the commission of some serious crime which come to the knowledge of the Constables they are to report the particulars to the Chief at once.

Members of the Force will on no occasion whatever hold unnecessary intercourse with prisoners at the Station, neither shall they laugh, jeer or joke at or with them.

The members of the Force upon no occasion and under no pretext whatever shall receive rewards or moneys without the permission of the Board.

Every man dismissed or who shall resign must deliver up before he leaves the service every article of dress and appointments supplied to him.

Every man of the Force shall be liable to immediate dismissal for the following offences:—disobedience, drunkenness, insolence in word or action, violent or coarse language or behavior, neglect of duty, entering into taverns, saloons or houses of ill fame unless when required in the regular discharge of his duties.

As there seems to be in most places some confusion of thought as to the right to arrest with or without warrant, the Commissioners feel it to be their duty to lay down some general principles by which the Police Force under their control should be guided.

In the first place they will observe that under Common Law no arrest can be made by a Constable without a warrant, except in cases where a felony has been committed and where in the sight of the Constable a breach of the peace is committed or about to be committed. If the affray is over before the Constable arrives and he has no reason to apprehend a continuance of a breach of the peace, he should not make an arrest unless an information is regularly laid and a warrant issued by a competent Magistrate.

Of course this rule is only given in the most general terms, and there are many Statutes with which the Constables must become acquainted, giving the right to arrest without warrants persons offending against the provisions of the particular Statute, such as the Act relating to cruelty to animals, petty trespasses, drunken and disorderly persons interfering with and disturbing peaceable passengers on the public streets, and all persons resisting the Constable in the discharge of his duty; but the Consta-

ble on all such last occasions should always remember that he should never exercise his authority to redress any real or supposed private insults or wrongs unless they also involve matters and questions relating to the good order and government of the City.

One observation that the Commissioners desire to impress upon the Force most emphatically, is to never arrest without a warrant except in the cases mentioned and where the particular Statute authorizes such arrest, and also take especial care not to put handcuffs on prisoners not charged with felony, unless to prevent resistance or escape, and in all arrests to use as little violence as possible under the circumstances.

Prisoners must not be pulled or dragged along the street, but if unable or unwilling to go, a cart, bus or cab, should be obtained if possible, taking care to present a specification of the expense to the Police Magistrate at the investigation.

Prisoners must not be confined in the same cell with persons who are in simply for protection, without an order from the Chief.

All persons drunk, as above, and brought to the Station by a policeman shall be so charged and considered a prisoner.

FIRES AND FIRE COMPANIES.

BY-LAW NO. 413.

Enacts that the Fire Department of the City of Belleville, shall consist of a Chief Engineer and Assistant Engineer, one practical Engineer to take charge of each Fire Engine, and the officers and men composing the present Fire and Hook and Ladder Companies, of the said City of Belleville.

The said Companies shall be composed of not less than Twenty nor more than Thirty-six, able bodied men.

The apparatus of the Fire Department shall consist of Steam Fire Engines, Chemical Fire Engines, Hose and Hose Carts, and Hooks, and Hook and Ladders, Trucks, Axes, and such other needful and necessary appliances and apparatus as the said Standing Committee on Fire, acting under the directions of the Council, shall from time to time deem necessary.

The Chief Engineer, Assistant Engineer, and Practical Engineers, aforesaid, shall be appointed by the said Municipal Council, and any or either of them may be removed at any time at the pleasure of the said Council.

The salaries of the Chief Engineer and Practical Engineers, as aforesaid, shall be fixed and determined by the said Municipal Council at the time of the respective appointments.

The whole apparatus and management of the Fire Department shall be under the direction of the Chief Engineer, subject to Instructions from the Fire Committee of the said City of Belleville, but at every fire the Chief Engineer of the Department shall have sole control over all members of the Fire Department, and all persons engaged at any fires, and over all the Engines and Apparatus belonging thereto, and any person or persons who shall refuse or neglect to obey any legal order of the said Chief Engineer, shall be subject to the penalties of this By-Law.

The Chief Engineer shall attend all fires within the City of Belleville, and at all fires adjacent thereto, if so ordered by the said Fire Committee, as the Chairman thereof or by the Mayor of the City, for the time being, and shall direct all the operations for extinguishing the same.

The Chief Engineer shall keep a Record of all Fires and all Fire Alarms within the City of Belleville, the number and description of building destroyed or damaged, the names of the owners or occupant thereof, the amount of Losses and Insurance as far as can be ascertained, together with such other particulars connected therewith, as he may deem necessary, and report the same to the Council at least once in each year.

He shall also see that the Water Stations and Tanks are kept in good order, and easily accessible.

He shall also have power and authority to suspend any member of the Fire Department for improper conduct, disobedience of orders or dereliction of duty.

The Chief Engineer in charge of the Fire Department present at any fire may with the consent of the Mayor or any two Aldermen of the City, cause to be demolished or taken down all buildings erected or fences which he shall deem necessary to be taken down in order to arrest the progress of the fire.

The Assistant Engineer shall be at all times ready, and shall render all the assistance in his power to the Chief Engineer in the performance of his duties, and in his absence shall have all the powers, and perform all the duties of the Chief Engineer, and in the event of the absence of both the Chief and Assistant Engineers, the Chairman of the Standing Committee on Fire shall exercise all the functions and direct all the operations of the Fire Department.

The Engineers in charge of Steam Fire Engines shall have full control in their respective Engine rooms, subject however to the directions and instructions of the Chief Engineer or the Standing Committee on fire, and he shall be held responsible for the cleanliness and good order of the same, and see that all regulations of the Fire Department are promptly and efficiently obeyed, and in case of dereliction of duty he shall be liable to instant dismissal.

No alteration shall at any time be made to any Engine without the consent of the Standing Committee on Fire, but the same shall at all times be kept clean and in good order and ready for service.

The Engineers shall not nor shall either of them absent himself from his Engine Room for a longer period than fifteen minutes at a time except in case of fires, nor to a greater distance than five hundred yards therefrom, unless by the written permission of the Chief Engineer, or the Chairman of the Standing Committee on Fire.

No Engine shall be taken beyond the City limits unless by direction of the Mayor of the City for the time being, or in his absence by the direction of the Chairman of the Standing Committee on Fire.

The Engineers shall attend with their respective Engines as expeditiously as possible at all Fires within the City of Belleville, unless otherwise ordered by the Chief Engineer or Chairman of the Standing Committee on Fire, or Mayor, and shall have their Engines properly placed connected with the water supply, and carefully worked as may be required.

The Engineers shall not allow any person or persons other than Foreman to loiter in the respective Engine Rooms, nor shall he allow any property belonging to the Fire Department to be injured, destroyed or carried away.

The Engineers shall not engage in any other work while in the employ of the Corporation, unless ordered or permitted to do so by the Chairman of the Standing Committee on Fire, or the Chief Engineer, and in the event of their doing so without being so ordered or permitted, they shall render themselves liable to instant dismissal.

The Engineers shall as far as practicable, give the following signals with the Steam Whistle, for the purposes mentioned :

Commencing to Work,—One short blast.

Deficiency of Water,—Two short and One long Blast.

Deficiency of Fuel,—Three short and One long Blast.

Accident to Hose,—Six or Seven short Blasts.

False or unnecessary alarm,—Two short and Two long Blasts.
Engine ceasing to work,—One short and One long Blast.
Engine leaving fire,—One long Blast.
These Signals may be repeated if necessary.

From the time the Engine is required to go to a fire or elsewhere, until again returned to the Engine House, the horses and drivers shall be under the direction of the respective Engineers, unless otherwise specially directed by the Chief Engineer.

The Engineers shall see that the following orders are promptly and carefully obeyed:—

That all Hose assigned to his Engine or Station be properly examined each time after having been used, and all necessary repairs immediately made, and that no hose any-way defective in coupling or otherwise be placed on any cart or reel for service.

That all hose after having been wet be immediately cleaned and put up to dry, and that the Hose Carts or reels be loaded with Hose in good order.

The officers and men comprising the different fire and Hook and Ladder Companies, in the said City of Belleville, shall during any fire be subject to the orders and directions of the Chief Engineer.

The Annual appropriations to be made by the said City Council, and paid over to the respective Fire and Hook and Ladder Companies, by way of remuneration for their services, shall be as follows:—

Number One, - - - - -	\$200,00
Number Two, - - - - -	200,00
Number Three, Hook and Ladder Co. - -	200,00
Number Four, Chemical Co. - - - -	100,00

That for the purposes of Fire Alarms the several Wards in the said City shall be and the same are hereby constituted Fire Districts, and shall be numbered as follows:—

Foster Ward, - - -	Number One Fire District,
Samson Ward, - - -	Number Two Fire District,
Ketcheson Ward, - - -	Number Three Fire District,
Baldwin Ward, - - -	Number Four Fire District,
Blecker Ward, - - -	Number Five Fire District,
Coleman Ward, - - -	Number Six Fire District,
Murney Ward, - - -	Number Seven Fire District.

That in case of any alarm of Fire in said City, the person or persons so giving the alarm on the Bell in the City Hall, shall as far as practicable before giving the general alarm, signal by the

Bell the number of the District in which said Fire is located, such signal to be repeated three distinct times, immediately preceding the general alarm.

All persons at or near any fire shall render assistance in extinguishing the same, and in moving furniture, goods and merchandise, from any building on fire or in danger thereof, and in guarding and securing the same, and in demolishing any house, building or fence when required so to do by the Mayor or any of the Aldermen, or the Chief Engineer of the Fire Department.

Any person or persons wantonly or maliciously injuring any Fire Engine, Hose or other apparatus, belonging thereto, or any Bell or Bell Rope used by the Firemen in giving an alarm of fire, or who shall without reasonable cause by outcry, ringing of Bells, or otherwise make or circulate or cause to be made or circulated any false alarm of Fire, or who shall after sunset without previously warning the Chief Engineer, make any bonfire or other large fire in any field, yard or open space, shall be subject to the penalties of this By-Law.

REGISTRATION OF DOGS.

BY-LAW NO. 298

Enacts that every person, owning, possessing or harboring a Dog or Bitch in the City of Belleville, shall annually, on or before the first day of June, in each year, report the same to the Clerk of the Council and at the same time procure the same to be registered, numbered, described and licensed for one year from the first of January in each year, in a book to be kept for that purpose in the office of the said Clerk, and shall cause the said Dog or Bitch to wear around its neck a collar bearing the name of the said owner, to which collar shall be attached by a metallic fastening, a circular metallic plate, having raised or cast thereon the letters C. T. B., and the figures indicating the year for which the said tax has been paid, together with a number corresponding with the numbers under which the said Dog or Bitch is registered in the books of the Clerk, and every such person shall pay to the Clerk by way of tax, the sum of one dollar for every Dog and three dollars for every Bitch, owned, possessed or harbored by him or her, in each year, together with the sum of thirty cents to cover expenses of registration.

That the Clerk shall keep a book in his office and register the name of the owner or harbored of the animal on behalf of which the tax is paid and also a description of the animal.

That neglect to comply with the above provisions shall subject the offender to a penalty of not less than \$5 nor more than \$20 for each offence.

WEST BELLEVILLE
GRAIN ELEVATOR.

CAPACITY, 60,000 BUSHELS.

BRENNAN & VANDERVOORT,
PROPRIETORS.

The undersigned having leased the above premises for a term of years, are prepared to

Receive, Store, and Ship all Kinds of Grain,
AT REASONABLE RATES.

The large number of BINS enables us to pay more attention to grading than any other establishment in the City, and being away from Railways and Steamboats, Farmers need have no fears of teams being scared or annoyed in any way.

All Roads approaching the premises have been put in first-class condition.

Having first-class facilities for receiving Grain, we can take in from waggons

2,000 BUSHELS PER HOUR.

The many years' experience we have had in the Grain Trade, and the confidence heretofore placed in us by our many friends, has decided us to offer these facilities, surpassed by none on the Bay, and we trust our old friends will appreciate the advantages offered.

DAVID BRENNAN,
Late of the firm of W. H. Campbell & Co.

WHEN YOU VISIT
 BELLEVILLE,
 DO NOT FAIL TO PAY A VISIT
 TO THE
GLASGOW WAREHOUSE,
 The Great Dry Goods Emporium!

—o—

We keep on hand one of the Largest Assortments of General Dry Goods in the City, and are noted for the good value that we give.

CARPETS AND LACE CURTAINS.

WE ESPECIALLY INVITE ATTENTION TO THESE.

Our Carpet trade is the largest in the City, and our Stock of Carpets and Curtains the Largest, Best Assorted, and Cheapest. No one wishing to purchase Carpets should buy without first looking through our Stock.

GLOVES, HOSIERY & SMALL WARES,

In these Departments our Stock is always complete. We have also a large assortment of

Black and Colored Silks,
 Black and Colored Silk Velvets,
 Mantle Velvets,
 Dress Materials of all kinds.
 Mantles,
 Mantle Cloths, &c. &c.,

TEAS, SUGARS, &c., &c.

As we buy so largely in these for our wholesale trade, we are enabled to give much better value than those who purchase in smaller quantities for their retail trade alone.

We invite purchasers to inspect our Stock and promise them every attention whether they buy from us or not.

BANGOR, WICKLOW AND McCLURE.

The Townships of Bangor, Wicklow and McClure, are bounded on the north by the Townships of Saburn, Lyell and Jones, on the East by the Township of Radcliffe, in the County of Renfrew, on the south by Carlow, Monteagle and Herschel, on the west by the Township of Bruton, in the County of Haliburton.

These Townships are united for municipal purposes, and contain one hundred and sixty-six resident ratepayers. There are several blocks of good land yet to be taken up. Maynooth is situated on the corners of McClure and Wicklow, joining Monteagle and Herschel, formerly known as Doyle's Corners, where there are four stores, two blacksmith shops, one carpenter shop, and two houses of public entertainment. One Catholic Church and one Presbyterian Church. There is also a grist mill and saw mill.

NOTE.—The Post Office Address of each resident is given, and is the last word in each line, "Purdy" being the post office of Allan John, sen., "Combermere" being the post office of Bennett, Richard, &c.

BRIDGEWATER.

This village is situated in the township of Elzevir, about four miles from the village of Tweed, and twenty-eight miles distant from Belleville. It is pleasantly situated on the Scootamata River, a deep, narrow stream, one of the tributaries of the Moira, and which at this place, furnishes one of the most valuable water power privileges in the County. Bridgewater now numbers about 500 inhabitants. It is chiefly the property of the Hon. Billa Flint, under whose encouraging hand it has sprung into existence and prospered. This gentleman has erected here the large t flouring mill in the County, and surpassed by few in Canada. It has five run of stone ; and connected with it are oat and barley mills, all having the latest and most improved description of machinery. He has also a large saw mill, and on the same privileges are several factories, among which are the following :— A large foundry carried on by Mr. A. Robertson, where all kinds of stoves, plough, and other castings are made ; an extensive chair and cabinet factory carried on by Mr. Frost, which has facilities to manufacture everything in that line of business. There is an axe and edge tool manufactory, which has all the latest and improved machinery for the manufacture of scythes, axes and other edge tools. Several prizes have been taken at the Provincial Exhibition for work from this establishment. In the same building, Mr. H. H. Warren is extensively engaged in the manufacture of hammers, the demand for which is continually increasing. His factory is supplied with the best of machinery, and it turns out 40 dozen hammers per day. There is a tannery which manufactures all kinds of upper and harness leather. This tannery has been rebuilt recently, and is capable of tanning 1500 hides a year. A woollen factory, carried on by Mr. George Wolfe, does a very successful business. In connection with this factory is a knitting machine for knitting drawers and shirts. It is also supplied with an improved weaving machine, and, in fact, has all the latest improved machinery for a first-class carding and woollen factory. There is a saddlery and harness establishment, which does a good business ; and other branches of industry, which aid in the material prosperity of the village.

A number of new buildings have been erected, there is a magnificent church, built entirely of marble, and as neat a church as can be found in the County. Several new dwellings have gone

up within the last year or two, which ornament and add to the beauty and prosperity of the village. Among the public buildings is a large school house, built of marble, and well supplied with maps, globes, &c. One is surprised to see in such a new country, and so far in the interior, so many substantial and costly buildings, some of which would be considered an ornament to large cities. The public buildings, in their style and architecture, evince remarkably good taste, and neat cottages, with their well-cultivated gardens, pleasant lawns and gravelled walks, strike the stranger as evidences of thrift and prosperity. Within the limits of the village, very extensive quarries of white marble exist, and in the immediate vicinity, marble, iron ore, lead and other minerals abound.

The gold excitement had a visible effect on the business and prosperity of the village. Gold was found in several localities within the limits of the village and in the immediate vicinity, and from the peculiar quality of the quartz and repeated tests by washing and assaying, it was confidently anticipated that large results would follow. To accommodate the large additions made to the population, and in anticipation that hundreds of gold seekers would flock to this section of the County, the Hon. Billa Flint had the Temperance Hotel enlarged and increased in height, and had it thoroughly refurnished and fitted up with every conveniences of a first-class house. In size and appointments it is the largest hotel in the County. A quartz mill was erected at Bridgewater, which was worked for some time, but the results proved that the separation process was deficient, and until some efficient process has been obtained for separating the gold from the quartz, operations at the mill have ceased.

The Township Hall, a fine building, is located at Bridgewater.

The Wesleyan Methodists have Service on the Sabbath' at 10:30 o'clock A. M., and 6:30 P. M. They have a Sabbath school at 2 o'clock, with an average attendance of 40.

Bridgewater is supplied with an excellent village Library, comprising over 100 volumes.

CARLOW AND MAYO.

Carlow is bounded on the North by the Township of Bangor, on the East by the Township of Monteagle, on the West by the Township of Raglan, and on the South by the Township of Mayo, contains 48,308 acres, including water and road allowances.

The soil is principally a rich sandy loam, very fertile. The timber is chiefly hardwood, viz, Maple, Beech, Basswood, &c.

There are considerable portions of rough and rocky lands in this Township, but the greater portion is excellent cultivated land, and it is characterized as containing the largest quantities of flat land in blocks of any of the Townships in the Northern part of the County, the greater part of which is settled upon by an industrious and thrifty class of settlers, principally Scotch.

The Township is well watered by Lakes, Rivers and Creeks, which abounds with trout and contain several fine mill sites, notably two on the York Branch of the Madawaska River, which river runs across the Township, about the tenth concession line, as also one on the Papineau Creek, in the North end of the Township, on which is erected a Grist and Saw Mill by Cornelius Kelly.

This Township, besides having a Post Office and a commodious Presbyterian Church, is well supplied with good Schools, good roads, and is evidently in a prosperous condition.

The "York Branch Farm," the property of the estate of Conroy & Co., is situated on the York Branch River, in this Township, and consists of several hundred acres, a large portion of which is cleared and under cultivation. It is also the depot of the Company for the storing of supplies for their lumbering operations.

MAYO.

Mayo lies South of Carlow, and is bounded on the East by Ashby, on the West by Dungannon, and on the South by Cashel. The soil is pretty much the same as in Carlow. The Timber is principally hardwood, interspersed with considerable patches of pine woods. The general features of the Township are rough and in many places rocky. It contains large portions of excellent cultivable lands, generally rolling, which are being rapidly settled by a good class of settlers.

The Township is well supplied with water from a number of small Creeks. The Little Mississippi River, a branch of the Madawaska, is situate on the east side of the Township and runs northerly through it, on which stream there is now being erected a two story building for the purposes of Saw Mill and Carding Mill.

Good School accomodations are being provided for the children in this Township, and in general, the settlers appear to be prosperous and contented.

The Mississippi Road enters this Township from the west, about the 10th concession, and runs in an easterly direction across the Township.

"The Carlow and Mayo Road" starts at its junction with the Mississippi Road, on lot No. 12, and runs in a northerly direction through Mayo to the Township of Carlow.

The leading roads from the Hastings Road into the Townships of Carlow and Mayo are the Eagan Creek Road, situated south of L'Amable, running easterly through the Township of Dunganon, a distance of about 7 miles to its junction with the Mississippi Road.

The L'Amable Road, situate north of L'Amable, running from thence in a north easterly direction, a distance of about 4 miles from its junction with the said Mississippi Road. And the Mississippi Road, situate at Bancroft P. O., about 5 miles North from L'Amable, thence running in a south easterly direction across the Townships of Dunganon and Mayo.

Reeve and Council of Municipality ; W. Parkhurst, Reeve ; J. Wilson, Jr., C. Kelly, R. Ramsbottom, R. Mathers, Councillors. W. H. Murphy, Township Clerk.

CANIFTON.

Canifton is situated on the river Moira, about two miles and a half from Belleville. It has very fine water power privileges. The village was first settled by the late Jonas Canniff, Esq., from whom it took its name.

Amongst the mills and factories is an extensive saw mill, owned by Mr. A. Sutherland, capable of cutting 50,000 feet of lumber every 24 hours; a large flouring mill, owned by the same gentleman; two tanneries, a pottery, cooperage and other small factories.

There are two churches, one belonging to the Episcopal Methodists, built of stone, and one built of brick, belonging to the Wesleyan Methodists. A new Town Hall of brick has recently been built. There are two good school houses, both first class brick buildings, and well supplied with maps, globes, &c.

There is an Orange Lodge called "John White," No. 1415, of which William Loury is Master.

There is a Good Templars Lodge called "Canniff Temple," No. 909, of which John Canniff is T. D.

DUNGANNON AND FARADAY.

The Townships of Dungannon and Faraday having been united for municipal purposes, it will perhaps be as well to describe them together.

The Hastings Colonization Road, running north and south, divides these two Townships from each other, Dungannon lying on the east and Faraday on the west side of the road. The Hastings Road and both Townships are again intersected at York River by the Monk Colonization Road, which crosses both Townships from east to west, that portion of the road traversing Faraday being called the Monk Road west, and that crossing Dungannon the Monk Road east.

The Township of Dungannon is bounded on the north by the Township of Monteagle, on the south by the Township of Limerick, on the east by the Township of Mayo, and on the west by the Hastings Road and Township of Faraday. The Township of Faraday is bounded on the north by the Township of Herschel, on the south by the Township of Wollaston, on the east by the Hastings Road and Township of Dungannon, and on the west by the Township of Burleigh.

Dungannon and Faraday are well watered, the principal streams being the York Branch (the York Branch of the Madawaska River), which, entering Faraday on the north, flows south-east and passing York River Mills turns east at the Branch Bridge and enters Dungannon, which it crosses in an easterly direction. L'Amable Creek flows from L'Amable Lake in Faraday, and runs eastward into Dungannon. The three branches also of Egan Creek rise in Faraday, and each running east cross the Hastings Road into Dungannon, and in the course of a few miles all these creeks pour their waters into one stream, which, under the name of Egan Creek, shortly afterwards falls into the York Branch River, about a mile south of Egan farm.

The townships are studded with Lakes, many of which (more especially in Faraday) contain salmon, speckled trout, silver trout, perch and chub, but there are no pike, bass or pickerel in these waters.

Both Townships are hilly. The prevailing timber is pine, but there are fine sections of hard wood in various portions of the municipality, and the country is dotted over with small blocks of hard wood lands, well fitted for settlement. There is also an

excellent run for cattle. These advantages are beginning to be appreciated, and this section of the country is settling up fast, so much so that the population has trebled within the last six years.

There are rich deposits of iron scattered over both Townships, one bed in particular can be traced from the 10th concession of Dungannon (a short distance east of the Hastings Road), which runs nearly north for about six miles, cropping out occasionally to the surface. The ore bed to the east of York River is remarkably rich, and is said to contain nearly eighty per cent of iron. There are good prospects of these iron mines being worked at no very distant date, with the probability of a railway running through these back Townships. Should this take place the inhabitants would be placed in a most favorable position, and every lot that a man could make a livelihood on would be quickly occupied.

The approach to Dungannon and Faraday from the south for several miles is hilly and barren; just before entering the Townships the Page Road is passed on the left, which runs the whole width of Faraday. Some few miles up this road there is a large settlement, also the lumber farm and depot of H. B. Rathbun & Son. Having proceeded on the Hastings Road for about two miles Umfraville is arrived at; here is a post office, store, and place of accommodation for travellers, which has been kept for many years by Mr. D. Kavanagh. A new piece of road commences here, and a great change for the better takes place, the road runs through a good country, and is comparatively level for some 30 or 40 miles to L'Amable Hill. The 4th, 5th, 6th and 7th concessions of Dungannon are passed, both of which are well settled, especially the latter, which is located for seven or eight miles back. Descending the hill L'Amable is reached; here a comfortable house for travellers is kept by Mr. H. Jarman, who also owns the grist and saw mills; there is also a store, kept by Mr. B. Spurr; a post office, a blacksmith shop, kept by Mr. J. Power, a carpenter shop, run by Messrs. W. Easton & F. Nobbs. This being a central position the Division Court for all the back townships in the County of Hastings is held in the Court House here twice a year. Here is also the office of the resident Crown Land agent, Mr. J. R. Tait. There is a meeting house and an Orange hall at L'Amable, and a Presbyterian Church will shortly be erected. From L'Amable to York River is a distance of five miles. Some very good farms are passed on the route, also the Farm Road and 10th and 11th concessions of Dungannon, both of which are well settled. About a mile south of York River mills the river is crossed by a new bridge at Mr. P. Kavanagh's; from here the road runs by the side of the river to York River Mills, where the river is again spanned by another bridge leading to the west Monk Road.

At York River there is a grist and saw mill, a planing machine and carding machine, the property of Messrs. Flint & Holton. There is also a handsome Methodist Church, post office, kept by Mr. J. C. George, a large store kept by Messrs. Zabell & Fletcher, a blacksmith shop kept by P. Laundry, a school house, an Orange Lodge, and a boarding house kept by Mr. P. Laundry.

As already stated the Hastings Road is here intersected by the Monk Road. The Monk Road west runs from York River across Faraday to the Burleigh Road. It is well settled in the neighborhood of York River. Half a mile west of York River a road runs north to the Town line of Faraday, where there is a very large settlement. The Monk Road east crosses Dungannon about six miles from York River; on this road lies Bronson, where there is a store and post office kept by Mr. F. Mullett; there is also a school house, where service is held on Sunday. The neighborhood of Bronson is well settled, a short distance from Mr. Mullett's is the lumber farm of Messrs. Bronson & Weston, who hold a splendid block of 1,000 acres of hardwood land and have a fine clearance of 500 acres; they usually raise about 4,000 bushels of grain besides hay and root crops.

From York River northward to the end of the municipality a few settlers are located.

Fur bearing animals have been industriously trapped for many years and have become scarce, but deer, partridges and other game are still plentiful.

TOWNSHIP OFFICERS.

Township Council.—Reeve, Dermot Kavanagh; Councillors, Angus Kennedy, John Jarman, sen., Henry Bentley, Thomas McCabe.

ELZEVIR.

The Township of Elzevir is one of the most flourishing in the North Riding of the County. It is bounded on the north by Grimsthorpe, on the east by Kaladar, on the south by Hungerford, and on the west by Madoc. Elzevir has been a good lumbering district, and its timber resources are by no means exhausted. The River Scottamatta, in the eastern part of the township, Black Creek, in the western extremity, and the Little Scoot, more in the centre, tributaries of the Moira, furnish ample facilities for bringing the lumber to market. These streams have excellent water-power privileges, and at different points mills and factories have been erected. Bridgewater is the principal village,—a description of which will be found in connection with the alphabetical list of names of the village. Queensboro' is a small village in the western extremity, situated on Black Creek. Mr. Daniel Thompson, the principal proprietor, has a large saw mill and a flouring mill at this point. Within the last few years this village has made considerable progress. The soil of the township is varied; in some parts fertile and productive, and in others rocky and mountainous. This township abounds in various kinds of minerals. Iron ore of a good quality has been found near the village of Bridgewater, and explorations indicate extensive quantities. Copper and lead have also been found, chiefly on the surface, and mica has been found in large quantities. The best of white marble, pronounced to be as good as the Vermont marble, is found in great abundance in different parts of the township.

NOTE.—The Post Office Address of each resident is given, and is the last word in each line, "Bridgewater" being the post office of Akie, Paul, "Queensboro" being the post office of Alexander, John, &c., "f" stands for freeholder, and "h" for householder.

FOXBORO.

The Village of Foxboro, formerly known as Smithville, is situated on the Madoc Road, distant from Belleville about six miles. It is in the western part of the township of Thurlow, and within the last few years has made considerable improvements, and in place of the old dilapidated buildings which were an eye-sore to the people who passed through it, new shops and dwellings have been built. There is a large Carriage Manufactory, owned by Mr. Charles Ashley; a cheese factory in the immediate vicinity, owned by Mr. Harford Ashley; several stores, two fine churches, an excellent school house, a Temperance hall, and a number of fine residences. The population is about 200.

FRANKFORD.

The village of Frankford is situated on the river Trent, in the Township of Sidney, and is distant from Belleville fourteen miles, Trenton seven miles, and Stirling seven miles. Population about 500. It has a number of mills and factories, which are supplied with water from Cole Creek, which at this point empties into the river Trent. The flouring mill is owned by Messrs. Sills Bros., and is supplied with excellent machinery. There are two saw mills, an extensive woollen factory, a foundry, a tannery, a pump factory, carriage shops, cabinet and cooper shops, blacksmiths, and several stores. The village can boast of having one of the finest school houses in the county. It is a substantial stone building, 34 x 54 feet. There are three very handsome churches, with spires—two of brick and one of stone—belonging respectively to the Wesleyan Methodists, Episcopal Methodists, and the Roman Catholics.

The village can boast of having one of the finest manufacturing water privileges in Canada. In 1870 Messrs. Sills & Brother erected a fine large stone paper mill a short distance above the village capable of turning out one ton per day.

HUNGERFORD.

This is the largest township in the county, having an area of 109,200 acres of land, the greater part of which is well adapted to agricultural purposes. From time immemorial it has been the hunting ground of the Mississauga and other tribes of Indians, who found game and fish of every variety indigenous to this country and latitude, in great abundance in the beautiful lakes and streams within its limits. With the advent of the pioneer settlers the red man plunged farther into the wilderness, and his existence is but a remembrance. The tribes that then roamed over the lands now covered with well tilled fields of waving grain and comfortable houses, have for ever disappeared, and another race are the undisputed possessors of the soil.

The township of Hungerford is situated in the north riding of the County of Hastings, and is bounded as follows, that is to say, on the north by Elziver, and a portion of Madoc ; on the east by Sheffield, in the County of Lennox ; on the south by Tyendinaga, and on the west by the township of Huntingdon.

The old Town Hall at Georgetown having been destroyed by fire, a handsome brick structure was recently erected at a cost of \$2,500, in which the Council at present meets for the transaction of public business. This is by far the finest town hall in the county, and is built of brick. Dimensions of body of hall, 56 by 28 ; clerk's office, with iron fire-proof vault in rear, 20 by 18 ; lock-up, with cells, ditto ; all of which are conveniently arranged, both as regards seating capacity, clerk's office, safety of public documents, records, criminals, etc., the whole being surrounded by a neat picket fence.

The township of Hungerford was settled principally by Irish and people of Irish descent, together with the descendants of United Empire Loyalists, who drew land in this and other rear townships. Its progress, since the occupation of Sugar Island by Dirkin & Donohue in 1826, has, as previously stated, been rapid, and to-day it occupies a position second to none in the county in its natural resources and productiveness. The surface of the township is somewhat rolling, rendering drainage everywhere practicable. The soil is of that calcareous nature common to North Hastings, and is well watered. Stoco Lake, situated in the

north centre of the township, derived its name from the famous Mississauga chief, Stougcong, who, with his tribe, yearly ascended the Sagonaska—Moirá—River to fish and hunt, and has an area of about 1,600 acres. Bass, Maskinonge, Pickerel and other species of fresh water fish abound within its waters. Sugar Island, embracing within its limits about 2,000 acres of land, is situated immediately south of the lake, is formed by two branches of the Moira, which leave the lake about one mile apart and run parallel to each other for about two miles, when the east branch winds around to the westward and forms a connection with the west branch at a point where steam saw-mills are located.

The Moira River enters the township at its north-west extremity, and flows in a south-easterly direction until it reaches Stoco Lake, leaving the lake by two branches which unite after running parallel to each other for about two miles, thence in a south-westerly direction to the boundary. The characteristics of the Moira in Hungerford are identical with other localities through which it flows, except that the current is not quite so rapid, affording less facilities for mill privileges than in Thurlow.

The Scoutamatta Creek, a stream of considerable size, with its tributaries, flows through the north-east portion of the township.

A tributary of Parks Creek takes its rise on lot No. 20, in the 6th concession, and flows in a southerly direction towards the Tyendinaga boundary, in which township it forms a connection with the main branch.

Black Creek takes its rise on the north-eastern boundary of the township, and empties in the midst of a large cranberry marsh, into Stoco Lake, at its northern extremity.

Clare River also takes its rise in divisions upon the eastern boundary, and empties itself into Stoco Lake at its eastern extremity.

Hungerford is not behind the neighboring municipalities in educational matters, as is evident from the many neat, substantial school houses everywhere to be met with throughout the township. Able teachers are employed, and a proper interest in their general efficiency generally maintained. There are a large number of well equipped cheese factories located in the vicinity of the many living springs in different parts of the township, and considerable interest is manifested by the farmers in this enterprise. The product of these establishments finds a ready market at Belleville, which has of late become one of the principal cheese centres in the province.

Gold, as well as other minerals, has been discovered in considerable quantities in the eastern part of the township. A crusher

was erected, but beyond the extraction of small quantities of the precious metal, the result was not satisfactory.

In the township there are several villages, viz: Tweed, Georgetown, Stoco and Thomasburg. The largest and most important of which is Tweed; a description of which will be found in connection with the list of names for the village.

NOTE.—The Post Office Address of each resident is given, and is the last word in each line, "Thomasburg" being the post office of Adams, Thomas, and "Bogart" the post office of Akey Rodenick, &c., "f" stands for freholder, and "h" for householder.

HUNTINGDON.

Huntingdon is rectangular in shape and is bounded on the north by the township of Madoc, on the east by Hungerford, on the south by Thurlow, and on the west by Rawdon, and contains within its geographical limits 56,000 acres of land. It was first settled about the year 1816 or '17, for during the latter year it is recorded that there were five permanent settlers in the township, with a total population of twenty-six inhabitants.

The population of the township is about 3,822. The township Council meet in a substantial and commodious town hall, in the village of Moira, situated upon lots Nos. 11 and 12 in and between the second and third concessions. This village was established at an early date in the history of the township. It contains, besides the town hall, one general store, two blacksmith shops, one cheese factory, J. G. Foster, President; one church, one general store and post office, the first in the township, previously situated further east; and several private residences. It is pleasantly situated at the base of a large hill which shelters it from the west winds, and is the most important village in the township.

There are three Canada Methodist churches in the township,—one at Moira, one on lot No. 8 in the 8th concession, and another at West Huntingdon. There is also an Episcopal Methodist church at West Huntingdon. On lot No. 12, in the 6th concession, there is a Bible Christian church, and on lot No. 7, in the 7th concession, is the Presbyterian. At the village of Roslin are two other churches, upon lots 19 and 20, in the 1st concession. In 1845 there were only two frame and a few log schoolhouses in the township, with but an indifferent staff of teachers; to-day there are two large stone, two large brick, two frame, and two good log schoolhouses, situated respectively upon lots Nos. 6 and 14 in the 2nd concession; upon lot No. 2 in the 4th concession; upon lot No. 2 in the 5th concession; upon lot No. 7 in the 6th concession; upon lot No. 8 in the 8th concession; upon lot No. 13 in the 9th concession; upon lot No. 5 in the 10th concession; and upon lot No. 5 in the 13th concession. The schools of Huntingdon of to-day are of the highest character and efficiency, and have always been a matter of paramount interest with the people.

There are three Cheese Factories in the township. West Huntingdon Factory is located on lot 3, in the 3rd concession, James Hagerty President. Ivanhoe Factory is situated on lot 9, in the 4th concession, S. Holden, sen., President, Ivanhoe P. O. Moira Factory is located at the village of Moira, J. G. Foster, President, Moira P. O. These factories have a large manufacturing capacity, and are fitted throughout with all latest modern appliances, which enable them to compete favorably with the factories in the front.

There are three saw-mills in the township,—one upon Rawdon creek, lot No. 3 in the 2nd concession ; another, steam, on the north side of the narrows of Moira Lake ; and another upon a small stream known as Deer creek, which empties itself into Moira Lake. These mills are of modern construction, and are capable of turning out many thousand feet of lumber daily.

The township is well watered by Lake Moira and the Moira River, Rawdon creek and its tributaries, a branch of the Scootamatta, and Boyne creek. Moira Lake, better known as Hog Lake, is one of the largest and finest of the back country chain of fresh water lakes, and is situated in the northern part of the township and on the Moira river. It embraces an area of something over 2,000 acres, and its waters contain a variety of fish indigenous to this section of the country.

The Moira river in Huntingdon is deep, and is in places completely surrounded by impenetrable marshes and swamps ; it is a favorite haunt of the wild duck and other game, and also of sportsmen. Rawdon creek takes its rise from a small natural lake upon lot No. 12 in the 12th concession, and traverses the township in a south-westerly direction ; a tributary of Rawdon creek has its source upon lot No. 4 in the 5th concession, connecting with the main branch at a point upon lot No. 8 in the 4th concession.

The Belleville and North Hastings railway runs through the township, entering upon lot No. 1 in the 2nd concession, and running in a north-easterly direction through the township, crossing the narrows of Moira lake, thence to Madoc.

The Huntingdon macadamized road runs through the whole length of the township, commencing at the south-western extremity and crossing Moira Lake at the narrows by an extensive and well built bridge, and striking the northern boundary at a point upon lot No. 12, which forms a part of the corporation of the village of Madoc. There are a number of other excellent roads in the township affording every facility for travel, and by

MADOC VILLAGE.

The village of Madoc, while its situation renders it the most important village in the North Riding of Hastings, is undoubtedly also one of the most flourishing and progressive villages in the County at the present time. It is situated on Deer Creek, in the Township of Madoc, bordering on Huntingdon, 26 miles north of the City of Belleville, and is the present terminus of the Belleville and North Hastings Railway. An excellent County gravel road also connects it with that City, and which extends northward from Madoc to the rear part of the County. It became an incorporated village on the 1st of January, 1878, its population being then between 800 and 900, but at present it is estimated at considerably over 1,000, and with such a brilliant future before it that without doubt that number will be doubled before many years have elapsed.

The village of to-day has seen many changes, and presents a vastly more pleasing appearance than that of ten or twelve years ago. Large and handsome residences, chiefly of brick and stone, with tastefully laid out grounds, now adorn the places where stood dilapidated looking houses in the past; fine brick blocks, of two and three stories each, occupy the places of the wooden shanties in which the trade of the village was once transacted; the stores, especially the dry goods establishments, are equal, if not superior in some cases, to the average city houses, both in extent of quantity and variety of display; its churches are commodious and highly creditable to the respective congregations; the facilities for education are unsurpassed in the County; societies of all kinds exist and flourish, and, in fact, its general appearance is that of a live, enterprising, go-ahead village. The separating from the Township was unquestionably a wise step, as the increased local improvements and superior municipal government readily testifies. New sidewalks are constantly being built, crossings laid down, streets gravelled, and various other improvements effected which otherwise would have taken years to accomplish. It is surrounded by an excellent agricultural country, and not only this but it is in close proximity to some of the richest and most extensive mineral beds in the County. In addition to the Belleville and North Hastings Railway, which gives the inhabitants of Madoc regular and easy access to the front, the line of the projected Toronto and Ottawa Railway runs through the village, and there is, at the present time of writing, some prospects of this scheme being carried through.

aided by the untiring exertions of the Chairman of the School Board, A. F. Wood, Esq., seems apparently centered on the one object of making it, indeed, the *Model School* of the County.— This is certainly excelled by few rural institutions of the kind in the Province. Mr. Geo. Kirk, Principal; Miss McKay, Miss Riddell and Miss Crepar is the present staff of teachers.

As further evidence of the existing faith in the future of the village might be mentioned, the removal here of a steam planing mill and sash, door and blind factory from an adjoining village; the erection of a large grain warehouse by Messrs. A. F. Wood, and A. B. Ross, who are buying, storing and shipping immense quantities of grain, to the great benefit of not only the village, but to the farmers themselves; the establishment of a Banking House, by E. D. O'Flynn, Esq.; the number of new and costly residences now being erected, and various other signs of improvement spreading out on every hand. There is at the present time hardly a vacant house in the village. The business extent of Madoc is about as follows: Seven dry goods stores, six grocery stores, three drug stores, three law offices, two watch-makers and jewellers, four carriage shops, two cabinet shops, five blacksmiths, two harness shops, three bakers, two grist mills, two saw mills, two planing mills, five or six shoe shops, foundry, three hotels, printing office, telegraph office, tailor shops, millinery shops, livery stables, &c., &c. Mail daily.

PUBLISHERS AND PROPRIETORS.

TERMS, \$1.50 PER ANNUM.

THE REVIEW is a strictly non-political, well printed sheet, published every Thursday, and has a large and steadily increasing circulation, which renders it an excellent advertising medium in this section. It already CIRCULATES IN EVERY MUNICIPALITY IN THE COUNTY OF HASTINGS, and is rapidly extending.

The publishers have great pleasure and satisfaction in announcing that since their venture was first launched on the sea of journalism it has met with unparalleled favor. The measure of its success is attested by the very general expression of public approval. The principles which have hitherto guided them will be their aim for the future, and they hope to establish fresh claims on the public confidence in the ratio in which they receive support.

Our object is to make it a thoroughly reliable Family Newspaper, conducted fairly, fearlessly, and independently.

MADOC TOWNSHIP.

The township of Madoc is one of the most prosperous and growing municipalities in the North Riding, having been acquiring rapidly in both population and wealth for a number of years past. It is situated almost in the centre of the County, and is bounded on the north by Tudor, on the west by Marmora, on the east by Elziver, and on the south by Huntingdon. It is said to have derived its name from Lord Madoc, of Wales; contains about 70,400 acres of land, and its population at the present time is nearly three thousand souls.

The permanent settlement of the Township commenced about the year 1830. Uriah Seymour, Barnabus Vankleek, James O'Hara, sen., Cyrus Riggs, Thomas Allan, J. R. Ketcheson, Livius Empey, Hugh Cooper, William Allan, N. Bristol, J. H. Dunn, Horace Seymour, Hugh McKenzie, William Blair, Hugh Blair, John McCoy, John Moore, Coleman Harris, and others were amongst the earliest settlers. The Township has been brought into more than usual prominence throughout Canada and the United States on account of its rich mineral deposits. Gold, iron, lead, marble and lithographic stone have been found to exist in large quantities within its borders, but hitherto the expense attending the operation of the mines and transportation of the ore was so great that their extent has been but very little developed. With the opening of the Belleville and North Hastings Railway, however, into the heart of the Township within the past year, a different state of things may be looked for in the near future. Aside from its mineral wealth, which will be fully treated of further on, the soil of most parts of the Township of Madoc is excellent for agricultural purposes, many of the farms being equal to any in the County. Farms of 100 acres have been sold for over \$6,000 cash, and there are others in the Township at the present time that could not be bought for that money. Grain, roots and fruit are produced in abundant yield, and of superior quality. The farmers are thrifty and prospering, as is evidenced by their well tilled fields, and comfortable and substantial looking dwellings and out-houses. In many cases handsome and imposing residences of brick and stone are taking the place of the old wooden buildings which sheltered the pioneers from the storms in the years that are past. Roads are being gravelled and put in

the best possible state for travel as rapidly as practical ; the Hastings macadamized road runs through the centre of the Township its entire length ; school houses and churches dot the landscape at regular intervals, and, in fact, throughout the whole Township contentment and plenty appear to abound. The village of Madoc, a place of over 1,000 inhabitants, is situated on the southern boundary, from whence communication is had with Belleville by rail.

In 1874 the Township of Madoc almost unanimously voted a bonus of \$30,000 to the Belleville and North Hastings Railway, which has since been completed and is now running regularly. It has been found not only a convenience but a great benefit and saving to the farmers who were hitherto obliged of necessity to transport their grain and produce to Belleville by team, at great fatigue and expense. Now, however, a large warehouse has been erected at Madoc station, where they can store their grain and ship at convenience or as the prices render advisable, or they can sell at a few cents lower than city quotations. In fact it has given them a better cash market at home than they formerly had at Belleville, considering the expenses and time consumed in drawing their grain there.

IRON MINES OF NORTH HASTINGS.

SEYMOUR MINE.—This mine is on lot 11, in the 5th concession of Madoc, and is the first one reached by the Belleville and North Hastings Railway. The ore is highly magnetic and has been widely known since 1837, when some ore was taken out and smelted in a Charcoal Furnace, at Madoc village, with very satisfactory results, by Mr. U. Seymour. Nothing further was done with this mine until November, 1878, when a lease was made to Charles J. Pusey, who has been working it ever since. The ore proves to be admirably adapted to the manufacture of Bessemer Steel, works very free in the furnace, and yields from 63 to 65 per cent of Metallic Iron, is almost entirely free from Phosphorous and Sulphur, and no trace of Titanium. The veins or signs of veins are almost vertical, and run into the hill in a north west direction, the south vein which had a width of 4 feet at the outcrop has been worked in about 125 feet and expands regularly to a width of 25, at the point where it is now being worked, the depth from the surface is now about 28 feet. The next vein is separated from the first by a parting of rock, averaging about 4 feet in thickness. This vein is now being opened and shows a vein of about 8 feet. Another vein still further north with a thin parting of rock shows at the outcrop, but has not been developed. It is the intention of the proprietor of the mine to

edly become of importance should the present gold indications assume large proportions at any future time.

The church denominations of the Township are apportioned about as follows : Methodists, 1,323 ; Presbyterians, 596 ; Church of England, 324 ; Roman Catholics, 230.

The total number of live stock in the Township at the last assessment was 9,008, comprised as follows : cattle, 4,111 ; sheep, 2,339 ; hogs, 1,473 ; horses, 1,095.

MARMORA AND LAKE.

The Township of Marmora is situated in the North Riding, and is bounded on the north by Lake, on the east by Madoc, on the south by Rawdon, and on the west by Belmont, in the County of Northumberland. This Township attracted early attention from the immense deposits of iron ore found within its borders. In addition to iron ore, copper and lead have been found in abundance in the Township, and valuable beds of lithographic stone have recently been discovered within the limits of the village, and immediately adjacent thereto. Marble is also found in great abundance in the Township, and is of excellent quality. The Township abounds in mineral wealth ; and no place in Canada presents a better field for the enterprising capitalist. There are some good lands in the Township, and they are chiefly in the hands of those who may be regarded as thrifty and well-to-do farmers. During the gold excitement of 1867-68, gold was found in various parts of the Township, and in conditions which induced the belief that the Township would turn out to be the richest gold region in the County. The Dean & Williams mine, on the Moira river, about two miles east of Marmora village, was worked profitably for two or three years, but the difficulty found in separating the gold led to experiments in procuring improved machinery. During this fall a new Company has taken hold of this mine, who have put in new and improved machinery, and who contemplate working the mine on an extensive scale. A short distance north of this is the famous Gatling mine, the ores of which have been treated successfully in various forms, showing remarkably rich yield. Extensive preparations have been made to work this mine, and it is expected to be in full blast in the winter of 1879-80. The Fiegel mine at Malone has been profitably worked for some years, but with improved machinery would no doubt produce a much richer yield. A description of these as well as other mines of the gold field, however, are treated more at length in another part of the work.

TOWNSHIP OFFICERS.—William Phillips, Clerk ; George W. Bleeker, Treasurer. .

NOTE.—The Post Office Address of each resident is given, and is the last word in each line, "Marmora" being the post office of Ackers, Julius, and "Shanick" the post office of Armstrong, Simon, &c., "f" stands for freeholder, and "h" for householder.

MARMORA VILLAGE.

The village of Marmora is known all over Canada, and in many parts of the Old World, not on account of its size and wealth, but from its connection with the Marmora Iron Works, which were established many years ago. These works were erected at a cost of over \$100,000, and a large amount, estimated at \$300,000, has been expended upon them since. Tons and tons of iron have been made at Marmora; and at one time the village presented a busy scene; but through bad management, and the difficulty of transportation, operations at the mines have been at a stand-still for some years. A few years ago, the Marmora Works, with all the Company's lands, were amalgamated with the Cobourg and Marmora Railway Company. Mining operations were carried on at the ore bed in Belmont for some years, and large quantities of ore have been taken out and conveyed to Cobourg, and from thence shipped to the United States, where it was manufactured. At this point the ore is apparently inexhaustible, and the quality is improving the deeper the excavations. These works have been closed for the last two or three years on account of the depression in the iron Trade, but it is said they will again be operated in the spring of 1880.

Some improvements have been made in the Village within the last few years, amongst the most important of which is the erection of a new grist mill by Messrs. Pearce & Son. It is a fine building, three stories high, has two run of stone, and all the machinery of a first-class flouring mill. A new saw mill has also been built, also a carding and woollen factory. The population of the village is about four hundred. Within the last year or two a number of new stores and residences have been erected, and since the publication of our last Directory, the Church of England, the Roman Catholic and the Wesleyan Methodists have built fine and commodious edifices.

MILLTOWN.

Is situated in the Township of Tyendinaga, about one mile east of Shannonville on the Belleville and Richmond road, and on the line of the Grand Trunk Railway. The Salmon River runs through it and furnishes one of the best water power privileges on the stream. On this privilege are two flouring mills; the upper one is run by N. S. Appleby, Esq., M. P. P. It has one saw mill attached to it. Immediately below is the flouring mill owned by S. A. Lazier, and leased to Mr. Wm. Mayell. It has been repaired with the latest and most thorough machinery and is second to none on the stream. The first mill has three run of stone, and is capable of grinding from one hundred to one hundred and fifty bushels a day. The second has three run of stone and will grind from thirty to forty thousand bushels a year. Opposite are the premises of Mr. R. F. Pegan, which consists of a large foundry and machine shop, cabinet and chair factory. There is one carriage shop worked by Arthur Carter, two blacksmith shops, one hotel, one grocery, one dry goods store, and a brick school house; one Common School having an average attendance of forty-five scholars, Mr. Joseph Hanna, school teacher. Population two hundred.

MILL POINT.

This Village is finely situated at the mouth of the Napanee River on the Bay of Quinte, at the south-east extremity of the County. It is seven miles from Napanee, eight from Shannonville, and eighteen from Belleville. The Grand Trunk Railway passes within one and three-quarter miles of the Village, though no station has yet been established nearer than Tyendinaga, four miles distant. Both telegraph lines have offices here. The Village has been incorporated and now contains between 1,500 and 1,600 inhabitants. Connections by steamers are made here daily for all River and Bay ports. Six regular steamers call twice a day, and the Montreal boat twice a week. Stages leave daily for Napanee and Picton. A Methodist Episcopal and a Union Church in the Corporation, with the English Missionary Church just outside of the Village limits, afford every accommodation for religious services. The education of the young is attended to in a fine brick edifice with three teachers.

Since the destruction of the mills and shops by fire some years ago all buildings erected have been of a character to reduce the danger from fire to the minimum. The stone saw mill driven by two powerful engines of 200 horse power, contains eight gates of upright saws with all the necessary circulars for converting the refuse into laths, pickets, headings, &c. The average yield of lumber, &c., from this mill by day running is 22,000,000 feet. The cedar mill is part stone and brick, and manufactured during last year, 100,000 railroad ties, 100,000 fence posts, 250,000 feet of lumber, and 11,000,000 shingles. The timber used in keeping these mills running is brought down the Napanee, Salmon, Moira, and Trent rivers, and towed to the mills by tow boats. The docks are commodious, and present a water frontage of one and three-quarter miles, which are continuously filled with the product of the mills for shipment. Three hundred and sixty-two vessel cargoes of lumber and productions from logs and timbers have been shipped this year to October first. The brick machine shop, and sash, blind, and door factory, occupying a frontage of some seven hundred feet, and erected a few years ago, are kept busy in supplying the demands for wooden goods, from the whole Province. There is an agency of this branch of the business in Great Britain, and already some three thousand doors have been forwarded this season to Great Britain and Australia markets

A commodious, modern, and neat appearing hospital, having ample grounds, was erected in September on the breaking out of the small-pox, in the short space of thirty-six hours, and proven of incalculable benefit in preventing the spread of the disease.

A fine grain elevator was erected last year, having all modern conveniences and a capacity of 35,000 bushels, with wharfage facilities and a depth of 11 to 12 feet of water. The steam power is in a fire proof engine room distant sixty feet, and will serve also to drive the stone grist mill now in course of construction adjoining the same.

The grist mill will if necessary accommodate eight run of stone, and is intended to be second to no mill in the Dominion.

About 100,000 bushels of grain are shipped yearly from this port.

There are four hotels, two of them with all modern conveniences; also neat and tasty dwellings and grounds, indicating good taste and prosperity of the people.

A ship yard has been in operation here for some years. The two largest vessels on Lake Ontario—the *Marquis* and *Bently*, of Toronto—were here constructed; also many fine vessels, steamers, and tug boats bear testimony to the good character of the work done.

There are a number of very good dry goods, grocery, drug and hardware stores, also a harness and other shops for the different branches of trade.

The hotel accommodation of Mill Point has during the past summer been greatly increased and improved. The O'Connor House having been enlarged and completely renovated inside. It now presents an imposing exterior, and is comfortable within. Messrs. Weidon & Stroud have also erected a handsome brick house, known as the Empress Hotel. Two better houses for the travelling public are rarely found.

The growing importance of Mill Point as a shipping centre having attracted the attention of the United States Government a Consular Agency for the issuing of Consular certificates has been established here.

Mill Point Post Office is now an office for issuing money orders on Great Britain and the United States as well as Canadian offices, and is also a Government Savings Bank. Four mails daily are received and despatched from Mill Point.

The locality now occupied by the enterprising Village of Mill Point once bore a very beautiful Indian name "Deseronca." It

has been recently proposed to revive the old appellation, a fitting tribute to the ancient occupiers of the soil.

ERATUM.—On page 312, last line but one, instead of "three" thousand doors, read "five" thousand.

MONTEAGLE AND HERSCHEL.

These Townships form one Municipality, and are bounded on the north by Wicklow and McClure, on the south by Dungannon and Faraday, on the east by Carlow, and on the west by the township of Harcourt. The soil in both townships is for the most part fertile, capable of producing large crops of all kinds of grain. It is well wooded with Maple, Birch and Pine. There are several lakes of various sizes, which abound with fish, chiefly speckled and grey trout.

RAWDON.

The township of Rawdon is bounded on the north by the township of Marmora, on the east by Huntingdon, on the south by Sidney, and on the west by the township of Seymour, in the County of Northumberland, and contains within its limits an area of about 67,200 acres of land. It derived its name from Lord Rawdon, an English nobleman, at one time connected with the Colonial Department of the British Government. Its first permanent settlement dates back to about the year 1820, when the front range of concessions were occupied by sons and descendants of United Empire Loyalists' families, who lived in the older settled townships on the Bay of Quinte, and who, on the occupation of the available land in their respective corporations, drew lots in the rear tier of townships, upon which their families afterwards settled. The vicinity of Stirling was, owing to the superior quality of the soil and the close proximity to Sidney, together with the fine water privileges afforded by Rawdon creek, the scenes of the earliest settlement in the township.

The Stirling and Marmora macadamized road which runs through the centre of the township, and other principally travelled roads, are in good repair, and almost any point in the township is easy of access. The dwelling houses of the farmers are comfortable and home-like, some exhibiting a degree of architectural beauty and refinement not often to be met with except in old and wealthy municipalities. The soil, like that of the adjoining townships, is on the blue limestone formation, and, with the exception of sections where the rock crops out to the surface, is excellent for agricultural purposes, and is apparently in a high state of cultivation. No one can drive through the township of Rawdon and look upon its well tilled farms, with the numerous comfortable homesteads, where fifty years ago the forest stood in all its grandeur and wildness, but must confess that real and substantial progress has marked its course.

Rawdon is well watered by several rivers, creeks and rivulets, which pursue their tortuous course in a south-westerly direction through the township, affording at different points excellent facilities for almost every description of manufactures. Rawdon creek

takes its rise in the township of Huntingdon and upon lot No. 1, in the 9th concession of Rawdon, traversing the township in a south-westerly direction, passing through the village of Stirling, and emptying itself into the river Trent, in the township of Sidney.

A stream of considerable importance takes its rise upon lot No. 9, in the 5th concession, and runs parallel to Rawdon creek, also emptying into the Trent in Sidney.

Squires' creek most effectually drains the north and east and west centres of the township. It takes its rise upon lots 6, 8 and 24, in the 6th concession, and upon lot 13 in the 12th concession, with tributaries at the south-western extremity of the township, in which direction it flows until it meets the Trent in the township of Seymour, in the county of Northumberland. Upon this stream a number of grist and saw mills and cheese factories are erected, with ample supply of water to drive all the necessary machinery.

The Moira river, with a tributary called Mud creek, crosses the north-eastern corner of the township, and upon which are a couple of saw mills, one of which has, we are informed, fallen into disuse. Crow River, a large tributary of the Trent, traverses the north-western extremity of the township, widening to the proportions of a small lake. There are no mills upon this river in Rawdon. The manufacturing interests of Rawdon are confined to grist and saw mills, brick yards and cheese factories. Upon lot No. 19, in the 5th concession, upon Squires' creek, directly south of Wellman's corners, is a grist and saw mill, and blacksmith shop. On lot No. 5, in the 2nd concession, on a tributary of Rawdon creek, is a saw mill, and further down the stream, on lot No. 7, is situated another, both in running order, but owing to the scarcity of raw material, only a local business is done at certain seasons of the year. Upon lots Nos. 8 and 9, in the 8th concession, and upon a branch of Squires' creek, Mr. A. Ketcheson owns and carries on a saw mill; and upon lot No. 2, in the 13th concession, on the Moira, there is another saw mill.

There are several first-class cheese factories located upon the many living springs and streams which abound throughout the township, all of which are fitted out with the latest approved apparatus and mechanical appliances to facilitate the manufacture of this very important branch of agricultural industry. They are situated as follows:—At Wellman's Corners, upon lot No. 19, and a branch of Squires' creek, in the 6th concession, is situated a large manufacturing capacity. Upon lot No. 19, in the 9th concession, and upon another branch of Squires' creek, is situated the Barton factory. Another factory is located upon the farm of Mr. S. S. Vandervoort, lot No. 13, in the 6th concession, and Squires'

creek, having a large patronage; while another is situated upon lot No. 8, in the 9th concession, immediately north of Ketcheson's saw mill. Upon lot No. 14, in the 12th concession, is the Read factory. Two other factories are situated respectively upon the properties of Mr. J. Gay and Mr. Wright, upon lot No. 9, in the 4th and 7th concessions, making a total of nine establishments, which, during the season, are run to their utmost capacity, netting annually thousands of dollars to their patrons, the farmers of Rawdon. The Grand Junction Railway runs across the front of the township.

SHANNONVILLE.

Shannonville, which has a population of about five hundred inhabitants, is situated in the Township of Tyendinaga, about a mile from the shore of the Bay of Quinte. It is on the line of the Grand Trunk Railway, and distant from the City of Belleville nine miles, east. It was first settled in 1820, by Frederick Keeler and Warren Noble, who erected the first mill, and obtained from the Mohawk nation a lease of the privilege for 999 years, together with 200 acres of land, which is principally situated on the west side of the river. This lease was afterwards confirmed by the Government, and is owned by Francis Wallbridge, Esq., who pays the Indians a yearly rental of thirty barrels of flour. The port or shipping place of the village is situated on the Salmon River, about a quarter of a mile below the mills. Vessels of light draught can come up to this port; the navigation up the river is better than of late years, on account of the mouth of the river being dredged. The first white settlers in this vicinity were the Portts, who came from the banks of the Shannon, and by them the river was named Shannon, in honor of the far-famed river of their native Isle. The village received from them the name of Shannonville, but the original or Indian name of the river was Salmon, so called from the abundance of fish of that name found in the river, and by that name it has by common consent since been called. Shannonville benefits largely from the lumber trade; down the Salmon, the extensive lumber firm of H. B. Rathbun & Son, Mill Point, bring a considerable portion of their lumber. The village has suffered a great loss by fire during the last 8 or 10 years; notwithstanding all this it has received some improvements. The grist mill owned by F. Wallbridge, was recently destroyed by fire and is now getting rebuilt; Mr. Thomas Earle, the millwright, is using the latest styles and improvements of machinery; it is built of stone and five stories high; when built it will be capable of holding 20,000 bushels of grain, and gristing 700 bushels of grain in 24 hours. Mr. F. Wallbridge also owns the saw mill situated in the interior of the village, having several saws which can cut about 50,000 feet of lumber in 24 hours. There are two shoe shops and six shoe shop establishments in the village, also four dry goods stores, one post office, two hardware shops, one tinsmith and stove shop, one steam shingle mill, situated by Shannonville wharf, which is capable of cutting 20,000 shingles in one day. Ashery is also only a short distance from the wharf; it is owned by Messrs. Sanford Baker and Alexander Harrold. Shannonville has three churches; Church of England, Canadian Methodist and Episcopal Methodist, each having a resident minister; one large brick school house, two stories in height; one common school with two teachers, having a yearly average of 125 scholars. The railway station is about a quarter of a mile north of the village.

SIDNEY.

It is bounded on the north by the township of Rawdon, on the east by Thurlow and the City of Belleville, on the south by the Bay of Quinte, and on the west by the river Trent and the township of Murray, in the County of Northumberland, and is at present one of the best settled and wealthiest townships in the County of Hastings. The first concession of Sidney, from the proximity of the waters of the Bay of Quinte, became of necessity the scene of the earliest settlement. Capt. John Walter Meyers, noted during the revolutionary war for his bravery and enterprise, and whose career, in connection with the same, is related with varying details in Stokes' "American Border Wars," and Dr. Canniff's "History of the Settlement of Canada," together with his family, appears to have been the actual pioneer settler. Capt. Myers was of Dutch descent, and came from the vicinity of Albany, on the Hudson, in the State of New York, about the close of the war, and settled upon the front of Sidney, where he drew a large grant of land, a short distance east of the present village of Trenton. His enterprise was here auspicious, not only in clearing land for cultivation, but in erecting a grist mill upon a small stream on his land in Sidney, and thus became a pioneer in mill building as well as trading and sailing Batteaux and other craft on the waters of the Bay of Quinte. Traces of this mill near the Bay shore can still be seen; and the position of the dam, the mill-race, the foundation of the mill and residence of the late owner still exist; and, what is more especially interesting, there is embedded in the surface soil, but still exhibiting its upper side, the lower mill stone, or bed-stone as it is usually designated. The stream proving, eventually, inadequate for the desired end, he subsequently erected another mill on the present river Moira, on a dam constituted for that purpose, and also a log saw-mill on the opposite or east bank of the river, where Belleville now stands.

The Town Hall is situated about the centre of the township, at the post village of Wallbridge, distance from Belleville, 9 miles. It is a good, substantial, commodious building, with ample shed room for the teams of the ratepayers. The township contains about 68,400 acres of excellent land; its surface is somewhat rolling, well watered by several streams, the principal of which is the Trent.

Sidney has about 1,295 ratepayers, with a population of 6,475; assessed value, 1879, \$2,588,755, which is one of the best evidences of its prosperity. There is a large cheese manufacturing interest in the township of Sidney, its lands being well adapted for dairy purposes. There are scattered throughout the municipality several large cheese factories, which annually turn out thousands of pounds of a superior quality of cheese, paying their several patrons well for their investments. The River Trent flows through the western part of the township and empties into the Bay at Trenton. It is spanned by two substantial covered bridges, one at Trenton and the other at Frankford, affording to the farmers on either side an excellent means of passage. The Trent river was one of the original routes of Indian and French traders, and is of interest from the fact that Champlain is reported to have entered the Bay of Quinte by this means, and discovered Lake Ontario. Its Indian name was *Ganaraske*, and was sometimes called Quintio; millions of feet of squared timber and saw logs have been rafted over its turbulent waters on their way to the great markets of the old world. The Belleville and Stirling, and Belleville, Frankford, and Stirling macadamized roads run through the township. The farmers seem to be in a well-to-do and prosperous condition, as is evidenced by the character of their several buildings, the well cultivated fields, and the many acres of thriving fruit orchards everywhere to be met with throughout the municipality. School-houses and churches are located at various points, whose teachings are free as the air we breathe. Oak Lake is situated upon the Oak Hill range, in the north of the township, is triangular in form, having an area of about 100 acres, and is something of a natural curiosity. The water of the lake is pure and limpid, and abounds with rock bass and other species of fresh water fish. It has no apparent outlet, neither has any visible means of supply ever been discovered.

STIRLING.

Stirling is a thriving and prosperous village situated partly in the Township of Rawdon, and partly in the Township of Sidney, but within the electoral division of North Hastings. It was incorporated in the year 1858, and has a population of about 1,000. Located in the heart of a thickly settled and fine agricultural part of the County, and being possessed of one of the best flouring mills in the country, one foundry, sash factory and planing mills, and other manufactories, and the Grand Junction Railway running through it, it must become an important town, and a central market for the products of the County. The original flouring mills together with a woollen factory, were built by Mr. W. Baker, in 1852. In February 1866, the flouring mills were totally destroyed by fire. The whole of the property was afterwards purchased by the late Mr. D. McDougal, who fitted up the woollen factory, which is a four story stone building, at a great expense as a flouring mill, and by introducing the very best machinery with all the latest improvements, has made it one of the best in the country. It is partly run by water from the Rawdon creek, a tributary to the river Trent, and partly by steam. The capacity of the mill is about one hundred barrels of flour per day. It is leased by Messrs. J. B. Parker and Walter Craske. In the summer of 1868, Mr. White, M. P., purchased the site and ruins of the old mill and rebuilt it, and fitted it up for a first-class foundry. It has since been purchased by Mr. John Graham, and with its capabilities is doing a good business in the manufacturing of steel ploughs and farming implements in general. The sash factory and planing mills, (a brick building,) is owned by Mr. William Martin, and leased by Mr. William Butler, and is worked altogether by steam power. It contains the very best improved machinery of the day in all its departments, and is doing a good business. The Grand Junction Railway which is completed from Belleville to Hastings, passes through the village and will establish an important market and a depot for the purchase and shipment of grain, cheese and all the other products of the farm, besides being the outlet for all the country north. Another epoch in the history of the village is the establishment of a weekly newspaper, under the name of the *Stirling News Argus*. Mr. John H. Thompson, is editor and proprietor. The village is well supplied with first-class dry goods stores,

THURLOW.

The Township of Thurlow, or ninth town in the U. E. Loyalist order of Bay numbers, is another of the oldest settled municipalities on the Bay of Quinte. It is bounded on the south by the Bay of Quinte, on the west by the township of Sidney, on the north by Huntingdon, and on the east by Tyendinaga, and is admirably located with reference to railroad and steamboat accommodation and its close proximity to the city of Belleville, advantages the people have not been slow to avail themselves of as is shown by the increased prosperity of the agriculturists throughout the township. The people are almost entirely descendants of United Empire Loyalists who were drawn thither after the close of the Revolutionary war; a people to-day prosperous and intelligent, they are justly noted for hospitality and the many social virtues, while their broad charity and public spirit find them foremost in every enterprise conducive to the general welfare. The first pioneers who penetrated the wilds of Thurlow, about the close of the last century, and the beginning of the present, found interminable forests, a heavy waste of timber, with dense undergrowth, the home of the bear and howling wolf, which were numerous. With their axe and gun, and with sturdy arms and will, they began their work to carve out that grand civilization which to-day throbs and pulsates its bosom. When the scattered clearings began to admit the sunlight and crops were put in, the people began to realize the fertility of the soil. Productions of every variety indigenous to this latitude were certain of rapid growth and large returns, as attested by the vast wealth that has been drawn from the bosom of the soil during the three quarters of a century that has passed—a wealth that has covered it with beautiful homes, drifted to every part of the world, and fed and clothed millions. The soil is generally a fine quality of calcareous loam, mixed considerably with clay. The limestone formation occasionally crops out in certain sections, particularly on the front, but not sufficiently prominent to interfere with cultivation. The surface of the township is undulating, climate agreeable, and general altitude well adapted to agriculture. It is sufficiently well watered for farming purposes, with abundant springs of pure cool water in every part thereof. The Moira River, with its several tributaries runs through the township in a south-westerly direction, and empties itself at Belleville into the Bay of Quinte. Apple orchards are beginning to be extensively cultivated, and fruit of the

finest and hardiest varieties yield abundantly, and is being raised in large quantities, while the already large area of orchards receives yearly additions. This product alone in a few years will form one of the principal articles of export during its season. The soil of Thurlow, as already mentioned, is noted for its productiveness, and wheat has frequently been known to yield fifty bushels to the acre, and other cereals in proportion, while it cannot be surpassed for dairy purposes. Large quantities of the finest quality of cheese are annually manufactured within its limits, which command the highest market price in the markets of the old world, to where it is principally shipped.

The Moira River, named after the Earl of Moira, afterwards Marquis of Hastings, or Sagonaska, its original Indian name, flows at a rapid pace through the township, affording some of the finest water privileges that are to be found in the Province, while large quantities of saw logs are annually rafted from the north woods to the many mills along its banks, and at Belleville, there to be dressed for the market.

There are several small villages in the township, the principal of which is Canifton, situated upon the river Moira, about four miles from Belleville, and was first settled about the year 1806, by the family of John Canniff, from whom the village derived its name and who was its founder.

Plainfield, a small post village of recent date, is situated at a point on the Moira, a short distance above Corby's distillery. There are flouring and saw mills of immense capacity, an hotel, store &c. Still further up the river are located Latta's mills, comprising three saw and one flouring mill, all of which are run to their full capacity, except in certain seasons when raw material is not to be obtained.

A portion of the post village of Roslin is situated in the north east corner of the township. There are several stores, the extensive carriage manufactory of Wm. P. Hudson, the 1st Deputy Reeve of Thurlow, an hotel, &c. Considerable business is done here on account of its being on the principal road to Belleville, 15 miles distant, and the fine agricultural country by which it is surrounded.

NOTE.—The Post Office Address of each resident is given, and is the last word in each line. "Foxboro" being the post office of Adams, Jonathan, and "Belleville" being the post office of Adams, Lewis C., &c., "f" stands for freeholder, and "h" for householder.

TRENTON.

[For the following very full and interesting description of Trenton, we are indebted to the Rev. William Bleasdel, Rector of St. George's Church.]

When the brave and adventurous Samuel de Champlain, in 1615, after having explored the Ottawa River, the Mattawan, Lake Nipissing, the French River, and had passed thus into Georgian Bay, preceded by the Recollet Father Caron, a man of similar spirit, and actuated by a noble religious missionary zeal, they jointly thus discovered and opened up to European enterprise an entirely new region and an inland sea of great extent with its vast accumulation of fresh water. He landed at Thunder Bay, in the very northern part of the present County of Simcoe, and a little west and north of Penetanguishene Bay. After visiting various settlements or towns of the Indian tribe of the Hurons, who then inhabited this peninsula in the County of Simcoe, he made his way to the lake that now bears that name. From Lake Simcoe, Champlain proceeded with his canoe expedition up the little Talbot river, across the Portage to Balsam Lake, thence to Cameron, Sturgeon and the successive chain of lakes to the Otonabee river, thence by Rice lake and the river Trent to the Bay of Quinte, where the rising town of Trenton now stands. The first European who thus traced this route, and gazed upon this beautiful arm of Lake Ontario ; what must have been his sensations at this discovery ? How changed is the scene now from that on which Champlain gazed upon nearly 264 years back ! The banks of the river Trent at its mouth was then a dense cedar swamp on both its sides, permeated especially on its western shore with fine spring rills abounding with speckled trout. On the high grounds were groves of beech, maple, bass and iron wood, while here and there clumps of pine, white hickory, sumach, oak and elm trees grew freely on the upper and dryer places on the banks of the river and bay. Champlain was thus the first pioneer who traced the route of the proposed Georgian Bay Canal access to the waters of the Bay of Quinte, and thence to the Atlantic Ocean, as well as he was the first discoverer of that Bay itself, as well as Lake Ontario. The circuitous route of these discoveries arose from hostility of the Iroquois tribes of Indians to those of the Huron and Algonquin races and their French allies, which necessitated the northern route up the Ottawa river, as farther distant

from the lower lake frontier, infested by these first named and ever vigilant foes. And from the hill above Trenton, now known as Mount Pelion, with its extensive range of vision, it is probable that he first saw the waters of Lake Ontario, which are comprehended within that beautiful and wide-spread prospect.

The spot from whence Samuel de Champlain first beheld the Bay of Quinte with its beautiful shores and indentations, is now the site of thriving Village of Trenton, incorporated in 1853, also a port of entry, and situated thus at the confluence of the river Trent with the aforesaid Bay, and shortly to be incorporated as a Town.

The fertile peninsula of the County of Prince Edward forms the opposite shore of the bay to the mainland, and is united to it by the isthmus or portage of the Carrying Place. The latter place being distant from Trenton a little over four miles.

This village thus of some historic interest, contains a population of over 3,000, with its immediate outlets, and before its incorporation was in the Township of Murray and County of Northumberland for the larger portion of its bulk, but since that period it has formed a portion of the County of Hastings. Its position at the head of the Bay of Quinte and the mouth of the river Trent is beautiful and presents many beautiful scenes from the high lands and ridges which surround it, and the charming views of the Bay, and the windings of the river Trent contribute to furnish lovely scenes such as the painter would delight to delineate with all his artistic skill. The rapids of the river, which extend from a mile above Trenton to eight miles into the interior beyond the village of Frankford, afford many a striking and picturesque view as the waters rush wildly on between wooded islets and the deep banks of the stream. A local poet, long ago removed by the hand of death, has beautifully described these peculiarities of the Trent in language congenial to such an appropriate theme; and from the high ridge or hill on the west side of the Trent, now named Mount Pelion, some delightful distant glimpses of Lake Ontario, Weller's Bay, and some of the western points of Prince Edward County can be obtained by the naked eye or the telescope.

The vicinity of Trenton offers to the naturalist and geologist much of especial interest, and more particularly to the latter, for here are the upper shaly beds of the Trenton limestone, of the New York and Canadian classification of the Lower *Silurian* series of rock, and abounding in fossils. Here in particular spots are crinoids, corals, trilobites, brachiopods, gasteropods and cephalopods in abundance; and three miles up the river and on

the banks of a tributary stream on its west side near Gordon's mills, there is evidence of glacial action in the shape of an immense boulder 22 feet high at its highest point, and whose longitudinal circumference is about 114 feet, lateral do 77 feet, whole length 42 feet, and breadth 24 feet. This boulder compares favorably with many published accounts of such in other parts of the world in bulk, and is not destitute on its storm beaten sides of botanic interest; for Professor Lawson, then of Kingston, and now of Dalhousie College, Nova Scotia, on the 6th of June, 1862, collected seventeen different species of plants (chiefly cryptogamic) found growing upon it. There are also other ample evidences of the boulder drift with appearances of stratified gravel and sand on the high ridges that almost surrounds Trenton, and notably Mount Pelion within its precincts.

EARLY HISTORY.

James Smith, Esq., was County Judge in Schoharie County, New York, previous to the American revolutionary crisis. As an United Empire Loyalist he drew the land on the East side of the river Trent in the Township of Murray and came and settled there in 1790. He built his dwelling at the foot of Bunker's Hill; traces of which remained until within the last few years.

After his death the property came into possession of his son John. About the year 1800, lot two and all the land west of it on the east bank of the river was disposed of by the latter to Henry Ripsom, who came from Schoharie County, New York (as it is believed). He erected the Grist Mill two miles up the river on the east bank, and the mill race and other traces of it still exist. He erected also the stone house, the residence of the late A. H. Meyers, Esq., formerly M. P. P. for Northumberland County, and it is stated to have been the first stone dwelling house in that County.

About the year 1807 there came to this vicinity from Germany Adam H. Meyers, who settled here, the father of the first named; he laid the foundation of the mercantile business of Trenton in conjunction with his avocations as a lumberman on the river, and was very successful. The Ripsom property had by this time passed into the hands of an American of the name of Bardon or Barder. Mr. Meyers eventually purchased it from the latter, and in the hands of his children it remained until very recently.

After him came the late Sheldon Hawley, Esq., in 1817, and entering into the mercantile and lumbering business was thus early associated with the progress of the village, as at this period the chief business was on the east side of the river. Near the

same time came the late David Johns, Esq., of Marmora. He purchased the remaining portion of the Judge Smith property, consisting of lot No. 1, and the frame hotel erected on it by John Smith on the east bank of the river from the late John Rowe, Esq., of Sidney, and succeeded him as the keeper of the latter as he, Mr. Rowe, had been previously the purchaser from and successor of Smith, whilst at the same time he lumbered on the river. He afterwards sold his property in Trenton to Sheldon Hawley and his brother Josiah. And this brings it down to a very recent period.

To the west side of the river in 1790 came John Bleecker (a son-in-law of the famous Captain Meyers of the revolutionary war celebrity) as an United Empire Loyalist and took up the lot on that side of the stream which had been granted to him by the Crown. He was originally from Crown Point on Lake Champlain, and following the fortunes of those with whom he was associated by marriage; he built his first log house near Bleecker's Grove (hence its name) and afterwards a frame one on the top of the hill on the York Road. He died in 1807, and his widow removed the frame to the place where the second house erected in Trenton stood. This was the site of the present garden of the late S. Cooley, Esq. Here an hotel was kept by the widow and afterwards by his son John R. Bleecker for many years, and who died about five years ago. The Bleecker property passed from the hands of the latter to the late Captain John V. Murphy, an early settler in Trenton after the late Colonel S. Hawley, and about the year 1820.

From Captain Murphy this property was disposed of in part to the late Hon. R. C. Wilkins of the Carrying Place, Adam H. Meyers, Wm. Robertson and Dennis McAulay, and Alex. McAulay, Esquires, and others, and these four latter in the respective order of their names were the first merchants in West Trenton and largely contributed to its present commercial prosperity. With these were associated in business afterwards the late Jacob Ford Esq., at this early period. He came from New York State and was first most usefully employed as a school teacher on the front of the Township of Sidney, and was, we understand, the earliest school master in these parts, and removing subsequently to Trenton shared with the above in lumbering, mercantile and other avocations. Following these came in order John F. Flindall and Jeremiah Simmons. Mr. Flindall has been in business here for over fifty years, and Mr. J. Simmons, coming from the vicinity, has been an actual resident in Trenton since 1835. He has held the position of Clerk of the Municipality since its incorporation in 1853, (a term of twenty-six years) with the respect, approval and good will of every member of the community. Mr.

Simmons is from the *quondam* village of Rhinebeck, on the broken front of the Township of Sidney, and having some pretensions as an artist, painted in oil a bird's eye view of Trenton from the summit of Mount Pelion in 1843, which was an accurate view as it was at that period. It is now very valuable on that account, especially when contrasted with what it is now, with its change from not 400 inhabitants to 3,000. The picture ought to be secured by the Municipal Council by purchase on account of its historic interest and value.

The broken front of the Gore of Sidney in the County of Hastings and within the eastern limits of the corporation of Trenton, was purchased in 1803 by the late Hon. and Rev. Dr. Strachan, first Bishop of Toronto, from the Government. He laid out there a Town Plot and named it Annwood, after the maiden name of Mrs. Strachan, but this designation is now merged in that of Trenton. He gave the site of St. George's Church and other lots by way of endowment and £100, in addition to one from Colonel S. Hawley, towards its erection. The lot west of the Bleecker property and forming the western limits of the village was a Clergy Reserve Lot, and the portion on the south side of Dundas Street being in the possession of the Bleecker family, the right was purchased from John R. Bleecker by the late R. C. Wilkins and Joseph Shuter, Esqrs. and eventually the free-hold from the Government. On the north side of the road grants were made to the Roman Catholics and the Church of England of five acres each. The grant to the English Church was made by Order in Council in 1833, followed by a patent in a very short time after. On it is built the Church Rectory and Canterbury Hall. The west half was sold to different individuals for private residences under an Act of Parliament in 1874. A site is also left for a future Church also by the Rectory. Town lots were disposed of to private individuals at different times; some lots eventually to the Wesleyan Methodists and Presbyterians on the hill, whilst the northern portion became a portion of the Meyers estate.

The name of the Village previous to Incorporation was successively River Trent and Port Trent and since then it has been named Trenton.

LUMBER TRADE.

A large business was done here for nearly seventy years back in the rafting of square timber for the Quebec and other markets, great quantities being brought down the River Trent for this purpose from the immense range of country intersected by it and its tributaries, and is chiefly white pine, with oak and elm. The whole of this was re-raftered here and formed into bands or drams suitable for progress down the rapids of the St. Lawrence to Quebec. The

period the lumber men were detained was from a fortnight to four weeks and gave a lively business to the merchants in Trenton.

Another and increasing feature of this business is that of Saw Logs. During the season of 1869 about 357,500 was the estimate of the logs that was brought down the river, of which 332,500 were sawn up here, and the residue elsewhere, whilst 22,000 by the Moira River were towed here for the same purpose. This gives employment during the season of navigation to a large number of barges and schooners in the conveyance of the sawn lumber to Oswego and other American ports; and from which has been brought back salt, plaster, water lime, &c. Since the year 1869 the subjoined is the statement of saw logs, cedar, &c., from the returns of the corporation boom in each year: 1870, 143,805 pieces; 1871, 226,248; 1872, 271,034; 1873, 578,239; 1874, 206,054; 1875, 230,026; 1876, 340,578; 1877, 205,888; 1878, 259,362. This year, 1879, the estimate is far larger than any preceding year except that of 1873, and it is said to be about 400,000 pieces.

MILLS AND MACHINERY.

Three miles up the river is an excellent grist mill erected by the late Cyrus Weaver, Esq., and now owned by Geo. H. Gordon, Esq., which has three run of stones, and its capacity is about from four to five hundred barrels per week. Close by is the paper mill of Mr. Peter Ford, propelled also by water power, and containing machinery capable of manufacturing four tons of paper per week, and giving employment to twelve persons. There is also a stave and barrel factory, worked by Mr. William Lott. Above and below these establishments together on the west bank of the stream of the Trent, are mill sites in abundance and water power on both banks powerful enough to drive machinery, cotton, woollen and flax mills, &c., which, if they were only in the hands of capitalists, would, from the copious supply of water, afford ample manufacturing power for these purposes, and such as would give the banks of the Canadian river Trent something of the aspect of the celebrated Lowell in the State of Massachusetts, the Manchester of the United States. Above Mr. Gordon's mill a long talked of and much needed bridge has been built, and the enterprise of the authorities of the County carried it out in 1876. Passing near these mills an excellent gravel road runs from Trenton to Frankford, eight miles, and thence to Stirling and Marmora. Two miles lower down upon a tributary stream of the Trent are two grist mills, formerly belonging to the estate of E. W. Meyers, Esq. The lower one is now owned by B. N. Billings, and the upper one by O. H. Simpson, and respectively run by them. In the village is a large stone foundry and engine works, owned and

worked by R. Waddell & Co., also a factory belonging to Wm. Shea, Esq., for the wholesale manufacture of tin and copper ware and the fitting up of cheese factories with other necessary apparatus.

Below the bridge on the west side of the river there are two fine new grain elevators. One of them erected by W. Jeffs, Esq., is worked by horse power, and the other owned by Messrs. McLellan Brothers is worked by a steam engine.

In the large stone foundry erected by the late Sheldon Hawley, Esq., is now an extensive sash and door factory under the management of Mr. T. McRae, formerly of Belleville, and much lower down and on the shore of the Bay of Quinte is the brewery and malt kiln of J. F. Flindall, Esq., worked by steam power.

On the east side of the river also, and on the shore of the Bay of Quinte lies the steam saw mill owned by Messrs. Gilmour & Co. The mill proper is 106 feet in length by 62¹/₂ in breadth, with an addition of 61 feet square for engine house and boilers. It is two stories in height. The basement being devoted to the machinery and running gear, and the upper story to the manufacture of the logs into lumber. It is furnished with two engines that combined can work to 180 horse power. There are six gangs, with machinery for butting and edging the lumber, and for the manufacture of lath, barrel headings, pickets, &c. The average cut of the mill is 200,000 feet of lumber every twenty-four hours. During the night the mill is lighted with gas, which is manufactured on the place, consuming about 1,600 cubic feet each night. For this purpose there is a building 53 feet long and 30 feet wide, part used as a gas house and the other part fitted up as offices for the business of the mill. There is likewise a planing mill 53 feet by 19 feet, and forming part of the same building, a carpenter shop 31 feet by 23 feet; a machine shop 53 feet by 29 feet; a shed for dressed lumber 51 feet by 19 feet; stone boiler and engine room 30 feet by 16 feet. For the use of the horses necessary to carry on the works there is stabling for twenty spans. There are twenty-five horses now at work. A blacksmith shop 24 feet by 36 feet. As a preventative to fire there has been erected a tower 32 feet square at the base, and 75 feet high. At the top of this tower is a large tank, which is filled with water by the engine. There is communication from this tank to four large hydrants, by which a powerful stream of water can be thrown on any of the buildings. For the convenience of piling the lumber and shipping it there are three wharves with tracks laid and cars. This establishment employs about the mill over 250 operatives.

The extensive saw mill formerly owned by A. S. Page & Co. on the island two miles below the bridge has changed hands, and now belongs to Messrs. H. B. Rathbun & Son, of Mill Point, and this firm are about making arrangements for its resuming work very soon, and in the hands of this most energetic and enterprising Company, Mill Island, which has recently been solitary and unaccustomed to its previous business-like aspect, will soon surpass its former self.

GRAIN TRADE AND EXPORTS.

Trenton, as a grain market is steadily enlarging and attracting farmers from a larger section of country, to dispose of their produce here. But little wheat is shipped, there being so many mills in this section of the country, the greater part being floured before shipping.

There is a considerable amount of butter shipped from this point, and there is no way of arriving at the exact amount. In pork a large quantity is imported or bought up by the Gilmour firm to supply their extensive lumber shanties on the tributaries of the river Trent, and this year the amount will probably be about 300 barrels. A large amount of pork is fed in this vicinity and the adjoining Counties and sold in the growing market here, and bought up chiefly for home consumption. A large quantity of hops, eggs, cheese, wool, potatoes, fish and apples are shipped here for exportation, and of the latter from the very extensive orchards in this neighborhood there have been thus sent this season 4,000 barrels, of which 1,200 were sent by one grower (Mr. W. G. Bonter). Of some of these we have no means of estimating the exact amount. There is here also a good market for hides and skins and a fair quantity is exported.

Of paper, from a large mill on the Trent at Frankford, belonging to Messrs. Sils, and that of Mr. Peter Ford, before mentioned, there have been from 300 to 400 tons shipped, and the quantity is increasing.

The exports from the port of Trenton, for the fiscal year ending June 30th, 1879, according to the books of F. McGuire, Esq., Collector of Customs, is as below :

Total importations for year ending June 30th, 1879, \$27,146. Total exports for year ending January 30th, 1879 : Sawn lumber, 16,901 M., \$159,160 ; lath, 1,767 M., \$1,767 ; bass wood bolts, 143 cords, \$429 ; barrel heading, 699 M., \$2,284 ; hides and skins, \$121 ; poplar wood, 321 cords, \$963 ; cedar, 15,614 pieces, \$1,561 ; barley, 98,690 bus., \$93,480 ; peas, 18,004 bus., \$11,775 ; rye, 67,721 bus., \$33,845 ; wheat 9,795 bus., \$9,083 ; eggs,

33,033 doz., \$2,675; leached ashes, 770 tons, \$1,130; fresh fish, 34,918 lbs., \$1,720. Total, \$319,993. Also several cargoes of grain shipped to Montreal and other ports in the Dominion. This return applies only to the United States, and does not include what is sent to Montreal, Quebec and elsewhere.

A large quantity of grain, chiefly coarse grain, as rye, barley, peas, &c., has been bought here in this popular grain market, and sellers have come the distance of forty and fifty miles back with large loads of these articles and sold them here this season of 1879, to the enterprising buyers, Messrs. J. D. McAulay, Whittier, Squiers, Jeffs, J. N. Lee, W. F. Baker and Coons, and it is estimated that about 410,000 bushels have been thus purchased, and shipped to the United States during the season. Some idea of the increasing trade of Trenton at the present time, the fall of 1879, from the subjoined Custom House report from Nov. 1st to Nov. 17th, 1879: Outwards: Nov. 1st, Steamer Alexandra, T. Redner, 22 cases of eggs. Nov. 3rd, Schr. Benedict, 11,672 bush. barley, J. D. McAulay. Nov. 3rd, Schr. T. H. Wells, 6,295 bush. rye, H. Coons. Nov. 7th, Schr. McClellan, 36,000 feet lumber, Gilmour & Co. Nov. 7th, Schr. H. J. Collier, 9,000 bush. barley, W. F. Baker. Nov. 7th, Schr. Paragon, 9,169 bush. barley, J. D. McAulay. Nov. 8th, Schr. Geo. Suffel, 4,600 bush. barley, W. F. Baker. Nov. 10th, Schr. A. G. Ryan, 7,386 bush. rye, J. N. Lee. Nov. 12th, Schr. Teressa, 7,500 bush. barley, W. F. Baker. Nov. 14th, Schr. Picton, 10,000 bush. barley, H. Coons. Nov. 14th, Screw steamer Johnston, 168,000 feet of lumber, Gilmour & Co. Nov. 14th, Schr. Nellie Sherwood, 6,000 bush. rye, W. F. Baker. Nov. 15th, Schr. Wave Crest, 8,703 bush. rye, J. D. McAulay. Nov. 17th, Schr. Florence, 165,000 feet lumber, Gilmour & Co. The returns of exports from Trenton by the Grand Trunk Railway, as forwarded by the Station Master, T. Henderson, Trenton Station, for the half year ending June 30th, 1879, is as follows: flour, 2,000 bls.; paper, 500,000 lbs.; staves, 20,000 lbs.; sundries, 100,000 lbs.; scrap iron, 40,000 lbs.; hops, 10,000 lbs.; grain, 72,000 lbs.

SHIP-BUILDING.

The facilities for ship-building at Trenton are great and cannot easily be surpassed in the Province of Ontario. Materials can be so readily procured here, and ships could be built for ocean navigation at the head of the Bay of Quinte, from which, by the St. Lawrence they would have easy access to the Atlantic. A large schooner was built here in the summer of 1864, by the Messrs. Gilmour & Co., in conjunction with captain Dench. Length of keel, 115 feet; breadth of beam, 26 feet; depth of hold, 9 feet 6

inches ; tonnage 285 tons, named the Trenton. Latterly Mr. Alexander Cuthbert, formerly of Cobourg, the celebrated ship and yacht builder, has settled here, and within the last three years has built the subjoined list of yachts and other sailing craft : Annie Gilbert, steam yacht, 50 feet in length and ten feet beam, 12 horse power, W. H. Gilbert, Trenton, owner ; Wide Awake, sailing yacht, 5 tons, James Clarke, Belleville, owner ; Maggie Noble, steam tug, 25 tons, J. Noble, Peterborough, owner ; Emma, sailing yacht, 10 tons, Mr. Offord, Kingston, owner ; Winona, steam yacht, 48 feet length, 8 feet beam, 14 horse power, Messrs. Ferguson and Marshall, Montreal, owner ; — steam yacht, 46 feet length, 9 feet beam, 16 horse power, Mr. Stevenson, Brockville, owner ; now building, large sailing yacht, 55 tons, and another sailing yacht of 10 tons for Capts. Murray and Duggan of Toronto. Besides these Captain Porte had built here this year, a fine steam ferry boat, named the Mary Ethel, for service on the Bay, and is used as such between Sidney and Ameliasburg. R. Weddell and Co., Trenton firm, has furnished the steam engine works for the above from their foundry here.

MERCANTILE ESTABLISHMENTS, ETC.

There are in Trenton, three drug and book stores, two hardware stores, three boot and shoe stores, two watchmakers, two harness makers, three tinsmiths, two marble cutters, three merchant tailors, fifteen grocers, one wholesale grocer, eight hotels, and a number of dry goods stores, etc., sufficient for the community in and around the village.

PUBLIC BUILDINGS, &c.

There is a Town Hall of stone, 60 × 40 feet, of some architectural pretensions, having in addition to the Hall a Council Chamber and ante-room in the second story. The lower story is occupied with butchers' stalls, clerk's office, and lock-up, &c. Around it is an open space with hay scales, brick fire engine house, sheltering a fine steam fire engine made by Mr. Ronald, of Chatham, at a cost of \$8,000, and ground for outside market.

Close by it is the drill shed, the dimensions of which are 50 × 80 feet.

The places of worship are six in number, as follows :—

St. George's Church, Trenton, of stone, with a square tower, and a nave of over sixty feet in length, a chancel twenty feet in length, and in the advanced early English style of ecclesiastical architecture. Hours of service, 10:30 a. m. and 7 p. m. Sunday School at 2:15 p. m. All the seats are free.

Church of England.—Canterbury Hall, in west Trenton, a parochial Hall and School Church, just erected in the fourth or latest English style of ecclesiastical architecture, of white brick, ornamented with red. Seats for 513 persons. Sunday School 2:30 p. m. Evening service 7 p. m.

Rector.—Rev. Canon Bleasdel, D. C. L., Examining Chaplain to the Lord Bishop of Ontario. Churchwardens.—A. W. Hawley and R. Loughhead, Esquires. Lay Delegates.—W. Shea, W. T. Barker and C. Francis.

Canada Methodist Church.—A fine new brick Church with a tower and spire. Seating capacity 600. Cost \$13,000. Rev. Peter Addison, Minister.

Canada Presbyterian Church.—(Free) a neat building of frame.—Rev. J. L. Stewart, B. A., pastor.

Roman Catholic Church.—A fine brick church with derestory of the Byzantine style of architecture. The interior is handsomely frescoed and is the finest in this section, seating 900. Rev. H. Brettargh.

Grace M. E. Church.—A brick Church in east Trenton.—Rev. F. Finn, pastor.

St. George's Church has an excellent brick Rectory, on the west side of river, close by Canterbury Hall. The Wesleyan Methodists have also an excellent frame building for their Minister, and the Roman Catholics have a tasteful stone one, close beside the Church.

Of Sunday Schools, St. George's Church has two, one at the Church, and the other on the west and opposite side of the river, and these are held at 2:30 p. m. every Sabbath.

The Canada Methodists have one at the same time on the west side of the river.

The incorporated Village of Trenton covers ground sufficiently large for a town or even a city, if all the lots within were occupied by buildings and its surveyed streets filled up. This is being done progressively, and recently some excellent brick buildings for shops and private residences have been erected, which add much to its appearance. The future will doubtless add more of these, now that the public spirit is becoming more active in this matter. Fires in past years have destroyed some excellent buildings, and they have in all cases been replaced. During the past eight years a great change has taken place in the style of buildings for residences and mercantile purposes. The fine residences

erected of late in west Trenton are owned by Messrs W. H. Austin, Wm. Ireland, James Young, D. R. Murphy, James Squier, Dr. Moran, Drs. Day and McClellan, Capt. J. Porte and a number of others. In the business portion of the village are brick blocks erected by Messrs. Austin & Hilton, W. M. Ireland, L. A. Purdy, J. N. Lee, McLellan Bros., G. A. White, J. W. Thompson, the Cooley Estate, the latter of which has also recently erected a fine block of six stores, with plate glass windows. There are two large brick hotels. On the east side of the river several fine buildings have been lately erected. G. W. Ostrom's and D. Gilmour's residences are worthy of notice. The fine brick school buildings, capable of seating 350 pupils, are also in east Trenton. The appearance of Trenton is greatly improved by the erection of the fine churches by the Roman Catholic, Canada Methodist, Episcopal Methodist and Church of England congregations.

Trenton is distant from Toronto 101 miles, Kingston 66 miles, Belleville 12 miles, Frankford 8 miles, and Brighton 10 miles. The G. T. Railway station is about a mile and a quarter from the centre of the village.

TYENDINAGA.

Tyendinaga is a large new township, fronting on the northern extremity of the so-called "Long Reach," containing within its geographical limits about 92,700 acres of excellent land. It is bounded on the north by the Township of Hungerford; on the east by Richmond, in the County of Lennox; on the south by the Bay of Quinte, and on the west by Thurlow. It was named after and in honor of the celebrated chief of the Six Nation Indians, better known by his English appellation, Joseph Brant, who came to Canada with remnants of his tribes about 1793-4, from Lewistown, New York, and located upon the northern shore of a portion of the Bay of Quinte.

The surface of the land is undulating and inclining towards the south-west, rendering drainage every way possible. The soil is similar to that of Thurlow, is of a calcareous nature; occasionally the limestone formation approaches so near the surface as to render the soil difficult of cultivation, and in some places the rock is quite prominent. The land, where not too rocky, is of the greatest fertility, and is second to none in the county in its natural productiveness. All cereals are raised abundantly, also fruit; nowhere in the Province, or perhaps in this latitude, is there better encouragement for the fruit-grower,—a soil of peculiar adaptability and a climate modified by the Bay breezes ensure a fair quality of fruit, especially apples. Tyendinaga is of all the townships in the county the best watered, seven parallel streams with their tributaries run through the whole width of the municipality in a south-westerly direction, emptying themselves into the Bay and Moira River. Sucker creek takes its rise in the township of Richmond, in the county of Lennox, and runs through the south-east corner of the Reservation, emptying into the Bay directly south of the Indian Council house. Mud creek also takes its rise in Richmond, and runs parallel with and about two miles from Sucker creek, emptying into Hungary Bay. The Salmon river, a considerable stream running parallel with Mud creek, and upon which are situated the villages of Shannonville, Milltown, Lonsdale and Kingsford, upon the eastern boundary, takes its rise in Crow Lake, township of Kennebec, in the county of Frontenac, and was known by the Indians as the *Gossippa*; upon this river are located flouring and saw mills, factories, &c., and it affords water power for all the requirements of the vicinity. Fisher creek, a

tributary of the Salmon river, receives its first supply upon lot No. 21, in the 6th concession of the township, near Read P. O., and empties into the Salmon on lot 23, in the 2nd concession; an unnamed creek also takes rise immediately south of Read P. O., running in a south-westerly direction, emptying into the Bay upon lots Nos. 15 and 16 in the township of Thurlow. Parker creek, with its several tributaries, waters the north-west part of the township, and empties itself into the Moira, at Plainfield, in Thurlow. The Moira river also runs across the north-west corner of Tyendinaga, and upon which is situated a grist and saw mill; on the northern boundary, near the cheese factory of John White, M. P., a small stream, rising upon lot 27, in the 9th concession, empties into the Moira River, in the township of Hungerford. A portion of Mud Lake, on the eastern boundary, between the 7th and 8th concessions, is also situated in the township of Tyendinaga, which abounds with several species of fresh water fish.

Lonsdale is a small post village of recent date, also situated on the Salmon River, and lot No. 32, in the 2nd concession of the township of Tyendinaga. It has a population of about 200. Considerable business is done at this point, drawn principally from the fine agricultural country by which it is surrounded. The village is growing rapidly, and promises fair to become one of importance in the township.

Melrose P. O. and village is located upon lot No. 13 in the 3rd concession of Tyendinaga, and is the seat of municipal government. The Town Hall, a most substantial brick building, with every convenience for the accommodation of the council and ratepayers, is situated in the village. There is a blacksmith's shop, tavern, etc., two churches and a cheese factory. A school is situated a short distance west of the village. Population, 100.

TOWNSHIP OFFICERS.—E. Hollingsworth, Clerk; John Skelly, Treasurer; John Milligan, Surveyor.

NOTE.—The Post Office Address of each resident is given, and is the last word in each line, "Kingsford" being the post office of Abbott, Aa, and "Shannonville" being the post office of Alexander, Thomas, &c., "f" stands for freeholder, and "h" for householder. In this township there are two *first* concessions and two *second* concessions, which are divided by what is called the "Slash road," and where names occur with the letters "S. S. R." it signifies south of the Slash Road, and with the letters "N. S. R." it signifies north of the Slash Road.

T W E E D .

The village of Tweed is pleasantly and favorably situated on the Moira, adjacent to Stoco Lake, and in the north-western part of the Township of Hungerford, and is distant from Belleville 25 miles. This village was laid out on lot number 11 and part of lot number 12, in the year 1850, by John Emerson, P. L. S., for the late James Jamieson. The early settlement of the village is contemporary with that of the surrounding country. It possesses one of the finest water power privileges on the river, and can boast of having one of the best flouring and grist mills in the County; the present proprietor, Mr. J. C. Jamieson, having during the last season spent a large sum in rebuilding it and putting it in the newest and most improved machinery. It is leased to Mr. George Easterbrook, a first class miller, whose fair and square dealing has secured for him the business of the surrounding country. Adjoining the flouring mill is a large saw mill, leased to Mr. J. H. Jordan. It contains large circular, edging, cutting and lath saws, cheese box machinery and planer. On the opposite side of the river are excellent sites for the establishment of manufactories, and now that there is a prospect of railway communication with the front, there is no doubt this will be utilized, and before long we may expect to see flourishing manufactories on the banks of the Moira at this point, and the trade and business of the village largely increased.

Tweed is surrounded with an excellent agricultural district. The soil is chiefly sandy loam, with now and then a mixture of clay, and the well-cultivated farms, the substantial and neatly built farm houses, with their commodious out-buildings, and the superiority of the stock, are all evidences of thrift and industry.

Until the year 1877, Georgetown, a small village adjoining Tweed on the south, was the seat of the Municipal Government, but in that year, a new Township Hall was built in the Village of Tweed. It occupies a favorable site, is built of brick, contains the hall proper, and a Clerk's office with a fire proof vault for the safe keeping of the records of the Township. The grounds surrounding the hall are well fenced, a portion being a stone foundation which rises above the ground two feet, the whole surmounted by a good iron fence. Within the last few years, a number of new buildings have been erected, elegant private residences tak-

ing the place of old and dilapidated ones, and on every hand there are evidences of thrift and enterprise, which give indication of real and substantial prosperity. It has one of the finest school buildings in the county, built of stone. Its religious welfare is well provided for, there being four Churches, viz:—the Church of England, Canada Methodist, Episcopal Methodist, and Bible Christian. The Roman Catholics have a Church on Sugar Island, about three miles from Tweed. The brethren of the Mystic tie have provided for themselves a neat hall, 18 by 36, two stories in height; and the Orange Brotherhood have a comfortable hall for themselves and the Orange Young Britons. There are a number of first class general stores, several hotels, telegraph offices, drug stores, a tinsmith shop, carriage makers, tailors, shoemakers, butchers, bakers, &c. Mr. Adam McGowan, carriage maker, has recently greatly enlarged his premises, and continues to manufacture wagons, carriages, buggies, sleighs, &c., which for style and durability cannot be surpassed. Mr. Wm. Garrett, has removed his Iron foundry from Georgetown to Tweed, and does a large and successful business. Mr. Wm. Wray, keeps an office as general agent, commissioner and conveyancer. Mr. John McCamon, is issuer of Marriage Licenses. The village now contains about one thousand inhabitants, and when the contemplated Branch Railway, connecting the Belleville and North Hastings Railway with the village is completed, a great impetus will be given to all kinds of business, and a new era of prosperity will dawn upon the village.

TUDOR, WOLLASTON, LIMERICK AND CASHEL.

These Townships were united a few years ago for municipal purposes into one municipality. It has owed its prosperity in a great measure to its pine forests and mineral wealth. There are at the present time three hundred and forty-two land owners, including some large companies, who have bought large tracts of land for mineral purposes, the most extensive Company being the Ontario Mining and Manufacturing Company. Gold, silver, lead, iron and other metals are found in these Townships. At the present time the most noted gold mine is in the south-east corner of Tudor, which is calculated by all practical miners to be of vast richness. Silver has been discovered in the south-west corner of Cashel, but not in such quantities as the miner would like. Lead has been discovered in various parts of the four Townships, but has never been properly tested; the most noted lead veins being owned by Chard & Wellington, the Ontario Mining Company, and John Hogen. Iron ore is so plentiful in these Townships that all that is required of any persons who claim to be a judge is to go and see for themselves. One of the most noted beds of iron ore is situated on the old Hastings Road about five miles north of Millbridge, which has occupied the attention of the Courts for several years, but was finally settled by the Court of Chancery in the fall of 1878. There is another valuable bed of iron ore in the north part of Tudor, known as the Baker mine. In fact belts of iron ore cross these Townships in several places. All that is wanted at the present time to develop our vast mineral wealth is the continuation of the Belleville and North Hastings Railway, when the minerals and timber of these Townships would find an outlet to the front, and industries would be created which would cause a great flow of emigration to this part of the country.

COUNTY OF PRINCE EDWARD.

AMELIASBURGH.

The Township of Ameliasburgh is situated in the County of Prince Edward, and is bounded on the north by the Bay of Quinte, on the South by the Township of Hillier, on the east by the Township of Sophiasburgh, and on the west by Lake Ontario. Its proximity to the flourishing City of Belleville has, to a great extent, made the commercial interests of the two places identical. The inhabitants of Ameliasburgh, as well as some of the adjoining townships in Prince Edward, have found it to their advantage to buy their goods and wares of the merchants of Belleville, and in order to accommodate the traffic between the two sections the ferry accommodations have been considerably enlarged within the last few years, and last year an additional ferry steamer was built, the route being between Morden's wharf in Ameliasburgh, and a wharf a short distance west of the Cemetery in Sidney. It is considered by many that even this accommodation is insufficient for the traffic and for some time past, the question of building a bridge from Zwick's Island to Ferry Point has been agitated, and the scheme has many warm advocates. There are several villages in the township, the most important being Roblin's Mills, Consecon, Rossmore and Rednerville. Alphabetical lists of the residents of Roblin's Mills, Rednerville and Rossmore, are given in connection with the Township. Ameliasburgh was settled about the same period as the Township of Sidney, and is one of the oldest settled townships in the Province. The soil is excellent for agricultural purposes.

NOTE.—The Post Office Address of each resident is given, and is the last word in each line, "Ameliasburg" being the post office of Adams, John, and "Consecon" the post office of Allen, John, &c., "f" stands for freholder, and "h" for householder.

REDNERVILLE.

Rednerville is a pleasant little village on the Bay of Quinte shore five miles south-west from Belleville. It contains a general store, owned by W. H. Ketcheson, a waggon shop, tailor, blacksmith, and shoe shops, hotel, a fine church, some very excellent private residences, and a store house where a large amount of grain is handled by Mr. Redner, after whom the village has been named. It has a daily mail from Belleville, and a stage runs between it and Roblin's Mill. It is surrounded by a rich agricultural country. Population about 150.

ROBLIN'S MILLS.

Roblin's Mills is the present seat of government for the Township of Ameliaburg, is situated about eight miles nearly south of Rednerville. It has a large stone flouring mill, a saw mill, shingle mill and cooperage attached, contains several good general stores, a first-class carriage shop, a harness shop, tailor shop, blacksmith shops, &c., &c. It has a fine Town Hall which cost about \$4,000. The inhabitants are supplied with pure water from Roblin's Lake, on the banks of which the village is built, by means of a wind-mill supplying a tank, which in turn supplies the various houses through a system of pipe connected therewith. Population about 300.

ROSSMORE.

Rossmore, better known as Ferry Point, is built upon a rocky point called Point Hennessey, opposite Belleville, and one mile distant therefrom. Communication is had by means of the steam ferry *Prince Edward*, which is timed to run every hour between the two ports, but on market and busy days is kept constantly running. The village has a hotel, two stores, blacksmith shop, &c. But the principal point of industry is the large steam saw mill, lately purchased by Messrs. H. B. Rathbun & Son, of Mill Point. Like every enterprise with which this firm has anything to do, just as soon as they came into possession, the mill was put in thorough order, supplied with every modern convenience and improvements, and as it was one of the largest in capacity on the Bay shore, it is now one of the finest mills in the County. The firm is making preparations to extend the docks to the old ferry landing, about 250 feet, and contemplate other improvements. When in full running order, it gives employment to about eighty persons. Since Messrs. Rathbun & Son came into possession of this property, considerable change has come over the appearance of the village, houses have been whitewashed, yards cleaned up, fences erected, and an air of thrift has been given to the locality. Population about 300.

CUSTOMS DEPARTMENT

—o—

REGULATIONS GOVERNING TRAVEL- LERS' CARRIAGES, ETC., CROSSING THE FRONTIER.

—

To insure uniformity at the frontier ports in dealing with "carriages of travellers and carriages laden with merchandise," and to afford the utmost facility to parties visiting the Dominion for transient purposes, consistent with the protection of the Revenue, the *Minister of Customs* has approved of the following "Regulations and Restrictions."

1st.—Regular stages and hacks, when the owners or the drivers are known to the officers, may be allowed to cross the frontier and return, within two days, without being required to make an entry at the Custom House, subject only to the ordinary examination, search and inspection.

2nd.—Travellers intending to remain within the Dominion for a longer period than two days, are required in all cases to report and enter their horses, carriages and travelling equipage; and in cases where they do not intend to leave at the same point at which they enter, or are uncertain on that point, they must deposit with the Collector the full amount of duty on such horses, carriages, and other dutiable articles, to be returned only on their furnishing satisfactory evidence that the same articles have been returned unchanged to the United States. Travellers intending to leave at the Port of Entry may be allowed to enter as above and, in lieu of cash, to give a bond, with an approved resident surety, covering the amount of duty, and with the additional condition that such bond shall be enforced if the time specified therein be exceeded.

3rd.—The time to be allowed travellers in either case shall not exceed one calendar month; and if that time be exceeded, the entries shall be considered *bona fide* entries for duty, and be included in the accounts of the port.

4th.—All moneys received by Collectors on deposit, under the above Regulations, shall be, if possible, deposited *ad interim* in a bank, in the Collector's name; and if there is no bank available, then in some other place of security under the Collector's credit, and a separate account of the receipt and disposal of such deposit should be sent quarterly to the Department.

5th.—The entries in such cases should contain such a description of the horses, carriages, &c., as would enable the Collector or other officer to identify them on their leaving the Dominion; and a copy shall be furnished the owner or other person making such entry, which shall be his permit for travelling in the country.

REGULATIONS

RESPECTING THE DISPOSAL OF CERTAIN PUBLIC LANDS FOR THE PURPOSES OF THE CANADIAN PACIFIC RAILWAY.

DEPARTMENT OF THE INTERIOR,
Ottawa, Oct 14, 1879.

Public notice is hereby given that the following provisions, which shall be held to apply to the lands in the Province of Manitoba, and in the Territories to the west and north-west thereof, are substituted for the Regulations, dated the 9th July last, governing the mode of disposing of the Public Lands situate within 110 (one hundred and ten) miles on each side of the line of the Canadian Pacific Railway, which said Regulations are hereby superseded :—

1. "Until further and final survey of the said railway has been made west of the Red River, and for the purposes of these provisions, the line of the said railway shall be assumed to be on the fourth base westerly to the intersection of the said base by the line between ranges 21 and 22 west of the first principal meridian, and thence in a direct line to the confluence of the Shell River with the River Assiniboine.

2. "The country lying on each side of the line of railway shall be respectively divided into belts, as follows :—

"(1) A belt of five miles on either side of the railway, and immediately adjoining the same, to be called Belt A ;

"(2) A belt of fifteen miles on either side of the railway, adjoining Belt A, to be called Belt B ;

"(3) A belt of twenty miles on either side of the railway, adjoining Belt B, to be called Belt C ;

"(4) A belt of twenty miles on either side of the railway, adjoining Belt C, to be called Belt D ; and

"(5) A belt of fifty miles on either side of the railway, adjoining Belt D, to be called Belt E.

3. "The even numbered sections in each township throughout the several belts above described shall be open for entry as homesteads and pre-emptions of 160 acres each respectively.

4. "The odd numbered sections in each of such townships shall not be open to homestead or pre-emption, but shall be specially reserved and designated as Railway Lands.

5. "The Railway Lands within the several belts shall be sold at the following rates, viz :—In Belt A, \$5 (five dollars) per acre ; in Belt B, \$4 (four dollars) per acre ; in Belt C, \$3 (three dollars) per acre ; in Belt D, \$2 (two dollars) per acre ; in Belt E, \$1 (one dollar) per acre ; and the terms of sale of such lands shall be as follows, viz :—One-tenth in cash at the time of purchase ; the balance in nine equal annual instal-

ments, with interest at the rate of six per cent. per annum on the balance of the purchase money from time to time remaining unpaid, to be paid with each instalment.

6. "The Pre-emption Lands within the several belts shall be sold for the prices and on the terms respectively as follows :—In the Belts A, B and C, at \$2.50 (two dollars and fifty cents) per acre ; in Belt D, at \$2 (two dollars) per acre ; and in Belt E, at \$1 (one dollar) per acre. The terms of payment to be four-tenths of the purchase money, together with interest on the latter at the rate of 6 per cent. per annum, to be paid at the end of three years from the date of entry ; the remainder to be paid in six equal instalments annually from and after the said date, with interest at the rate above mentioned on such portions of the purchase money as may remain unpaid, to be paid with each instalment.

7. "All payments for Railway Lands, and also for Pre-emption Lands, within the several Belts, shall be in cash, and not in scrip or military or police bounty warrants.

8. "All moneys received in payment of Pre-emption Lands shall inure to and form part of the fund for railway purposes, in a similar manner to the moneys received in payment of Railway Lands.

9. "These provisions shall be retroactive so far as relates to any and all entries of Homestead and Pre-emption Lands, or sales of Railway Lands obtained or made under the Regulations of the 9th of July, hereby superseded ; any payments made in excess of the rate hereby fixed shall be credited on account of sales of such lands.

10. "The Order-in-Council of the 9th November, 1877, relating to the settlement of the lands in Manitoba which had been previously withdrawn for Railway purposes, having been cancelled, all claims of persons who settled in good faith on lands under the said Order-in-Council shall be dealt with under these provisions, as to price of Pre-emptions, according to the belt in which such lands may be situate. Where a person may have taken up two quarter-sections under the said Order-in-Council, he may retain the quarter-section upon which he has settled, as a Homestead, and the other quarter-section as a Pre-emption, under these provisions, irrespective of whether such Homestead and Pre-emption may be found to be upon an even-numbered section or otherwise. Any moneys paid by such person on account of the lands entered by him under the said Order-in-Council, will be credited to him on account of his Pre-emption purchase, under these provisions. A person who may have taken up one quarter-section under the Order-in-Council mentioned will be allowed to retain the same as a Homestead, and will be permitted to enter a second quarter-section as a Pre-emption, the money paid on account of the land previously entered to be credited to him on account of such Pre-emption.

11. "All entries of land shall be subject to the following provisions respecting the right of way of the Canadian Pacific Railway, or of any Government colonization railway connected therewith, viz :

a "In the case of the railway crossing land entered as a Homestead, the right of way thereon, and also any land which may be required for station purposes, shall be free to the Government.

b "Where the railway crosses Pre-emptions or Railway Lands, entered subsequent to the date hereof, the Government may take possession of such portion thereof as may be required for right of way or for station grounds or ballast pits, and the owner shall only be entitled to claim payment for the land so taken, at the same rate per acre as he may have paid the Government for the same.

c "In case, on the final location of the railway through lands unsurveyed, or surveyed but not entered for at the time, a person is found in occupation of land which it may be desirable in the public interest to retain, the Government reserves the right to take possession of such land, paying the squatter the value of any improvements he may have made thereon.

12. "Claims to Public Lands arising from settlement after the date hereof, in territory unsurveyed at the time of such settlement, and which may be embraced within the limits affected by the above policy, or by the extension thereof in the future over additional territory, will be ultimately dealt with in accordance with the terms prescribed above for the lands in the particular belt in which such settlement may be found to be situate, subject to the operation of sub-section c of section 11 of these provisions.

13. "All entries after the date hereof of unoccupied lands in the Saskatchewan Agency, will be considered as provisional until the railway line through that part of the territories has been located, after which the same will be finally disposed of in accordance with these provisions, as the same may apply to the particular belt in which such lands may be found to be situated, subject, as above, to the operation of sub-section c of section 11 of these provisions.

14. "With a view to encourage settlement by cheapening the cost of building material, the Government reserves the right to grant licenses, renewable yearly, under section 52 of the '*Dominion Lands Act, 1879*,' to cut merchantable timber on any lands situated within the several belts above described, and any settlement upon, or sale of lands within, the territory covered by such licenses, shall for the time being be subject to the operation of such licenses.

15. "The above provisions, it will, of course, be understood will not affect sections 11 and 29, which are public school lands, or sections 8 and 26, Hudson's Bay Company's lands.

"Any further information necessary may be obtained on application at the Dominion Lands Office, Ottawa, or from the agent of Dominion Lands, Winnipeg, or from any of the local agents in Manitoba or the Territories.

By order of the Minister of the Interior.

J. S. DENNIS,

Deputy of the Minister of the Interior.

LINDSAY RUSSELL,
Surveyor General.
